Effectiveness of Client-Centered Therapy

Person-centered psychotherapy (also known as client-centered or Rogerian therapy) is a form of talk therapy developed by Carl Rogers in the 1940s and 1950s. The purpose of this form of therapy is to increase a person's feelings of self-worth, reduce the level of incongruence between the ideal and actual self, and help a person become more fully

Client-Centered Therapy: Its Current Practice ...

Two of the key elements of client-centered therapy are that it: Is non-directive. Therapists allow clients to lead the discussion and do not try to steer the client in a particular direction. Emphasizes unconditional positive regard. Therapists show complete acceptance and support for

their clients without casting judgment.

Client-centered therapy, its current practice ...

Client-centered therapy operates according to three basic principles that reflect the attitude of the therapist to the client: The therapist is congruent with the client. The therapist provides the client with unconditional positive regard. The therapist shows empathetic understanding to the client.

Person Centred Therapy - Core Conditions | Simply Psychology About the author (2003) Carl Rogers was Professor of Psychology and Psychiatry at the University of Wisconsin and Head of the Psychotherapy Research Section of the Psychiatric Institute. He was active in the practice of psychotherapy for over thirty years, and the originator of what is called 'client-centred' therapy. He died in 1987.

Free Ebooks Client-Centered Therapy: Its Current Practice ...

Unlike the clich é therapist who blames a client's parents or childhood experiences, the client-centered therapist recognizes that past hurts can play an important role in the ability to work through current issues; however, in order for a person to effectively cope with and overcome current obstacles, they must be given a forum in which to express past pains.

Client-Centered Therapy: Its Current Practice ...

The way client-centered therapy works is a natural extension of these conditions: the therapist and client discuss the client ' s current problems and issues, the therapist practices active listening and empathizes with the client, and the client decides for themselves what is wrong and what can be done to correct it (McLeod, 2015).
