Justice, Crime, and Ethics, a leading textbook in criminal justice programs, examines ethical dilemmas pertaining to the administration of criminal justice and professional activities in the field. This 11th edition continues to deliver a broad scope of topics, focusing on law enforcement, legal practice, sentencing, corrections, research, crime control policy, and philosophical issues. The book's robust coverage encompasses contentious issues such as capital punishment, prison corruption, and the use of deception in police interrogation. The 11th edition includes new material on the impact of social media on crime myths and political misconduct. Law enforcement issues including

the George Floyd case and responding to domestic as well as foreign terrorism, including the January 6th insurrection in Washington, DC, are examined. The potential ethical implications of *Roe v. Wade* being overturned by the Supreme Court are also explored. Emerging issues in corporate misconduct are also discussed including healthcare fraud and corruption as well as crypto-currency fraud. Students of criminal justice, as well as instructors and professionals in the field, continue to rely on this thorough, dependable resource on ethical decision making in the criminal justice system. UN Emergency Peace Service and the Responsibility to Protect Createspace Independent Publishing Platform This open access book summarizes the multi-disciplinary results of one of China's main primatological research projects on the endemic Tibetan macaque (*Macaca thibetana*), which had continued for over 30 years, but which had never been reported on systematically. Dedicated to this exceptional Old World

monkey, this book makes the work of Chinese primatologists on the social behavior, cooperation, culture, cognition, group dynamics, and emerging technologies in primate research accessible to the international scientific community. One of the most impressive Asian monkeys, and the largest member of its genus, the Tibetan macaque deserves to be better known. This volume goes a long way towards bringing this species into the spotlight with many excellent behavioral analyses from the field. - Frans de Waal, Professor of Psychology, Emory University, USA. Macaques matter. To understand primate patterns and trends, and to gain important insight into humanity, we need to augment and expand our engagement with the most successful and widespread primate genus aside from *Homo*. This volume focuses on the Tibetan macaque, a fascinating species with much to tell us about social behavior, physiology, complexity and the macaque knack for interfacing

with humans. This book is doubly important for primatology in that beyond containing core information on this macaque species, it also reflects an effective integrated collaboration between Chinese scholars and a range of international colleagues—exactly the type of collaborative engagement primatology needs. This volume is a critical contribution to a global primatology. - Agustín Fuentes, Professor of Anthropology, University of Notre Dame, USA. I have many fond memories of my association with Mt. Huangshan research beginning in 1983, when together with Professor Qishan Wang we established this site. It is such a beautiful place and I miss it. It is gratifying to see how far research has progressed since we began work there, becoming more internationalized and very much a collaborative endeavor under the long-term direction of Professor Jin-Hua Li and colleagues. This book highlights the increased interest in this species, representing a variety of disciplines ranging from macro aspects of behavior, cognition and sociality, to micro aspects of microbes, parasites and disease, authored by a group of renowned Chinese and international primatologists. I applaud their efforts and expect more interesting work to come from this site in the years ahead. - Kazuo Wada, Professor Emeritus, Kyoto University,

Japan.

The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of

gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

Regulating Government Ethics Henry Holt and Company

This volume offers an inter-disciplinary and critical analysis of the role of culture in diplomatic practice. If diplomacy is understood as the practice of conducting negotiations between representatives of distinct communities or causes, then questions of culture and the spaces of cultural exchange are at its core. But what of the culture of diplomacy itself? When and how did this culture emerge, and what alternative cultures of diplomacy run parallel to it, both historically and today? How do particular spaces and places inform and shape the articulation of diplomatic culture(s)? This volume addresses these questions by bringing together a collection of theoretically rich and empirically detailed contributions from leading scholars in history, international relations, geography, and literary theory. Chapters attend to cross-cutting issues of the translation of diplomatic cultures, the role of space in diplomatic exchange and the diversity of diplomatic cultures beyond the formal state system. Drawing on a range of methodological approaches the contributors discuss empirical cases ranging from indigenous diplomacies of the Inuit Circumpolar Council, to the European External Action Service, the 1955 Bandung Conference, the spatial imaginaries of mid twentieth-century Balkan writer diplomats, celebrity and missionary diplomacy, and paradiplomatic narratives of The Hague. The volume demonstrates that, when approached from multiple disciplinary perspectives and understood as expansive and plural, diplomatic cultures offer an important lens onto issues as diverse as global governance, sovereignty regimes and geographical imaginations. This book will be of much interest to students of public diplomacy, foreign policy, international organisations, media and communications studies, and IR in general.

Terrorism: Law and Policy provides a comprehensive socio-legal analysis of issues related to terrorist activity. Aimed at both undergraduate and postgraduate students, the book takes a comparative approach to the law related to terrorism

<p>in a number of states, mainly those in Europe, North America, Australia and New Zealand. Beginning with an examination of the background to various currently active terrorist groups, the book focuses on those groups which are currently active and which pose a threat to security, especially at the international level. The chapters take the reader through the legal definitions of terrorism contained in various states' statutory provisions and examine how the courts have interpreted terrorism in those states' jurisdictions. The main aim of any terrorist investigation is prevention and so the book examines the various statutory preventative measures that states have introduced and explores the legal issues surrounding surveillance, terrorism intelligence exchange, radicalisation, use of social media,</p>	<p>quasi-criminal provisions, asset-freezing and the nexus between terrorist activity and organised crime. Bringing together a number of themes related to terrorism and security from a uniquely legal perspective, this book builds a comparative picture of the legal counter-terrorism interventions states are adopting to increase co-operation and adopt a more united approach in the face of the international terrorism threat. <u>The Stationery Office Annual Catalogue</u> Little, Brown Ethics book designed for Civil Services Examination conducted by UPSC with syllabus divided into three parts, i.e. 1) Part 1: Ethics and Integrity in Civil Services covering topics on: a) Overview of Ethics and its interface with Civil Services (Introduction - Essence of Ethics - Determinants of Ethics - consequences of Ethics in Human</p>	<p>Actions - Dimensions of Ethics - Ethics in Private and Public Relationship) b) Foundations of Ethical Concepts and Theories (Contributions of Moral Thinkers and Philosophers from India and World - Lessons from the lives and teachings of great leaders, reformers and administrators - Role of Family, Society and Educational Institutions in inculcating Values) c) Ethical Dilemmas and Resolution (Status and problems - Ethical concerns and dilemmas in Government and Private Institutions - Laws, Rules, Regulations and Conscience as sources of Ethical guidance - Aptitude and Foundational Values for Civil Servants (Integrity, Impartiality and non-partisanship, objectivity, dedication to public service, empathy, tolerance and compassion towards the weaker sections) - Accountability and Ethical Governance -</p>

The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

Diplomatic Cultures and International Politics

Routledge

This book examines the attitudes of political, military

and non-state actors towards the idea of a UN Emergency Peace Service, and the issues that might affect the establishment of this service in both theory and practice. The United Nations Emergency Peace Service (UNEPS) is a civil society-led idea to establish a permanent UN service to improve UN peace operations as well as to operationalise the emerging norm of the 'responsibility to protect' civilians from atrocity crimes. The UNEPS proposal has received limited support. The book argues that interest in, and support for, the UNEPS proposal is determined by perceptions that it would erode state sovereignty, the extent to which the principles of the proposal are consistent with actors' views on the world and perceptions on whether UNEPS will realistically be capable of contributing to the workings of the UN and regional peacekeeping systems

in areas that are seen to be deficient. This book makes the case for localising the UNEPS proposal so that it is more consistent with attitudes of those consulted for this research. It concludes that the development of a series of less ambitious proposals could be the first steps to creating a rapidly deployable service with the mandate to prevent atrocity crimes. This book will be of much interest to students of peace operations, the Responsibility to Protect, international organisations, IR and security studies.

The Luminaries Career Examination

The idea that the expression of radical beliefs is a predictor to future acts of political violence has been a central tenet of counter-extremism over the last two decades. Not only has this imposed a duty upon doctors, lecturers and teachers to inform on the radical beliefs of their patients and students but, as this book argues, it is

also a fundamentally flawed concept. Informed by his own experience with the UK's Prevent programme while teaching in a Muslim community, Rob Faure Walker explores the linguistic emergence of 'extremism' in political discourse and the potentially damaging generative effect of this language. Taking a new approach which combines critical discourse analysis with critical realism, this book shows how the fear of being labelled as an 'extremist' has resulted in counter-terrorism strategies which actually undermine moderating mechanisms in a democracy. Analysing the generative mechanisms by which the language of counter-extremism might actually promote violence, Faure Walker explains how understanding the potentially oppressive properties of language can help us transcend them. The result is an imminent critique of the most pernicious aspects of the global War on Terror, those that are embedded in our everyday language and political discourse. Drawing on

the author's own successful lobbying activities against counter-extremism, this book presents a model for how discourse analysis and critical realism can and should engage with the political and how this will affect meaningful change.

A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER An intimate, powerful, and galvanizing memoir by Pulitzer Prize winner, human rights advocate, and former US Ambassador to the UN Samantha Power. Named one of the best books of the year: The New York Times • National Public Radio • Time • The Economist • The Washington Post • Vanity Fair • Christian Science Monitor • Publishers Weekly • Audible "Her highly personal and reflective memoir . . . is a must-read for anyone who cares about our role in a changing

world."—President Barack Obama Includes an updated afterword Tracing her distinctly American journey from immigrant to war correspondent to presidential Cabinet official, Samantha Power's acclaimed memoir is a unique blend of suspenseful storytelling, vivid character portraits, and shrewd political insight. After her critiques of US foreign policy caught the eye of Senator Barack Obama, he invited her to work with him on Capitol Hill and then on his presidential campaign. When Obama won the presidency, Power went from being an activist outsider to serving as his human rights adviser and, in 2013, becoming the youngest-ever US Ambassador to the United Nations. Power transports us from her childhood

in Dublin to the streets of war-torn Bosnia to the White House Situation Room and the world of high-stakes diplomacy, offering a compelling and deeply honest look at navigating the halls of power while trying to put one's ideals into practice. Along the way, she lays bare the searing battles and defining moments of her life, shows how she juggled the demands of a 24/7 national security job with raising two young children, and makes the case for how we each can advance the cause of human dignity. This is an unforgettable account of the power of idealism—and of one person's fierce determination to make a difference. "This is a wonderful book. [...] The interweaving of Power's personal story, family story, diplomatic history and moral

arguments is executed seamlessly and with unblinking honesty."—THOMAS L. FRIEDMAN, The New York Times Book Review "Truly engrossing...A pleasure to read."—RACHEL MADDOW "A beautiful memoir about the times we're living in and the questions we must ask ourselves...I honestly couldn't put it down." —CHERYL STRAYED, author of Wild "Power's compelling memoir provides critically important insights we should all understand as we face some of the most vexing issues of our time." —BRYAN STEVENSON, author of Just Mercy

 This book represents a critical examination of key aspects of crime and criminal justice in Northern Ireland which will have resonance elsewhere. It considers the core aspects of criminal justice policy-making in Northern Ireland which are

central to the process of post-conflict transition, including reform of policing, judicial decision-making and correctional services such as probation and prisons. It examines contemporary trends in criminal justice in Northern Ireland and various dimensions of crime relating to female offenders, young offenders, sexual and violent offenders, community safety and restorative justice. The book also considers the extent to which crime and criminal justice issues in Northern Ireland are being affected by the broader processes of 'policy transfer', globalisation and transnationalism and the extent to which criminal justice in Northern Ireland is divergent from the other jurisdictions

in the United Kingdom. Written by leading international authorities in the field, the book offers a snapshot of the cutting edge of critical thinking in criminal justice practice and transitional justice contexts. Management Consultancy and the British State Taylor & Francis The bestselling author of *Blue Latitudes* takes us on a thrilling and eye-opening voyage to pre-Mayflower America On a chance visit to Plymouth Rock, Tony Horwitz realizes he's mislaid more than a century of American history, from Columbus's sail in 1492 to Jamestown's founding in 1607—something. Did nothing happen in between? Determined to find out, he embarks on a journey of rediscovery, following in the

footsteps of the many Europeans who preceded the Pilgrims to America. An irresistible blend of history, myth, and misadventure, *A Voyage Long and Strange* captures the wonder and drama of first contact. Vikings, conquistadors, French voyageurs—these and many others roamed an unknown continent in quest of grapes, gold, converts, even a cure for syphilis. Though most failed, their remarkable exploits left an enduring mark on the land and people encountered by late-arriving English settlers. Tracing this legacy with his own epic trek—from Florida's Fountain of Youth to Plymouth's sacred Rock, from desert pueblos to subarctic sweat lodges—Tony Horwitz explores the revealing gap between what we

enshrine and what we forget. Displaying his trademark talent for humor, narrative, and historical insight, *A Voyage Long and Strange* allows us to rediscover the New World for ourselves.
