The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

Civil engineering Graphic Communications Group

Features information on studying at Postgraduate level in the UK, what is involved, what opportunities there are, lists details £ 75 million of funding available to Postgraduate students.

*The Grants Register@ 1998 The Grants Register 2000*

The Grants Register 2000Springer

West Africa Springer  
The most

authoritative and comprehensive guide available on postgraduate grants and professional funding worldwide. For over twenty years The Grants Register has been the leading source for up-to-date information on the availability of, and eligibility for, postgraduate and professional awards. With details of over 3,000 awards, The Grants Register is more extensive than any comparable publication. Each entry has been verified by the awarding bodies concerned ensuring that every piece of information is accurate. As an annual publication, each edition also provides the most

---

current details available today. The Grants Register provides an ideal reference source for those who need accurate information on postgraduate funding: careers advisors, university libraries, student organisations, and public libraries. Also available on CD-ROM.

New Scientist Springer  
In response to changing market needs, The Grants Register has been substantially revised from previous editions for this, its 15th edition. With increased student and professional mobility world-wide, coverage in The Grants Register has been extended from the English speaking world to the whole world, making it the only truly international guide of its kind. The number of awards has increased by 25% from the last edition, with all the information supplied directly by the awarding body. To improve ease of use, the layout and field structure has also been completely update. This has included the introduction of new fields on the level of

study, individual eligibility and applications procedures as well as additional contact details such as email and World Wide Web addresses. The indexes have also been completely revised, with the introduction of an internationally recognised subject index which simultaneously incorporates a geographical guide to eligibility. An alphabetical list of awards will also be given. Now significantly extended, The Grants Register continues to be the only complete guide to awards and grants for postgraduates, young professionals, mature students and advanced scholars.
