With the US Supreme
Court confirmation of

Ketanji Brown Jackson, “ it makes sense to revisit the life and work of another Black woman who profoundly shaped the law: Constance Baker Motley ” (CNN). The first major biography of one of our most influential judges—an activist lawyer who became the first Black woman appointed to the federal judiciary—that provides an eye-opening account of the

twin struggles for gender equality and civil rights in the 20th Century. “ A must-read for anyone who dares to believe that equal justice under the law is possible and is in search of a model for how to make it a reality. ” —Anita Hill Born to an aspirational blue-collar family during the Great Depression, Constance Baker Motley was expected to find herself a good career as a hair dresser. Instead, she became the first black woman to argue a case in front of the Supreme Court, the first of ten she would eventually argue. The only black woman member in the legal team at the NAACP's Inc. Fund at the time, she defended Martin Luther King in Birmingham, helped to argue in *Brown vs. The Board of Education*, and played a critical role in vanquishing Jim Crow laws throughout the South. She was the first black woman elected to the state Senate in New York, the first woman elected Manhattan Borough President, and the first black woman appointed to the federal judiciary. *Civil Rights Queen* captures the story of a remarkable American life, a figure who remade law and inspired the imaginations of African Americans across the country. Burnished with an extraordinary wealth of research, award-winning, esteemed Civil Rights and legal historian and dean of the Harvard Radcliffe Institute, Tomiko Brown-Nagin brings Motley to life in these pages. Brown-Nagin compels us to ponder some of our most timeless and urgent questions--how do the historically marginalized access the corridors of power? What is the price of the ticket? How does access to power shape individuals committed to social justice? In *Civil Rights Queen*, she dramatically fills out the picture of some of the most

profound judicial and societal change made in twentieth-century America.

Race, Class, and the Civil Rights

Movement is a unique sociohistorical analysis of the civil rights movement. In it,

Jack M. Bloom analyzes the interaction between the economy and political systems in the South, which led to racial stratification.

Praise for the first edition: "A unique sociohistorical analysis of the civil rights movement, analyzing

the interaction between the economy and political systems in the South, which led to racial stratification. An intriguing look at the interplay of race and class, this work is both scholarly and jargon-free. A sophisticated study."-Library Journal "This is an exciting book combining dramatic episodes with an insightful analysis. The use of concepts of class is subtle and effective." -Peter N. Stearns "Ambitious and wide-ranging." -Georgia Historical Quarterly "Excellent historical analysis." -North Carolina Historical Review "Historians should

welcome this book. A presenting the major well-written, jargon- structural and free interpretive psychological synthesis, it relates interpretations impersonal political- associated with the economic forces to Civil Rights the human actors who Movement. . . . It were shaped by them will make an and, in turn, helped excellent general shape them text to welcome This refreshing study undergraduates and reminds us how much reintroduce old- the American dilemma timers to the social of race has been ferment that complicated by surrounded the civil problems of class." rights movement."

-American Historical Review "A broad historical sweep . . . Skillfully surveys key areas of historiographical debate and succinctly summarizes a good deal of recent secondary literature." -Journal of Southern History "Bloom does a masterful job of

 Praised by The New York Times; O, The Oprah Magazine; Bitch Magazine; Slate; Publishers Weekly; and more, this is " a bracing corrective to a national mythology " (New

York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History* award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a “ helpmate ” but a lifelong economic justice and peace activist who pushed her husband ’ s activism in these directions. Moving from “ the histories we get ” to “ the histories we need, ” Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the work and disruption it took; the role of the media and “ polite racism ” in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or

unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. *A More Beautiful and Terrible History* will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. Winner of the 2018 Brooklyn Public Library Literary Prize in Nonfiction

Designed with New York State high school students in mind. CliffsTestPrep is the only hands-on workbook that lets you study, review, and answer practice Regents exam questions on the topics you're learning as you go. Then, you can use it again as a refresher to prepare for the Regents exam by taking a full-length practicetest. Concise answer explanations immediately follow each question--so everything you need is right there at your fingertips. You'll get comfortable with the structure of the actual exam while also pinpointing areas where you need further review. About the contents: Inside this workbook, you'll get an introduction and a short lesson on writing essays. You'll also find sequential, topic-specific test questions with fully explained answers for each of the following sections: U.S. and New York State History World History Geography Economics Civics,

Citizenship, and Government A full-length practice test at the end of the book is made up of questions culled from multiple past Regents exams. Use it to identify your weaknesses, and then go back to those sections for more study. It's that easy! The only review-as-you-go workbook for the New York State Regents exam.

Courage to Dissent Colchis Books
A monumental investigation of the Supreme Court's rulings on race, From Jim Crow To Civil Rights spells out in compelling detail the political and social context within which the Supreme Court Justices operate and the consequences of their decisions for American race relations. In a highly provocative interpretation of the decision's connection to the civil rights movement, Klarman argues that Brown was more important for mobilizing southern white opposition to racial change than for encouraging direct-action protest. Brown unquestioningly had a significant impact--it brought race issues to public attention and it mobilized supporters of the ruling. It also, however, energized the

opposition. In this authoritative account of constitutional law concerning race, Michael Klarman details, in the richest and most thorough discussion to date, how and whether Supreme Court decisions do, in fact, matter.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of

your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

A Five Year Review, 1955-1960
Oxford University Press
There is a broad consensus that 1937 marked a turning point in the history of the Supreme Court. This is the first comprehensive treatment of the Court's decision-making in the civil liberties/civil rights sphere in the years preceding that watershed. Professor Braeman refutes the widely held assumption that the post-1937 justices were writing upon a largely blank slate in dealing with civil liberties/civil rights issues, arguing instead that much of what the Modern

Court has done, when viewed in a long-term perspective, appears as incremental expansions of precedents laid down by the Old Court.

The Civil Liberties Review
Oxford University Press
Offers a sweeping history of the civil rights movement in Atlanta from the end of World War II to 1980, arguing the motivations of the movement were much more complicated than simply a desire for integration.

Class, Race, and the Civil Rights Movement, Second Edition

This book is a detailed, thought-provoking and comprehensive text that is valuable not only for students but also for all those interested in the development of civil liberties in the Human Rights Act era

The Three Mothers
Random House
Dr. King ' s best-selling account

of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the Birmingham campaign unfolded in the city ' s streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders ' criticism of the campaign. The resulting piece of extraordinary protest writing, " Letter from Birmingham Jail, " was widely circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in *Why We Can ' t Wait*, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King ' s most incisive and eloquent book, *Why We Can ' t*

Wait recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil rights legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were “moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace.” King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: “For years now, I have heard the word ‘Wait!’ It rings in the ear of every Negro with piercing familiarity. This ‘Wait’ has almost always meant ‘Never.’ We must come to see, with one of our distinguished jurists, that ‘justice too long delayed is justice denied.’”

Records and Briefs Until Justice Be Done: America's First Civil Rights Movement, from the Revolution to Reconstruction

This text traces the history of the civil rights movement in the years following World War II, to the present day. Issues discussed the Civil Rights Act of 1964, the Voting Rights of 1965, and the Northern Ireland ghetto's.

Brown V. Board of Education Beacon Press
A lyrical memoir that identifies the pressure to conform as a hidden threat to our civil rights, drawing on the author's life as a gay Asian American man and his career as an acclaimed legal scholar. “[Kenji] Yoshino offers his personal search for authenticity as an encouragement for everyone to think deeply about the ways in which all of us have covered our true selves. . . . We really do feel newly inspired.” —The New York

Times Book Review Everyone covers. To cover is to downplay a disfavored trait so as to blend into the mainstream. Because all of us possess stigmatized attributes, we all encounter pressure to cover in our daily lives. Racial minorities are pressed to “act white” by changing their names, languages, or cultural practices. Women are told to “play like men” at work. Gays are asked not to engage in public displays of same-sex affection. The devout are instructed to minimize expressions of faith, and individuals with disabilities are urged to conceal the paraphernalia that permit them to function. Given its pervasiveness, we may experience this pressure to be a simple fact of social life. Against conventional understanding, Kenji Yoshino argues that the work of American civil rights law will not be complete until it attends to the harms of coerced conformity. Though we have come to some consensus against penalizing people for differences based on race, sex, sexual orientation, religion, and disability, we still routinely deny equal treatment to people who refuse to downplay differences along these lines. At the same time, Yoshino is responsive to the American exasperation with identity politics, which often seems like an endless parade of groups asking for state and social solicitude. He observes that the ubiquity of covering provides an opportunity to lift civil rights into a higher, more universal register. Since we all experience the covering demand, we can all make common cause around a new civil rights paradigm based on

our desire for authenticity—a desire that brings us together rather than driving us apart.

Praise for Covering

“ Yoshino argues convincingly in this book, part luminous, moving memoir, part cogent, level-headed treatise, that covering is going to become more and more a civil rights issue as the nation (and the nation ’ s courts) struggle with an increasingly multiethnic America. ” —San Francisco Chronicle “ [A] remarkable debut . . . [Yoshino ’ s] sense of justice is pragmatic and infectious. ” —Time Out New York

in American Civil War Era History One of NPR's Best Books of 2021 and a New York Times Critics' Top Book of 2021 A groundbreaking history of the movement for equal rights that courageously battled racist laws and institutions, Northern and Southern, in the decades before the Civil War. The half-century before the Civil War was beset with conflict over equality as well as freedom. Beginning in 1803, many free states enacted laws that discouraged free African Americans from settling within their boundaries and restricted their rights to testify in court, move freely from place to place, work, vote, and attend public school. But over time, African American activists and their white allies, often facing mob violence, courageously built a movement to fight these racist laws. They countered the states ’ insinuations that states were merely trying to maintain the domestic peace with the equal-rights promises they

found in the Declaration of Independence and the Constitution. They were pastors, editors, lawyers, politicians, ship captains, and countless ordinary men and women, and they fought in the press, the courts, the state legislatures, and Congress, through petitioning, lobbying, party politics, and elections. Long stymied by hostile white majorities and unfavorable court decisions, the movement's ideals became increasingly mainstream in the 1850s, particularly among supporters of the new Republican party. When Congress began rebuilding the nation after the Civil War, Republicans installed this vision of racial equality in the 1866 Civil Rights Act and the Fourteenth Amendment. These were the landmark achievements of the first civil rights movement. Kate Masur's magisterial history delivers this pathbreaking movement in vivid detail. Activists such as John

Jones, a free Black tailor from North Carolina whose opposition to the Illinois "black laws" helped make the case for racial equality, demonstrate the indispensable role of African Americans in shaping the American ideal of equality before the law. Without enforcement, promises of legal equality were not enough. But the antebellum movement laid the foundation for a racial justice tradition that remains vital to this day.

Until Justice Be Done: America's First Civil Rights Movement, from the Revolution to Reconstruction
Oxford University Press

A landmark study of racism, inequality, and police violence that continues to hold important lessons today

The Kerner Report is a powerful window into the roots of racism and inequality in the United States. Hailed by Martin Luther King Jr. as a "physician's warning of approaching death,

with a prescription for life," this historic study was produced by a presidential commission established by Lyndon Johnson, chaired by former Illinois governor Otto Kerner, and provides a riveting account of the riots that shook 1960s America. The commission pointed to the polarization of American society, white racism, economic inopportunity, and other factors, arguing that only "a compassionate, massive, and sustained" effort could reverse the troubling reality of a racially divided, separate, and unequal society. Conservatives criticized the report as a justification of lawless violence while leftist radicals complained that Kerner didn't go far enough. But for most Americans, this report was an eye-opening account of what was wrong in race relations. Drawing together decades of scholarship showing the widespread and ingrained nature of racism, The Kerner Report provided an important

set of arguments about what the nation needs to do to achieve racial justice, one that is familiar in today's climate. Presented here with an introduction by historian Julian Zelizer, The Kerner Report deserves renewed attention in America's continuing struggle to achieve true parity in race relations, income, employment, education, and other critical areas.
