origin. The journal welcomes full articles presenting original research results, invited editorials, and reviews on the following topics: - General epidemiology and diagnostics of infectious agents.

Clinical Microbiology Journal

SCImago Journal Rank (SJR): 2.942

? SCImago Journal Rank (SJR): 2019:

2.942 SJR is a prestige metric based on the idea that not all citations are the same. SJR uses a similar algorithm as the Google page rank; it provides a quantitative and a qualitative measure of the journal's impact. View More on Journal Insights

Clinical Microbiology and Infection

- Journal - Elsevier Journal of Clinical Immunology & Microbiology publishes research reports, and articles of various research processes like study protocols, pilot studies and pre-protocols. The journal is novel, open minded, and a peer-reviewed medical periodical designed to serve in as a stage for both veteran and ammeter researchers with their way breaking functions as long as they are technically and scientificall y motivated. **Guide for authors - Clinical Microbiology and Infection ...** Clinical Microbiology and Infection (CMI) is a monthly publication in English of the European Society of Clinical Microbiology and Infectious Diseases and publishes peer-reviewed papers that present basic and applied research relevant to therapy and diagnostics in the fields of microbiology, infectious diseases, virology, parasitology, immunology and epidemiology as related to these fields. Clinical Microbiology and Infection (CMI), the official publication of the European

Society of
Clinical
Microbiology
and
Infectious
Diseases, was
launched in
1995 and
publishes
manuscripts
presenting
the results
of original
research in
clinical
microbiology,
infectious
diseases,
bacteriology,
mycology,
virology and
parasitology,
including
immunology
and
epidemiology
as related to
these fields.
