Netscape Navigator 2.0 Gold is the new product from Netscape which contains the Navigator browser and an array of Web authoring tools. The first guide to offer complete, in-depth coverage of Gold and how to use it, this book takes readers from a brief introduction of NN2.0 and Web pages into using the specific tools that comprise Gold so that they can learn to create vivid, interesting, and dynamic web pages.

*How Your Motorcycle Works*

Harper Collins

Examine the anatomy of a horse from an entirely

different perspective. This intriguing and original explanation of the 11 internal body systems of horses shows them painted on the outside to describe everything on the inside. The horse is a highly sophisticated living organism so to enable him to reach his full athletic performance and give him a happy, healthy quality of life it is vital to understand both his capabilities and limitations within the context of his structure and function. Gillian Higgins turns her trademark technique of

---

painting internal diagrams directly onto live horses to show how all the systems work, and work together, to influence performance and reduce the risk of injury. Divided into 12 chapters, *Horse Anatomy for Performance* combines high quality photographs and intricate paintings with top tips and fascinating facts to provide a practical and useful guide to horse anatomy. Visually appealing, original and easily understandable, the book explains how anatomy influences the way we manage, ride and train our horses. This book is a sequel to *How Your Horse Moves* by Gillian Higgins; together the books provide a comprehensive guide to horse anatomy in action "Finally a book where you can learn how your horse ticks - inside out - and it is easy to understand and fun to read. A must for every serious equestrian." --Dr W. Bechtolsheimer

The Boat Drinks Book Springer Science & Business Media

Biometrics has moved from using fingerprints to using many methods of assessing human

---

physical and behavioral traits. This guide introduces a new performance evaluation framework designed to offer full coverage of performance evaluation of biometric systems.

*Hayek: A Collaborative Biography* Palgrave Macmillan

This book presents a systematic approach to understanding and applying the principles of hydrology and hydroclimatology, examining the interactions among different components of the water cycle. It takes a fresh look at the fundamentals and challenges

in hydrologic and hydroclimatic systems as well as climate change. The author describes the application of nontraditional data sets and new investigation techniques to water-related problems. He also examines long lead forecasting and simulation, time series analysis, and risk and uncertainty in hydrologic design.

**iOS Game Development By Example**

CRC Press

Char Booth examines the long-term adoption of one established tool, Voice over Internet Protocol (VoIP) in order to gain insight into the library innovation

---

process.

**Health Care Administration  
and Planning** Springer

This book brings together aspects of statistics and machine learning to provide a comprehensive guide to evaluating, interpreting and understanding biometric data. It naturally leads to topics including data mining and prediction to be examined in detail. The book places an emphasis on the various performance measures available for biometric systems, what they mean, and when they should and should

not be applied. The evaluation techniques are presented rigorously, however they are always accompanied by intuitive explanations. This is important for the increased acceptance of biometrics among non-technical decision makers, and ultimately the general public.
