## **Review of Uveitis** Jones & Bartlett Publishers

Thoroughly updated and revised to emphasize the link between research and evidence-based practice, this Eighth Edition of a classic textbook presents state-of-the-art methods for conducting high-quality studies. New chapters offer guidance on developing self-report scales, conducting systematic reviews, and enhancing the integrity of qualitative studies. The ancillary Resource Manual includes application exercises, models of comprehensive research critiques, a full NINR grant application, and a "must-have" Toolkit on a CD-ROM, containing a treasure-trove of exemplary research tools (e.g., consent forms, a demographic questionnaire, statistical table templates)--all in easily-adapted Word

documents to meet individual research needs. A watershed edition! Student Resource Manual with Toolkit, ISBN: 978-0-7817-7052-1. Final FRCR Part A Modules 1-3 Single Best Answer MCQS Interview Questions and Answers Trainees in subspecialty of geriatric psychiatry and general psychiatry need to master core competencies in geriatric psychiatry in order to practice. This book is designed to provide short-answer question-based learning centering around the core curriculum topics in geriatric psychiatry and is primarily ideal not only for medical students, residents, and fellows, but also for psychiatrists preparing for re-certification. This book features approximately 300 short-answer questions on geriatric psychiatry topics, each comprising the stem of a brief clinical scenario or concise question with expected number of answers. The book also features detailed teaching notes, graphics, and the respective source references. The format is consistently structured from chapter to chapter, practical and concise, and designed to enhance the reader ' s diagnostic and management ability and clinical understanding. Each answer includes a concise discussion, pertinent illustrations, and source references. This text is a valuable reference and teaching tool that provides an opportunity for

learning across a rapidly growing field. The material covered matches the existing postgraduate curricula in geriatric psychiatry and helps prepare candidates for their specialty and subspecialty certification examinations. The cases map well to both the American Geriatric Psychiatry Association and Canadian Academy of Geriatric Psychiatry as well as other international postgraduate curricula. The book covers main topics within geriatric psychiatry, some such as substance use disorders and sexuality and sexual dysfunction in later life. As the Baby Boomers age, this reference will continue to be a valuable staple in geriatric workforce training. Geriatric Psychiatry Study Guide is the ultimate resource for students, residents, fellows, psychiatrists, psychologists, family practitioners, nurses, social workers, and all clinicians rising to the challenges of the mental health segment of the geriatric workforce.

Part 2 MRCOG: SBA Questions contains invaluable preparation and practice for candidates undertaking the Royal College of Obstetricians and Gynaecologists Part 2 MRCOG examination. It contains 400 practice questions written by a highly experienced team of MRCOG question writers, alongside detailed answers referencing each question to either an RCOG, NICE or WHO guideline, or an article in the professional journal 'The Obstetrician & Gynaecologist'. This will enable candidates to understand the reasoning and knowledge base behind the question, as well as giving them a clear reference should they wish to read further around the subject. The first part of the book introduces and explains the new format of the Part 2 MRCOG exam, giving insightful advice on the skills required to write a

good SBA question. The second part of the book contains chapters matched to the 15 of the 19 modules of the core curriculum, giving a comprehensive range of questions and answers with detailed explanations and references. For anyone preparing for the Part 2 MRCOG exam, this book will provide extensive and comprehensive practice and guidance from an expert author team.

Approaches and Techniques OUP Oxford  
Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

The only book dedicated to the College of Emergency Medicine's Membership examination, this book contains numerous questions and answers, together with data sets and clinical examples to help prepare candidates taking part B of this and other higher examinations in emergency medicine. All trainees wishing to pursue a career in Emergency Medicine have to have to pass the College of Emergency Medicine's own membership examination (MCEM) to enter training and pass the Fellowship examination (FCEM) to complete their Certificate of Specialist Training (CST). This book is a study guide which can be used in conjunction with standard emergency medicine texts. It follows the MCEM syllabus exactly and each chapter has three key parts: core facts which supplements revision for parts A and B, clinical scenarios, including data, which can be used to prepare for part B, and sample answers for questions. This book prepares candidates for examination success in part B, the data

interpretation part of the MCEM examination. The authors are doctors all dedicated to the acute or emergency setting and who have collated extensive material to help in candidates' preparation for the MCEM examination. They have run a successful revision course for candidates taking the examination.

"This textbook is aimed at the trainee and young plastic surgeon, but it is extremely comprehensive and sufficiently detailed for any practitioner. The

information is succinct, yet complete and up to date. . . . For a single-volume book, the detailed knowledge presented is impressive. . . . I think this is a great book. It is packed with good and up-to-date information, and I think it will be an invaluable resource for trainees but also for all plastic surgeons. The editors are to be congratulated on achieving a very difficult task with such success." —from a review by Peter C. Neligan, MB, in *Plastic and Reconstructive Surgery* "This is exactly what the editors of *Plastic and reconstructive surgery: Approaches and Techniques* set out to achieve in producing this excellent textbook. . . . It is truly an international effort at all levels, as the editors, from Australia (Ross D. Farhadieh), the UK (Neil W. Bulstrode) and Canada (Sabrina Cugno), have joined forces to recruit over 130 international contributors and produce a resource of over 1100 pages that provides a well-organized and thorough, yet succinct, text of the essentials of current plastic surgery. . . . Many of the contributors are world-renowned experts; however, there is also a new generation of young rising stars whose contributions are equally good, providing a new, fresh and contemporary feel." —from the Foreword by Julian J. Pribaz, Professor of Surgery, Harvard Medical School "The authors here have concentrated all this useful information into their chapters in a quite outstanding manner. Any plastic surgeon of whatever maturity will find this an excellent purchase which he/she will have no reason to regret." —from a review by Douglas H.
