An unforgettable chronicle of a year of minor-league baseball in a small Iowa town that follows not only the travails of the players of the Clinton LumberKings but also the lives of their dedicated fans and of the town itself. Award-winning essayist Lucas Mann delivers a powerful debut in his telling of the story of the 2010 season of the Clinton LumberKings. Along the Mississippi River, in a Depression-era stadium, young prospects from all over the world compete for a chance to move up through the baseball ranks to the major leagues. Their coaches, some of whom have spent nearly half a century in the game, watch from the dugout. In the bleachers, local fans call out from the same seats they’ve occupied year after year. And in the distance, smoke rises from the largest remaining factory in a town that once had more millionaires per capita than any other in America. Mann turns his eye on the players, the coaches, the fans, the radio announcer, the town, and finally on himself, a young man raised on baseball, driven to know what still draws him to the stadium. His voice is as fresh and funny as it is poignant, illuminating both the small triumphs and the harsh realities of minor-league ball. Part sports story, part cultural exploration, part memoir, Class A is a moving and unique study of why we play, why we watch, and why we remember.

"The captain class" draws on a lifetime of sports spectatorship and two decades of sports reporting to tell the surprising story of what makes teams exceptional. Sam Walker had been searching for the sporting holy grail, a unifying theory of what makes teams win when he discovered certain similarities in cases of sustained greatness in teams across a number of sports. They were all lead by a certain type of captain, but not one with the characteristics you might expect. They were unorthodox outliers - disagreeable, marginally skilled, hot-headed, occasionally unhinged, athletically sub-par, poor verbal communicators, while off the field they were private loners who avoided the limelight

Minor league baseball is quintessentially American: small towns, small stadiums, \$5 tickets, \$2 hot dogs, the never-ending possibility of making it big. But looming above it all is always the real deal: Major League Baseball. John Feinstein takes the reader behind the curtain into the guarded world of the minor leagues, like no other writer can. Where Nobody Knows Your Name explores the trials and travails of the inhabitants of Triple-A, focusing on nine men, including players, managers and umpires, among many colorful characters, living on the cusp of the dream. The book tells the stories of former World Series hero Scott Podsednik, giving it one more shot; Durham Bulls manager Charlie Montoya, shepherding generations across the line; and designated hitter Jon Lindsey, a lifelong minor leaguer, waiting for his day to come. From Raleigh to Pawtucket, from Lehigh Valley to Indianapolis and beyond, this is an intimate and exciting look at life in the minor leagues, where you ’ re either waiting for the call or just passing through.

Flunking Chemistry Class is a parody of the steroid era in Major League Baseball. The novel lampoons the sport as it chronicles some of MLB's absurd attempts to abort the PEDs abuse scandal, which made a mockery of the national pastime over the last 20 years. The author creates a mythical MBL or Multinational Baseball League that includes domestic franchises such as the Bronx Bloomers, the Hollywood Hedgers and the Metropolitan Mutts. It also introduces some international franchises such as the Sydney Kangaroos and the Seoul Searchers and a global commissioner, Buzz Selout. None of the known cheaters get spared in the book. From Corky Samuels, (the "so so outfielder" for the Chicago Gumballers,) and Popeye Maloney (the crybaby of the St Louis Scarlets) to A Dork, the sleazy third baseman of the Bronx Bloomers and Barney Bombs the massive leftfielder of the Bay City Mammoths, the characters all have a familiar feel to the avid baseball fan. The author follows the logic that the cover-up is as bad as the crime and ensures that the baseball establishment is appropriately satirized (sodomized?) as well. Bass Sledgehammer the owner of the Bloomers and Buzz Selout the MBL commissioner are the face of that establishment and they take their lumps along with the "floats" who do their work on the diamond.
***** Three separate plot lines weave together in this baseball tapestry. The most sympathetic plot line follows the hilarious travails of

pitcher Sam Crockett, a five tool prospect from Texas as he winds his way through the minor league systems of several MBL teams. Crockett spends the better part of ten years trying to make it to The Show, with stop offs in towns such as Moose Butt, Montana and Beaufort North Carolina. He even does a gig in the backwater towns of Japan. Along the way his progress is frequently blocked by players who get ahead by cheating through the use of performance enhancing drugs. This plot line also details the "26th man," multi-billion dollar class action law suit, which threatens the antitrust exemption of the Multinational Baseball League and eventually reinvigorates Crockett's career. A parallel plot line follows the misadventures of Lester Postal, a sportswriter for the tabloid paper The New York Roast, as he looks to expose the soft underbelly of the conspiracy between the MBL and the players association, the MBLPA. Postal generates tabloid worthy headline stories as he embarks on a mission to ensure that steroid cheaters (a/k/a Floats) never make it to the Corridor of Conceit. He takes on all comers in his relentless attack on steroid abuse and eventually helps his fifth wife - lawyer, Georgette Postal - as she prepares an eleven figure anti-trust suit. The third storyline covers the activities of the many Floats in the MBL during a twenty year period between 1998 and 2018 as they pass through events such as the Earth Series; congressional hearings; The Witchell-Hunt Report and an absurd talk-radio interview, which follows an arbitration hearing. This storyline loosely follows an historical perspective on the game of baseball and the players who do their work on the diamond. Every year seems to bring about a new scandal that exposes still more players to the scrutiny of the fans who want an honest game. The parallel plot lines finally intersect in a surprising ending that allows the reader to speculate about the future of chemistry in the game of baseball.

Baseball Beyond Our Borders celebrates the globalization of the game while highlighting the different histories and cultures of the nations in which the sport is played. This collection of essays tells the story of America's national pastime as it has spread across the world and undergone instructive, entertaining, and sometimes quirky changes in the process. Covering nineteen countries and a U.S. territory, the contributors show how each country imported baseball, how baseball took hold and developed, how it is organized, played, and followed, and what local and regional traits tell us about the sport's place in each culture. But what lies in store as baseball's passport fills up with far-flung stamps? Will the international migration of players homogenize baseball? What role will the World Baseball Classic play? These are just a few of the questions the authors pose.

Examine the big-league benefits of minor league baseball! The Minor League Baseball: Community Building Through Hometown Sports examines the role played by minor league baseball in hundreds of cities and towns across the United States. Written from the unique perspective of a sociologist who also happens to be an avid baseball fan, the book looks at the contributions minor league teams make to the quality of life in their communities, creating focal points for spirit and cohesiveness while providing opportunities for interaction and entertainment. The book links theory and experience to present a

“sociology of baseball” that explains the symbiotic relationship which brings people together for a common purpose—to root, root, root for the home team. From the author: Minor league baseball is played across the country in more than 100 very different communities. These communities seem to share a special bond with their teams. As with all sports teams, there is a symbiotic relationship between the team and the city or town that it represents. In the case of major league professional sports, the relationship is often fueled by economic outcomes. On the minor league level, the relationship appears to go beyond mere money and prestige. Minor league teams occupy a special place in our hearts. We are more forgiving when they lose, and extremely proud of them when they win. Minor League Baseball: Community Building Through Hometown Sports is a detailed look at the connection between town and team, including: economic benefits (development strategies, community growth) intangible benefits (ballpark camaraderie, hometown pride) fan attachment and attendance (demographic variables, stadium accessibility, “home court advantage”) case studies of two Maryland minor-league franchises--the Class AA Bowie Baysox and the Class A Hagerstown Suns Minor League Baseball: Community Building Through Hometown Sports also includes an introduction to the organizational structure of the minor leagues, a history of each current league, and charts and tables on attendance figures and franchise relocations. This book is essential reading for sociologists, sport sociologists/historians, academics and/or practitioners in the fields of community sociology and psychology, and of course, baseball fans.

Minor league baseball team names tell the stories of towns throughout North America. From amateur collegiate summer leagues all the way through affiliated Triple-A teams, whose players are on the brink of the Major Leagues, nicknames like T-Bones, Crosscutters, RubberDucks, Wingnuts, and Isotopes-to name just a few-are more than just whimsical, catchy brands. They carry significance unique to their local communities. This book explores the stories behind the nicknames of 100 baseball teams based on interviews with front-office personnel who chose the names and the designers who created the logos.

The late 1940s and early 1950s was the Golden Age for minor league baseball. The National Pastime thrived in small town America with hundreds of professional teams in over 50 leagues playing at every level. The lowest rung of professional baseball--Class D, the "bush leagues"--was an exciting mix of returning soldiers and recent high school grads, all with dreams of climbing up the ladder to make it to the "big show." For seven seasons (1946-1952) the Kansas-Oklahoma-Missouri League offered some of the most memorable bush league baseball of the era. Of the 1,588 young men who donned a KOM League uniform, in places like Independence, Kansas and Ponca City, Oklahoma, 30 made it to the majors and one made it to the Hall of Fame.

Between 1915 and 1930, nine towns in the Blue Ridge Mountains of Pennsylvania, Maryland, and West Virginia hosted teams in one of the most successful Class D minor leagues in professional baseball. The Blue Ridge League launched the careers of legendary Hall of Famers Lefty Grove and Hack Wilson and served as a training ground or final stop for over 100 major-league players. This feisty league challenged laws prohibiting Sabbath baseball games (resulting in mass arrests of players and management), pioneered night baseball, served as a laboratory for the establishment of baseball's farm system, and helped develop a postseason five-state championship series.

This book explores the unique relationships between professional baseball teams and the unique ways professional baseball leagues are organized in North America with a primary focus on how proximity can and does impact consumer demand. Perhaps more than any other matter that arises in the business of baseball, proximity to other professional baseball teams is a concern that has uniquely shaped professional baseball leagues in North America. It is this particular component in how professional baseball leagues are organized that suggests building a proximity-based approach to studying the economics of minor league baseball. This book opens up new ways to study minor league baseball, specifically, and sports leagues more generally. So even as advanced technology has eliminated some of the need for fans to be in close proximity to the teams they love to follow, there is still a need to understand more completely how proximity matters can impact the way professional baseball leagues are structured and how that structure can ultimately impact the quality of the games that entertain sports fans everywhere. This book will be of interest to both sports economists and practitioners.

Being a professional baseball player is no walk in the park—it's a physically and mentally demanding job. When you're on the field, millions of people are expecting you to record base hits as a batter or strikeouts as a pitcher. And the work continues beyond game time; you need to practice, work out, and scout your competition. Aches and pains are a given. And on top of everything else, you must perform amidst constant travel, media attention, and high expectations. Baseball has been America's pastime for more than a century. And for those who uphold the tradition in the major leagues today, there's nothing else like it. This book, which was reviewed by 12-year Major League Baseball (MLB) veteran and World Series champion Gabe Kapler, offers an authentic look at what life is like as a pro baseball player. You'll learn: • What kinds of skills it takes to play in the major leagues • What daily life is like for an MLB player • How MLB players prevent and treat injuries Go behind the scenes and see what it's really like to be an MLB star!

Where Nobody Knows Your Name Routledge
In July of 1859, seventy-five young New Orleanians came together to form the seven teams that comprised the Louisiana Base Ball Club. They played their games in the fields of the de la Chaise estate on the outskirts of New Orleans near present-day Louisiana Avenue. As America's population grew through immigration, so did the popularity of what the largest newspaper in New Orleans, the Daily Picayune, called in November of 1860 "the National Game." Baseball quickly replaced cricket as the city's most popular participant sport. In 1887, local businessmen and promoters secured a minor league franchise for the city of New Orleans in the newly formed Southern League, beginning the city's 73-year love affair with the New Orleans Pelicans. From Shoeless Joe Jackson, to Hall of Famers Dazzy Vance, Joe

Sewell, Bob Lemon, and Earl Weaver, to today's stars such as Jeff Cirillo and Lance Berkman, the road to the majors brought many notable players through New Orleans. From these early beginnings to the present-day New Orleans Zephyrs of the AAA Pacific Coast League, local fans have continued the tradition of baseball in New Orleans.

The Seasons of Buffalo Baseball 1857-2020 is a collaborative efforts that draws from the 1985 book, The Seasons of Buffalo Baseball by Joseph M. Overfield. His son, Jim, updated and revised his dad's book into a richly illustrated, 400-page 8x10-inch book that updates the history of professional baseball in Buffalo through the 2020 season, which was cancelled for the Triple A Bisons because of the COVID-19 but includes a summary of the Toronto Blue Jays' home away from home in Buffalo during the summer because of the pandemic. That marked the return of major league baseball to Buffalo since the city had a franchise in the Federal League in 1905. Part One of the book is a year-by-year summary of each season from 1857 through 2020, complete with the team's manager, league, record, leading hitter, home run hitter and pitcher. Part Two is a collection of stories from Joe and Jim Overfield, Brian M. Frank and Michael J. Billoni, Assistant Editors of the book, along with Paul Langendorfer, Budd Bailey, Mike Harrington of the Buffalo News, Sal Maiorana of Rochester's Democrat and Chronicle and former WGRZ-TV sportscaster Jonah Javad, a sportscaster at WFAA-TV in Dallas, Texas. There are also cartoons illustrated by Mike "Ricig" Ricigliano and more than 200 black and white and color photos. The book honors the memory of Joe Overfield, the former historian of the Buffalo Bisons and a member of the Greater Buffalo and Buffalo Baseball Halls of Fame. It is also a tribute to the resilience of the City of Buffalo and that game that has been part of the city's fabric for more than 160 years. Among those who have written testimonials are John Thorn, official historian of Major League Baseball; Chris Berman, ESPN Sports Broadcaster; Bob Costas, multiple Emmy award-winning sports broadcaster; Ken Rosenthal, baseball writer for The Athletic and Fox Sports and Pete Weber, the Voice of the Nashville Predators of the NHL and the former Voice of the Bisons and Greg Brown, the Voice of the Pittsburgh Pirates and the former Bisons broadcaster.
