Books in Print ABC-CLIO

Tony Willard has been--amongst many other things in motor publishing motoring correspondent of the Birmingham Evening Mail and Editor of Automotive Management (now called AM)--the best read trade paper for the motor retail trade. There are now stacks of ways to buy cars in the UK. So many that it is really hard for consumers to know where to get best choice, best value, best service, best after-care, best credit or whatever it is that they prioritise. In addition to franchised dealers there are: manufacturers selling direct to the public; rental car companies doing the same; car-buying agents; car supermarkets; used car dealers; internet traders; importers; auctions; and personal shoppers. Most car buying guides concentrate on WHAT

to buy whether it be new or used. This book covers that, but assumes the buyer knows roughly what he wants. What has been missing until now is a guide through the jungle of places and prices which tells you WHERE to buy and HOW to pay not a penny more than necessary.

The Second Machine Age: Work, Progress, and Prosperity in a Time of Brilliant Technologies ABC-CLIO

A Sarong for Clio testifies to an ongoing intellectual dialogue between its ten contributors and Craig J. Reynolds, who inspired these essays. Conceived as a tribute to an innovative scholar, dedicated teacher, and generous colleague, it is this volume's ambition to make a concerted intervention on Thai historiography—and Thai studies more generally—by pursuing in new directions ideas that figure

prominently in Reynolds's scholarship. The writings gathered here revolve around two prominent themes in Reynolds's scholarship: the nexus of historiography and power, and Thai political and business cultures—often so intertwined as to be difficult to separate. The chapters examine different types of historical texts, Thai political discourse and political culture, and the media production of consumer culture. Contributors: Chris Baker; Patrick Jory, University of Queensland, Brisbane; Tamara Loos, Cornell University; Yoshinori Nishizaki, National University of Singapore; James Ockey, University of Canterbury; Maurizio Peleggi, National University of Singapore; Pasuk Phongpaichit, Chulalongkorn University, Bangkok; Kasian Tejapir, Thammasat University, Bangkok; Villa Vilaithong, Chulalongkorn University, Bangkok; Thongchai Winichakul, University of Wisconsin – Madison
Encyclopedia of Information Systems and Services Guilford Publications
"Secondary Schools: A Reference Handbook" charts the planning, designing, and administration of the various types of secondary schools in the U.S. and their goals. It maps the historical foundation of the school system, examines important social and cultural movements in

education, analyzes legislation and policy issues, looks at standardization, and discusses reform. Always keeping the needs of students in close focus, this book examines public and private institutions, vocational curricula, schools within schools, as well as target audiences for specific institutions, educational standards, accessibility, admission policies, student assistance, and other important subjects.

Catalog of Copyright Entries. Third Series Oryx Press

Wind energy 's bestselling textbook-fully revised. This must-have second edition includes up-to-date data, diagrams, illustrations and thorough new material on: the fundamentals of wind turbine aerodynamics; wind turbine testing and modelling; wind turbine design standards; offshore wind energy; special purpose applications, such as energy storage and fuel production. Fifty additional homework problems and a new appendix on data processing make this comprehensive edition perfect for engineering students. This book offers a complete examination of one of the most promising sources of renewable energy and is a great introduction to

this cross-disciplinary field for practising engineers. " provides a wealth of information and is an excellent reference book for people interested in the subject of wind energy. " (IEEE Power & Energy Magazine, November/December 2003) " deserves a place in the library of every university and college where renewable energy is taught. " (The International Journal of Electrical Engineering Education, Vol.41, No.2 April 2004) " a very comprehensive and well-organized treatment of the current status of wind power. " (Choice, Vol. 40, No. 4, December 2002)

Whitaker's Cumulative Book List ABC-CLIO

In this three-volume set, an international team of experts involved in the research, management, and mitigation of hate-motivated violence examines and explains hate crimes in the United States and around the globe, drawing comparisons between countries as well as between hate crimes overall and domestic terrorism. • Examines the motivation, actions, and thinking of individuals who commit hate crimes, the effects on victims and society as a whole, and the national and international debates on punishments • Offers guidelines to educate about hate crimes and to serve at-risk populations • Includes vignettes from both perpetrators and victims as well as psychological profiles of hate crime offenders that serve to bring the academic discussions to life •

Represents an ideal resource for academic libraries that will be of interest to those studying subjects ranging from sociology to ethnic studies and from law to international studies

Airman's Information Manual Artech House

An exploration of German World War II

small-scale military strategy, edited by the former chief historian of the U.S. Marines. While small wars are not new, how they should be fought by a modern industrial nation is still very much a matter for debate. It is thus worth paying heed now to the experiences of another power which once encountered the same problems. This pocket manual examines German analysis of the problem, covering experiences from the Napoleonic era to the Third Reich, based upon the historical analysis, *Kleinkrieg*, provided to the German High Command by Arthur Ehrhardt in 1935 (republished in 1942 and 1944), and the *Bandenbekämpfung* (Fighting the Guerrilla Bands) document provided to Germany's OKW in 1944. In both, conditions that were specific to broader military operations were separated from circumstances in occupation campaigns, and the new background in the German experience in suppressing rebellion during the Second World War is presented. Avoiding ideological biases, this manual examines the purely military problem as seen by professionals. Rediscovered and presented in English, these German thoughts on how best to fight small wars have been edited and annotated by Charles D. Melson, former chief historian for the U.S. Marine Corps. "The German

attitude to guerrilla war was far more complex than stereotypical brutality for the sake of brutality." —Stephen G. Fritz, PhD, author of *Ostkrieg* "A highly accessible introduction to an important, but frequently neglected, aspect of German military history as well for those interested in guerrilla warfare." —Bruce Gudmundsson, PhD, U.S. Marine Corps University, author of *On Artillery Software-Defined Radio for Engineers* Haynes Publishing
This practical and holistic approach to offering library resources and services to online patrons addresses multiple areas of service to online patrons, including reference, instruction, access, and marketing. Academic libraries are wonderful resources for university students and faculty on campus, and public libraries thrive on providing targeted in-person services such as storytime, makerspaces, and adult programming. It can be easy, however, to forget about the large population of students, faculty, and community members who access library resources and use library services remotely. *Library Services for Online Patrons* reaches out to patrons who are not—or not always—located on campus or who seldom—if ever—visit libraries' physical facilities and who may not be aware of or

able to equitably use library services. The authors focus on ways to organize library resources using principles of design and to cater library services to the specific needs of online students, faculty, and community members. They also address how to effectively target marketing to the online population and how to collaborate with campus and community stakeholders who work directly with them. Provides novel services and resources that will save librarians already serving online patrons time and energy Offers a broad, practical perspective to help novice librarians make initial connections with online learners Emphasizes the importance of identifying other institutional players in online education in order to effectively implement and market improvements Enhances understanding of the importance of universal design and how to assess possibilities for improvement in online services
Forthcoming Books Casemate
Covering every essential topic ranging from circulation and literacy instruction to reference and security, this benchmark text provides an up-to-date, broadly based view of library public service and its functions. • Covers all essential services of the library through completely reorganized and updated content that reflects the role of changing

technologies in today's libraries • language.

Presents many new chapters that address the topics of print collections, media collections, e-resources, computer access, social media, legal issues, ethical issues, funding and other fiscal issues, and the library as place
