Grade 7 Science Quick Study Guide & Workbook Texas A&M University Press
Delve deep into ecosystems by classifying the beings that live

there. Our resource breaks down the different kinds of animals before studying their different adaptations. Start off by answering the question: what do we classify? Then, break down this classification into kingdom, phylum, class, family, genus, and finally species. Compare the differences between warm-blooded and cold-blooded animals. Create a brochure on your favorite vertebrate before inventing your own invertebrate. Introduce the concept of adaptation and how animals have changed based on their environment. Take this further by conducting a case study on the adaptations of the koala. Finally, explore the concept of evolution and how this idea is backed up by fossil records. Aligned to the Next Generation Science Standards and written to Bloom's Taxonomy and STEAM initiatives, additional hands-on experiments, crossword, word search, comprehension quiz and answer key are also included.

The excavation of the shipwreck La Belle grabbed public attention in Texas, across the nation, and overseas. Especially enthralled with the discoveries from the ship were schoolchildren. Pam Wheat-Stranahan, named by the Texas Historical Commission to head the educational efforts associated with the excavation's traveling exhibit, continued her work on this project after

leaving the THC. Now, her teacher's guide, which includes a DVD of acclaimed documentary director Alan Govenar's films *The Shipwreck of La Belle* and *Dreams of Conquest* (about Fort St. Louis and Presidio La Bahia), is available for use in an exploration and discovery unit. Ideal for grades 4–8, the teacher's guide and films are designed for use with the book *From a Watery Grave*. Wheat-Stranahan has incorporated the standards for national social studies and the Texas Essential Knowledge and Skills. The resulting guide is user-friendly for teachers and provides interactive learning opportunities for students not just about Texas history but also concerning the age of discovery and the precursors to the American nation.
