In this re-examination of the roots of the relationship between religion and science, David Hawkin focuses on the concept of autonomy as he explores the question: Is there continuity and compatibility between the autonomy that underlies Christian faith and the role of individual freedom in the technological age? What makes this work particularly valuable is Professor Hawkin's review of the theological, philosophical, political, psychological, and sociological works that have formed our ideas of the nature of both Christianity and modernity — Reimarus, Strauss, Schweitzer, and Bultmann on the quest for the historical Jesus; Bauer and Turner on Christian faith and practice; Machiavelli, Nietzsche, Darwin, Freud, and Marx on our historicity; Gogarten, Cox, and Bonhoeffer who affirm our autonomy in the technological process; Ellul and George who deny it.

Poetry. Art. Asian & Asian American Studies. 2014 Kore Press First Book Winner, selected by Joy Harjo. **SILENT ANATOMIES** is a poetic-visual hybrid that traverses the body's terrain, examining the phenomena of cultural silences. Whether it is shame obscuring the female body, the social stigma shrouding certain illnesses, or the cryptic stories of her ancestors, Monica Ong interrogates the agency of the daughter, who must decide whether or not to speak out. What happens to stories that go underreported, un-translated, or are completely erased?

Wanderlost Harlequin

I hope that this book will inspire you to act. To make that move. To fulfill your vision. I want to take you closer to your goal, whether that be starting a billion-dollar unicorn, building a revolution, or just helping you better understand that change of any kind starts with you. You can be the Startup Hero. Startup Heroes are the ones that drive progress, and whether you bring us to another planet or make your neighborhood a nicer, happier place, you can become a Startup Hero. This book is the first step. It helps you take that first step. The step will be different for everyone. It might be to call that customer. It might be to draw up a design concept. It might be to talk to your boss. With this book, I hope to guide people to think big, drive change and go full speed ahead. I am giving them a pledge to do their work for good, and I am giving them some of the tools they need to accomplish their goals. This book is hard. It takes you through a variety of activities, questions, stories and challenges (even puzzles and poems) working both the right and left side of your brain and all the parts in between. The activities I propose are challenging and sometimes even embarrassing. The questions I ask are probing and provoking. The stories I tell are used as examples to guide you toward what I call Startup Heroism. So, why would you read this book? Well, I have worked for 30 years for entrepreneurs. I have supported, funded and coached Startup Heroes all my working life. And I have tested the concepts of this book on the students at Draper University and they have come out to be some of the most interesting, dynamic, and motivated people the world has ever seen. In fact, we have had about 1000 students from over 60 different countries come through the program at this writing, and they have started more than 300 companies! I wrote this book so that some of the thinking that I applied to Draper University could be spread wider, in hopes that these messages would reach other potential Startup Heroes (maybe you) who might make an impact on the world, be proactive about their work, or at the very least, improve their lives. So, I implore you. Read this book, try this book, do this book, play this book, absorb this book, experience this book. It might surprise you. It might thrill you. It might drive you. It might kill you. At the very least, I hope it will give you a perspective on how real progress is made, and at the very best, it might just change your life.

The Circle-A Killings John Wiley & Sons

With the same passionate scholarship and analytical audacity he brought to the character of God, Jack Miles now approaches the literary and theological enigma of Jesus. In so doing, he tells the story of a broken promise — God's ancient covenant with Israel — and of its strange, unlooked-for fulfillment. For, having abandoned his chosen people to an impending holocaust at the hands of their Roman conquerors, God, in the person of Jesus, chooses to die with them, in what is effectively an act of divine suicide. On the basis of this shocking argument, Miles compels us to reassess Christ's entire life and teaching: His proclivity for the powerless and disgraced. His refusal to discriminate between friends and enemies. His transformation of defeat into a victory that redeems not just Israel but the entire world. Combining a close reading of the Gospels with a range of reference that includes Donne, Nietzsche, and Elie Wiesel, *Christ: A Crisis in the Life of God* is a work of magnificent eloquence and imagination.
