The color photographs and illustrations appearing in select monographs over the past decade represent a significant advance in surgical communication. Previously, black and white renderings were standard because color printing had not been perfected and its cost was prohibitive. We believe the gradual change from black and white etchings and reproductions to detailed color illustrations represents a tremendous twentieth century achievement. In our own urologic practices it became evident that the use of black and white sketches for teaching operative urology, while helpful, left too much to the surgeon's imagination. Even the dimension of depth, produced by varying the intensity of shading, often was inadequate in demonstrating subtle surgical details in a fossa or bed. Since color photography recently has been used to demonstrate operative techniques, we climbed on the bandwagon and photographed in color many of the major operative procedures. However, the reflection of light caused by normal tissue fluid significantly reduces the clarity of photographs. Not infrequently, the crucial operative step is obscured by light reflected on a trickle of blood. Even when meticulous care is taken to irrigate and clean the surgical field, the tissue sheen obscures portions of the field. Color paintings by a gifted artist are not only unique, but can be extraordinary; the vividness with which subtleties can thus be portrayed cannot be matched by photography, black and white or color.

Well, if lightning didn't strike twice, then how could a night of passion with her former lover, Matt Bravo, leave Connie Lonnigan pregnant with his child...for the second time? They already had a beautiful little girl, and they'd finally come to terms with their can't – live – with – can't – live – without – each – other relationship. And now this Texas tycoon Matt Bravo had let Connie slip through his fingers five years

ago, and he was not about to make the same mistake again. He had to convince her that he was the man for her, now and forever. To make this a Christmas to remember; for all four of them...

How is it possible for six men to take a Liberian-flagged oil tanker hostage and negotiate a huge pay out for the return of its crew and 2.2 million barrels of crude oil? In his gripping new book, Jatin Dua answers this question by exploring the unprecedented upsurge in maritime piracy off the coast of Somalia in the twenty-first century. Taking the reader inside pirate communities in Somalia, onboard multinational container ships, and within insurance offices in London, Dua connects modern day pirates to longer histories of trade and disputes over protection. In our increasingly technological world, maritime piracy represents not only an interruption, but an attempt to insert oneself within the world of oceanic trade. Captured at Sea moves beyond the binaries of legal and illegal to illustrate how the seas continue to be key sites of global regulation, connectivity, and commerce today.

Not Just AnotHER Story, But HER Story Penguin UK

With the same passionate scholarship and analytical audacity he brought to the character of God, Jack Miles now approaches the literary and theological enigma of Jesus. In so doing, he tells the story of a broken promise – God 's ancient covenant with Israel – and of its strange, unlooked-for fulfillment. For, having abandoned his chosen people to an impending holocaust at the hands of their Roman conquerors. God, in the person of Jesus, chooses to die with them, in what is effectively an act of divine suicide. On the basis of this shocking argument, Miles compels us to reassess Christ 's entire life and teaching: His proclivity for the powerless and disgraced. His refusal to discriminate between friends and enemies. His transformation of defeat into a victory that redeems not just Israel but the entire world. Combining a close reading of the Gospels with a range of reference that includes Donne, Nietzsche, and Elie Wiesel, Christ: A Crisis in the Life of God is a work of magnificent eloquence and imagination.

In Christ and the Decree, one of the foremost scholars of Calvinism today expounds the doctrines of Christ and predestination as they were developed by Calvin, Bullinger, Musculus, Vermigli, Beza, Ursinus, Zanchi, Polanus, and Perkins. Muller analyzes the relationship of

these two doctrines to each other and to the soteriological structure of the system. Back by demand, this seminal work on the relationship between Calvin and the Calvinists is once again available with a new contextualizing preface by the author. It offers a succinct introduction to the early development of Calvinism/Reformation thought.

I hope that this book will inspire you to act. To make that move. To fulfill your vision. I want to take you closer to your goal, whether that be starting a billion-dollar unicorn, building a revolution, or just helping you better understand that change of any kind starts with you. You can be the Startup Hero.Startup Heroes are the ones that drive progress, and whether you bring us to another planet or make your neighborhood a nicer, happier place, you can become a Startup Hero. This book is the first step. It helps you take that first step.The step will be different for everyone. It might be to call that customer. It might be to draw up a design concept. It might be to talk to your boss.With this book, I hope to guide people to think big, drive change and go full speed ahead. I am giving them a pledge to do their work for good, and I am giving them some of the tools they need to accomplish their goals.This book is hard. It takes you through a variety of activities, questions, stories and challenges (even puzzles and poems) working both the right and left side of your brain and all the parts in between. The activities I propose are challenging and sometimes even embarrassing. The questions I ask are probing and provoking. The stories I tell are used as examples to guide you toward what I call Startup Heroism.So, why would you read this book? Well, I have worked for 30 years for entrepreneurs. I have supported, funded and coached Startup Heroes all my working life. And I have tested the concepts of this book on the students at Draper University and they have come out to be some of the most interesting, dynamic, and motivated people the world has ever seen. In fact, we have had about 1000 students from over 60 different countries come through the program at this writing, and they have started more than 300 companies!I wrote this book so that some of the thinking that I applied to Draper University could be spread wider, in hopes that these messages would reach other potential Startup Heroes (maybe you) who might make an impact on the world, be proactive about their work, or at the very least, improve their lives.So, I implore you. Read this book, try this book, do this book, play this book, absorb this book, experience this book. It might surprise you. It might thrill you. It might drive you. It might kill you. At the very least, I hope it will give you a perspective on how real progress is made, and at the very best, it might just change your life.
