The Strengths Perspective in Social Work Practice

Test Prep Books

In this provocative book, Sylvia Tesh shows how "politics masquerades as science" in the debates over the causes and

prevention of disease. Tesh argues that ideas about the causes of disease which dominate policy at any given time or place are rarely determined by scientific criteria alone. In a final chapter, Tesh urges scientists to incorporate egalitarian values into their search for the truth, rather than pretending science can be divorced from that political ideology.

settings with different client populations. Each chapter examines a major component of case management practice by presenting information about an innovative program from a different location around the country. In conjunction, these readings provide a road map to social work case management. In addition to offering up-to-date practice approaches and examining the functions and skills of case management in depth, the authors provide the policy information needed

for putting this traditional form of social work practice into today's service delivery context. Diamonds in the Shadow DIANE Publishing
From Preface: This curriculum guide evolved from a national service learning project of the AACC. Recognizing that an intentional civic responsibility component was missing from many service learning initiatives, AACC selected six colleges from around the country to participate in a pilot project whose purpose was to

identify service learning strategies to boost civic engagement and foster civic responsibility among community college students. *Casework in a Congressional Office* Rutgers University Press Test Prep Books' NCMHCE Study Guide: NCMHCE Exam Prep and Practice Test Questions for the National Clinical Mental Health Counseling Examination [2nd Edition] Made by Test Prep Books experts for test takers trying to achieve a great score on the NCMHCE exam. *Disciplining the
Poor* explains the

transformation of poverty governance over the past forty years—why it happened, how it works today, and how it affects people. In the process, it clarifies the central role of race in this transformation and develops a more precise account of how race shapes poverty governance in the post-civil rights era. Connecting welfare reform to other policy developments, the authors analyze diverse forms of data to explicate the racialized origins, operations, and consequences of a new mode of poverty governance that is simultaneously neoliberal—grounded in market principles—and paternalist—focused on telling the poor what is best for them. The study traces the process of rolling out the new regime from the federal level, to the state and county level, down to the differences in ways frontline case workers take disciplinary actions in individual cases. The result is a compelling account of how a neoliberal paternalist regime of poverty governance is disciplining the poor today.

unknown, the Finch Family has joined alongside their church and opened their home to an African refugee family who are moving to Connecticut. The Amabo family of four- Andre, Celestine, Mattu, and Alake: father, mother, and teenage son and daughter- arrive in great hope as they have escaped the tyranny of Africa. What the Finch Family doesn't know is that there are not just four refugees in this Amabo family, but five. As the Amabo family, who have suffered

unimaginable horrors, begin to adjust to a life of plenty in the Finches' suburban Connecticut home, and the Finches are learning new lessons of "The Golden Rule". The life adjustment for all seems flawless. But the fifth refugee does not believe in good will. This lawless rebel has managed to enter America undetected. And the Amabo family has something of his--something that they agreed to carry into the country for him. When Jared, the oldest Finch son, realizes that the

good guys are not always innocent, he must make a decision that could change the fates of both the Finches and the Amabos. In this uncommonly penetrating story, Caroline B. Cooney presents a fresh perspective on how doing what is right can be most difficult.

Name and Number Checking University of Chicago Press

Provides the foundation for supervisory practice in Child Protective Services (CPS). It describes the roles & responsibilities of the CPS supervisor, & provides practice-oriented advice on how to carry out supervisory responsibilities. Designed for CPS supervisors & administrators, but

it also may be helpful to child welfare agency staff who provide training for supervisory personnel & to schools of social work as they prepare new social workers for the child welfare field. Also includes a glossary of terms & a bibliography.

The Black Women Oral History Project

How2become

The author recounts his life from birth in prison to success in Hollywood in the New York Times–bestselling memoir that inspired the film Antwone Fisher. Baby Boy Fisher was raised in institutions from the moment he was born to a single mother in prison. He ultimately came to live with a foster family, where

he endured near-constant verbal and physical abuse. In his mid-teens he escaped and enlisted in the navy, where he became a man of the world, raised by the family he created for himself. Finding Fish shows how, out of this unlikely mix of deprivation and hope, an artist was born—first as the child who painted the feelings his words dared not speak, then as a poet and storyteller who would eventually become one of Hollywood's most sought-after screenwriters. A tumultuous and ultimately gratifying tale of self-discovery written in Fisher's gritty yet melodic literary voice, Finding Fish “reads like a great work of fiction” (Denzel

Washington).
