Brunnstrom's Clinical Kinesiology 6th Edition Test Bank

Signe Brunnstrom (birth name: Anna Signe Sofia Brunnstrom; 1898–1988) was a Swedish-American physiotherapist, scientist and educator. She is best known for her discovery on the sequence of stages of recovery from hemiplegia after stroke, which later came to be known as Brunnstrom

Approach. Brunnstrom is also known for her observations in weight bearing of the thigh and foot.

However, Brunnstrom's Clinical Kinesiology
is, indeed, one such textbook. The mere fact
that it is celebrating its Golden Anniversary
year of publication is evidence of its stand-
alone presence in the world of health care. It
was originally written by Signe Brunnstrom
when there were few textbooks in kinesiology
and little research on the topic.
