This is the essential guide to the Civil Rights Movement in Atlanta. The book is organized around four walking and driving tours of the important civil rights sites in Atlanta from the 1940s to the present. The first three tours - Auburn Avenue, Atlanta University Center and Surrounding Neighborhood, and Martin Luther King Jr. Drive - provide information about sites located within a single neighborhood or that lie along a street. Tour 4 identifies and describes The Bridge (a sculpture honoring Congressman John Lewis); the Pickrick Restaurant; the 'Atlanta Wall', where Atlanta Mayor Ivan Allen, Jr., approved the erection of two wooden and steel barricades in southwest Atlanta in order to prevent integration; and, the gravesite of Ruby Doris Smith Robinson, the Spelman student most active in the 1960s civil rights struggle. The book also contains historic and current photographs of the sites as well as directions to the sites. Furthermore, the book provides a brief history of the civil rights movement in Atlanta in the 1950s and 1960s, a chronology of the important civil rights events in Atlanta from 1957 to 1968, and a bibliography of books and articles published about civil rights events in Atlanta during the 1950s and 1960s. *Until Justice Be Done: America's First Civil Rights Movement, from the Revolution to Reconstruction* Oxford University Press

A monumental investigation of the Supreme Court's rulings on race, *From Jim Crow To Civil Rights* spells out in compelling detail the political and social context within which the Supreme Court Justices operate and the consequences of their decisions for American race relations. In a highly provocative interpretation of the decision's connection to the civil rights movement, Klarman argues that Brown was more important for mobilizing southern white opposition to racial change than for encouraging direct-action protest. Brown unquestioningly had a significant impact--it brought race issues to public attention and it mobilized supporters of the ruling. It also, however, energized the opposition. In this authoritative account of constitutional law concerning race, Michael Klarman details, in the richest and most thorough discussion to date, how and whether Supreme Court decisions do, in fact, matter.

*Race, Class, and the Civil Rights Movement* is a unique sociohistorical analysis of the civil rights movement. In it, Jack M. Bloom analyzes the interaction between the economy and political systems in the South, which led to racial stratification. Praise for the first edition: "A unique sociohistorical analysis of the civil rights movement, analyzing the interaction between the economy and political systems in the South, which led to racial stratification. A landmark study of racism, inequality, and police violence that continues to hold important lessons today *The Kerner Report* is a powerful window into the roots of racism and inequality in the United States. Hailed by Martin Luther King Jr. as a "physician's warning of approaching death, with a prescription for life," this historic study was produced by a presidential commission established by Lyndon Johnson, chaired by former Illinois governor Otto Kerner, and provides a riveting account of the riots that shook 1960s America. The commission pointed to the polarization of American society, white racism, economic inopportunity, and other factors, arguing that only "a compassionate, massive, and sustained" effort could reverse the troubling reality of a racially divided, separate, and unequal society. Conservatives criticized the report as a justification of lawless violence while leftist radicals complained that Kerner didn't go far enough. But for most Americans, this report was an eye-opening account of what was wrong in race relations. Drawing together decades of scholarship showing the widespread and ingrained nature of racism, *The Kerner Report* provided an important set of arguments about what the nation needs to do to achieve racial justice, one that is familiar in today's climate. Presented here with an introduction by historian Julian Zelizer, *The Kerner Report* deserves renewed attention in America's continuing struggle to achieve true parity in race relations, income, employment, education, and other critical areas.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

[Courage to Dissent](#) Harper Collins

A lyrical memoir that identifies the pressure to conform as a hidden threat to our civil rights, drawing on the author's life as a gay Asian American man and his career as an acclaimed legal scholar. "[Kenji] Yoshino offers his personal search for authenticity as an encouragement for everyone to think deeply about the ways in which all of us have covered our true selves. . . . We really do feel newly inspired."—*The New York Times Book Review* Everyone covers. To cover is to downplay a disfavored trait so as to blend into the mainstream. Because all of us possess stigmatized attributes, we all encounter pressure to cover in our daily lives. Racial minorities are pressed to "act white" by changing their names, languages, or cultural practices. Women are told to "play like men" at work. Gays are asked not to engage in public displays of same-sex affection. The devout are instructed to minimize expressions of faith, and individuals with disabilities are urged to conceal the paraphernalia that permit them to function. Given its pervasiveness, we may experience this pressure to be a simple fact of social life. Against conventional understanding, Kenji Yoshino argues that the work of American civil rights law will not be complete until it attends to the harms of coerced conformity. Though we have come to some consensus against penalizing people for differences based on race, sex, sexual orientation, religion, and disability, we still routinely deny equal treatment to people who refuse to downplay differences along these lines. At the same time, Yoshino is responsive to the American exasperation with identity politics, which often seems like an endless parade of groups asking for state and social solicitude. He observes that the ubiquity of covering provides an opportunity to lift civil rights into a higher, more universal register. Since we all experience the covering demand, we can all make common cause around a new civil rights paradigm based on our desire for authenticity—a desire that brings us together rather than driving us apart. Praise for *Covering* "Yoshino argues convincingly in this book, part luminous, moving memoir, part cogent, level-headed treatise, that covering is going to become more and more a civil rights issue as the nation (and the nation's courts) struggle with an increasingly multiethnic America."—*San Francisco Chronicle* "[A] remarkable debut . . . Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. Theirs is a history forgotten that begs to be told, and Tubbs tells it brilliantly." — Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* and National Book Award winner Stamped from the Beginning Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. One of Bustle's "11 Nonfiction Books To Read For Black History Month — All Written By Women" One of SheReads.com's "Most anticipated nonfiction books of 2021" Berdis Baldwin, Alberta King, and Louise Little were all born at the beginning of the 20th century and forced to contend with the prejudices of Jim Crow as Black women. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families' safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

Praised by The New York Times; O, The Oprah Magazine; Bitch Magazine; Slate; Publishers Weekly; and more, this is "a bracing corrective to a national mythology" (New York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History* award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a "helpmate" but a lifelong economic justice and peace activist who pushed her husband's activism in these directions. Moving from "the histories we get" to "the histories we need," Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the work and disruption it took; the role of the media and "polite racism" in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. *A More Beautiful and Terrible History* will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. Dr. King's best-selling account of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the Birmingham campaign unfolded in the city's streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders' criticism of the campaign. The resulting piece of extraordinary protest writing, "Letter from Birmingham Jail," was widely circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in *Why We Can't Wait*, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King's most incisive and eloquent book, *Why We Can't Wait* recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil rights legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were "moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace." King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: "For years now, I have heard the word 'Wait!' It rings in the ear of every Negro with piercing familiarity. This 'Wait' has almost always meant 'Never.' We must come to see, with one of our distinguished jurists, that 'justice too long delayed is justice denied.'"
