Presents 100+ interventions using creative and expressive arts counseling techniques in school settings Expressive arts therapies are a rich resource for use with children and adolescents, who are often unresponsive to traditional talk therapy, and highly useful to school counselors who must overcome cultural, language, and ability barriers that are increasingly present in diverse and multicultural school settings. This is the first book written specifically for school counselors about using creative and expressive arts counseling techniques in school settings. It presents over 100 interventions using art, drama, music, writing, dance, and movement that school counselors can easily incorporate into their practices with individual students and groups, and in classroom settings. These

creative interventions, based on the American School Counselor Association (ASCA) National Model framework, support the key student domains of academic, career, and personal/social development. The text also meets the important demand for accountability in school counseling by providing guidelines for evaluating the effectiveness of each intervention. Addressing such issues as emotional expression, social skills development, managing anger/aggression, developing self-esteem, working well with diverse peers, career exploration, and academic skill development, the book is organized by specific types of expressive arts therapies and how they can be used to support different domains in the ASCA model. Each intervention outlines the presenting concerns for which it is most useful, appropriate grade levels, required materials,

---

preparation needed, step-by-step instructions, modifications for special needs students, and an outcome assessment plan. A handy quick reference chart helps readers to quickly locate appropriate interventions for specific concerns. Ideal for the school counselor, social worker, or psychologist who may not have specific training in arts therapies, this book can also help trained arts therapists who will be working in a school setting to select appropriate interventions. Key Features: Presents over 100 creative and expressive arts interventions that can be easily incorporated into school counseling practice Addresses all relevant ASCA National Model domains (academic, career, and personal/social) Provides easy-to-follow preparation and delivery directions and outcome evaluation methods for each intervention Includes modifications for special needs populations Offers a handy quick

reference chart matching interventions to appropriate concerns

Some essential topics covered are: the struggle with slavery, the role African Americans played in America's wars (including the current war in Iraq), race riots and unions, the NAACP, civil rights, and black power movements, the Harlem Renaissance, issues in education, the journey into the West, legal cases such as *Plessy vs. Ferguson* and *Brown vs. Board of Education*, African Americans as athletes, entertainers, and statesmen. Martin Luther King, Jr. rarely had time to answer his critics. But on April 16, 1963, he was confined to the Birmingham jail, serving a sentence for participating in civil rights demonstrations. "Alone for days in the dull monotony of a narrow jail cell", King pondered a letter that fellow clergymen had published urging him to drop his campaign of nonviolent resistance and to leave the battle for racial equality to the courts. In response, King drafted his most extensive and forceful written statement against social injustice - a remarkable essay that focused the world's attention on Birmingham and spurred the famous March on Washington. Bristling with the energy and

---

resonance of his great speeches, Letter from the Birmingham Jail is both a compelling defense of nonviolent demonstration and a rallying cry for an end to social discrimination that is just as powerful today as it was more than twenty years ago.

Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We

believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy

and designed to foster historical inquiry through the careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from: UCLA, National Center for History in Schools).

African American History America's Story 3 (Teacher Guide)From the Early 1900s to Modern Times

Praised by The New York Times; O, The Oprah Magazine; Bitch Magazine; Slate; Publishers Weekly; and more, this is “a bracing corrective to a national mythology” (New York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy

heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History* award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a “helpmate” but a lifelong economic justice and peace

---

activist who pushed her husband’s activism in these directions. Moving from “the histories we get” to “the histories we need,” Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the work and disruption it took; the role of the media and “polite racism” in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. A More Beautiful and Terrible History will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the

---

1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are

A compelling and readable narrative history, *How Long? How Long?* presents both a rethinking of social movement theory and a

controversial thesis: that chroniclers have egregiously neglected the most important leaders of the Civil Rights movement, African-American women, in favor of higher-profile African-American men and white women. Author Belinda Robnett argues that the diversity of experiences of the African-American women organizers has been underemphasized in favor of monolithic treatments of their femaleness and blackness. Drawing heavily on interviews with actual participants in the American Civil Rights movement, this work retells the movement as seen through the eyes and spoken through the voices of African-American women participants. It is the first book to provide an analysis of race, class, gender, and culture as substructures that shaped the organization and outcome of the movement. Robnett examines

---

the differences among women participants in the perennially fascinating story of the American movement and offers the first cohesive analysis of the gendered relations and interactions among its black activists, thus demonstrating that femaleness and blackness cannot be viewed as sufficient signifiers for movement experience and individual identity. Finally, this book makes a significant contribution to social movement theory by providing a crucial understanding of the continuity and complexity of social movements, clarifying the need for different layers of leadership that come to satisfy different movement needs. An engaging narrative history as well as a major contribution to social movement and feminist theory, *How Long? How Long?* will appeal to students and scholars of social activism, women's studies, American history, and African-American studies, and to general readers interested in the Civil Rights movement.

Dr. King’s best-selling account of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the Birmingham campaign unfolded in the city’s streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders’ criticism of the campaign. The resulting piece of extraordinary protest writing, “Letter from Birmingham Jail,” was widely

circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in *Why We Can’t Wait*, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King’s most incisive and eloquent book, *Why We Can’t Wait* recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil

---

rights legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were “moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace.” King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: “For years now, I have heard the word ‘Wait!’ It rings in the ear of every Negro with piercing familiarity. This ‘Wait’ has almost always meant ‘Never.’ We must come to see, with one of our distinguished jurists, that ‘justice too long delayed is justice denied.’”
