Civil Engineering Overland Park's civil engineers ensure public infrastructure in Overland Park is

built to high professional standards for public safety and accessibility. The information in this sections includes design and construction guidelines and standards for building in Overland Park.

The ESM defines the minimum technical requirements for the design, fabrication, construction, commissioning, repair, and replacement of both new and existing systems, structures, and components (SSCs), including both maintenance and modification, for programmatic and facility

work. They do not apply retroactively (forcing changes to existing SSCs that are not being touched).
