With the same passionate scholarship and analytical audacity he brought to the character of God, Jack Miles now approaches the literary and theological enigma of Jesus. In so doing, he tells the story of a broken promise – God's ancient covenant with Israel – and of its strange, unlooked-for fulfillment. For, having abandoned his chosen people to an impending holocaust at the hands of their Roman conquerors, God, in the person of Jesus, chooses to die with them, in what is effectively an act of divine suicide. On the basis of this shocking argument, Miles compels us to reassess Christ's entire life and teaching: His proclivity for the powerless and disgraced. His refusal to discriminate between friends and enemies. His transformation of defeat into a victory that redeems not just Israel but the entire world. Combining a close reading of the Gospels with a range of reference that includes Donne, Nietzsche, and Elie Wiesel, [Christ: A Crisis in the Life of God](#) is a work of magnificent eloquence and imagination.

The color photographs and illustrations appearing in select monographs over the past decade represent a significant advance in surgical communication. Previously, black and white renderings were standard because color printing had not been perfected and its cost was prohibitive. We believe the gradual change from black and white etchings and reproductions to detailed color illustrations represents a tremendous twentieth century achievement. In our own urologic practices it became evident that the use of black and white sketches for teaching operative urology, while helpful, left too much to the surgeon's imagination. Even the dimension of depth, produced by varying the intensity of shading, often was inadequate in demonstrating subtle surgical details in a fossa or bed. Since color photography recently has been used to demonstrate operative techniques, we climbed on the bandwagon and photographed in color many of the major operative procedures. However, the reflection of light caused by normal tissue fluid significantly reduces the clarity of photographs. Not infrequently, the crucial operative step is obscured by light reflected on a trickle of blood. Even when meticulous care is taken to irrigate and clean the surgical field, the tissue sheen obscures portions of the field. Color paintings by a gifted artist are not only unique, but can be extraordinary; the vividness with which subtleties can thus be portrayed cannot be matched by photography, black and white or color.

In fact, we have had about 1000 students from over 60 different countries come through the program at this writing, and they have started more than 300 companies!I wrote this book so that some of the thinking that I applied to Draper University could be spread wider, in hopes that these messages would reach other potential Startup Heroes (maybe you) who might make an impact on the world, be proactive about their work, or at the very least, improve their lives.So, I implore you. Depending on whom you ask, the term Christian counseling can mean anything from secular psychology practiced by a Christian to biblical counseling that completely shuns psychological insights. Christ-Centered Therapy thoroughly integrates psychology and practical theology. A book written by experts from both fields, it utilizes the contributions of science in an uncompromisingly biblical framework. Here at last is a powerful resource to help you—pastor, counselor, or spiritual advisor—understand the complex problems of people and address them with the wisdom of God's Word and the power of his Spirit. Insightful and practical, Christ-Centered Therapy unites the wisdom and expertise of pastoral theologian and best-selling author Dr. Neil Anderson and professional Christian counselors Dr. Terry and Julianne Zuehlke. The first part of the book equips you with an understanding of the different issues involved in integrating theology and psychology. The second part helps you turn theory into practical application. You'll also find appendixes that offer personal testimonies, provide professional forms, discuss the role of psychiatry in managed care, and present the Steps to Freedom in Christ.
