This book contains 20 papers from authors in the UK, USA, Germany and Austria. Historically, it gives examples of the influence of groundwater on battlefield tactics and fortress construction; describes how groundwater was developed for water supply and overcome as an obstacle to military engineering and cross-country vehicular movement by both sides in World Wars I and II; and culminates with examples of the application of hydrogeology to site boreholes in recent conflicts, notably in Afghanistan. Examples of current research described include hydrological model development; the impact of variations in soil moisture on explosive threat detection and cross-country vehicle mobility; contamination arising from defence sites and its remediation; privatization of water supplies; and the equitable allocation of resources derived from an international transboundary aquifer.

First published in 1964, Psychology and Social Problems looks at a changing society and research into problems of the time. Many of the themes in the book, such as delinquency, mental health and racial conflict, are still familiar and current topics of discussion today. Social scientists had carried out extensive research into problems of urgent public concern, yet their findings were not widely known or understood and they had often been diffident in advocating policies based on their conclusions. Michael Argyle discussed the recent psychological and social research bearing on the origins of aggression, delinquency, mental disorder, racial and international prejudice, and industrial discontent; he went on to consider the implications of these studies for prevention and control and for the guidance of social change. This sophisticated and well-documented critique is presented with such lucidity and verve that it will appeal equally to laymen and to students and professional workers and can now be enjoyed in its historical context.

Story Behind the Book "The Christy Miller series was actually born when a group of thirteen-year-olds challenged me to write a novel. I'd been questioning the content of their favorite books when they said, 'Why don't you write a book for us?' I told them no, I only wrote picture books. But they persisted: 'How hard could it be? We'll even tell you what to write! We want a love story with teenagers at the beach.' And there you go. Summer Promise first released seventeen years ago and is now translated into five languages. I continue to hear from readers all over the world, many girls saying that they gave their life to Christ after reading Summer Promise. I love that!" —Robin Jones Gunn

In Christ and the Decree, one of the foremost scholars of Calvinism today expounds the doctrines of Christ and predestination as they were developed by Calvin, Bullinger, Musculus, Vermigli, Beza, Ursinus, Zanchi, Polanus, and Perkins. Muller analyzes the relationship of these two doctrines to each other and to the soteriological structure of the system. Back by demand, this seminal work on the relationship between Calvin and the Calvinists is once again available with a new contextualizing preface by the author. I hope that this book will inspire you to act. To make that move. To fulfill your vision. I want to take you closer to your goal, whether that be starting a billion-dollar unicorn, building a revolution, or just helping you better understand that change of any kind starts with you. You can be the Startup Hero. Startup Heroes are the ones that drive progress, and whether you bring us to another planet or make your neighborhood a nicer, happier place, you can become a Startup Hero. This book is the first step. It helps you take that first step. The step will be different for everyone. It might be to call that customer. It might be to draw up a design concept. It might be to talk to your boss. With this book, I hope to guide people to think big, drive change and go full speed ahead. I am giving them a pledge to do their work for good, and I am giving them some of the tools they need to accomplish their goals. This book is hard. It takes you through a variety of activities, questions, stories and challenges (even puzzles and poems) working both the right and left side of your brain and all the parts in between. The activities I propose are challenging and sometimes even embarrassing. The questions I ask are probing and provoking. The stories I tell are used as examples to guide you toward what I call Startup Heroism. So, why would you read this book? Well, I have worked for 30 years for entrepreneurs. I have supported, funded and coached Startup Heroes all my working life. And I have tested the concepts of this book on the students at Draper University and they have come out to be some of the most interesting, dynamic, and motivated people the world has ever seen. In fact, we have had about 1000 students from over 60 different countries come through the program at this writing, and they have started more than 300 companies! I wrote this book so that some of the thinking that I applied to Draper University could be spread wider, in hopes that these messages would reach other potential Startup Heroes (maybe you) who might make an impact on the world, be proactive about their work, or at the very least, improve their lives. So, I implore you. Read this book, try this book, do this book, play this book, absorb this book, experience this book. It might surprise you. It might thrill you. It might drive you. It might kill you. At the very least, I hope it will give you a perspective on how real progress is made, and at the very best, it might just change your life.

Christmas Bliss Entangled: Scandalous

This study offers a literary analysis and theological evaluation of the Christian themes in the five great novels of Dostoevsky - 'Crime and Punishment', 'The Idiot', 'The Adolescent', 'The Devils' and 'The Brothers Karamazov'. Dostoevsky's ambiguous treatment of religious issues in his literary works strongly differs from the slavophile Orthodoxy of his journalistic writings. In the novels Dostoevsky deals with Christian basic values, which are presented via a unique tension between the fictionality of the Christian characters and the readers' experience of the existential reality of their religious problems.
