A close look at post-1968 French thinkers Régis Debray, Emmanuel Todd, Marcel Gauchet, and Alain de Benoist In *The Anthropological Turn*, Jacob Collins traces the development of what he calls a tradition of "political anthropology" in France over the course of the 1970s.

After the social revolution of the 1960s brought new attention to identities and groups that had previously been marginal in French society, the country entered a period of stagnation: the economy slowed, the political system deadlocked, and the ideologies of communism and Catholicism lost their appeal. In this time of political, cultural, and economic indeterminacy, political anthropology, as Collins defines it, offered social theorists grand narratives that could give greater definition to "the social" by anchoring its laws and histories in the deep and sometimes archaic past. Political anthropologists sought to answer the

most basic of questions: what is politics and what constitutes a political community? Collins focuses on four influential, yet typically overlooked, French thinkers—Régis Debray, Emmanuel Todd, Marcel Gauchet, and Alain de Benoist—who, from Left to far Right, represent different political leanings in France. Through a close and comprehensive reading of their work, he explores how key issues of religion, identity, citizenship, and the state have been conceptualized and debated across a wide spectrum of opinion in contemporary France. Collins argues that the stakes have not changed since the 1970s and rival conceptions of the republic continue to vie for dominance. Political and cultural issues of the moment—the burkini, for example—become magnified and take on the character of an anthropological threat. In this respect, he shows how the anthropological turn, as it figures in the work of Debray, Todd, Gauchet, and Benoist, is a useful lens for viewing the political and social controversies that have shaped French history for the last forty years.

This book focuses on the recent political and economic events in the former Yugoslavia. The author presents a clear, detailed and accessible breakdown of the developments in: Bosnia-Herzegovina, Croatia, the Former Yugoslav Republic of Macedonia, Slovenia and the Federal Republic of Yugoslavia (Serbia and Montenegro). The role of the West in the more unstable countries of the Former Yugoslavia has been reassessed in the light of the terrorist attacks on the United States and the fall of Afghanistan. The involvement of the US, in particular, in countries affected by ethnic strife has been brought under scrutiny, as has the role of international military and civilian

involvement in maintaining peace and rebuilding economies and political structures. This book contributes to these debates by providing a unique level of coverage of economic and political developments in former Yugoslav countries. It will provide an invaluable source of reference for all those interested in transitional and developing countries.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands

that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

Wilderness abounds in New York State. From the Great Lakes to the Atlantic Ocean, from the Adirondack Mountains to the Catskills, from the St. Lawrence River to the Hudson, millions of acres of public lands are dotted with hundreds of campgrounds--but you probably only have a precious amount of limited time. Which campgrounds do you choose? Where should you go? When should you go? That's what *Best Tent Camping: New York State* is for--to help you make the wisest use of your time in the wilds of New York. Divided geographically into seven sections--Long Island, Catskills/Hudson Valley, Central/Leatherstocking, Adirondacks, St. Lawrence River, Finger Lakes, and Western--the book is a helpful reference for camping enthusiasts throughout the state. And highlighting activities, hiking trails, and local attractions, it will also serve as inspiration when planning a trip. Historical tidbits, descriptions of wildlife and the occasional personal anecdote add flavor to the campground descriptions. Star ratings and maps make choosing the best place to pitch a tent a simple task. Each campground has been rated on six criteria: beauty, privacy, spaciousness, quiet, security and cleanliness. In addition, campground profiles include vital statistics about each location (fees, restrictions, operating season, amenities, contact information, driving directions and reservation information, to name a few) that help campers plan the perfect trip without unwanted surprises. GPS users will also appreciate that each campground's

precise latitude and longitude waypoints are included. Tent campers will also enjoy a detailed map of each campground included in the site profile. Making reservations online or blindly over the phone can put a camper miles from the restroom, stranded with no shade, or in the middle of a busy campground trail. Maps will help campers avoid those pitfalls, and wherever possible the author has even recommended specific campsites for maximum privacy, spaciousness, or beauty. *Fahrenheit 451* Oxford University Press

For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
