An Update on Administration Action to Reduce Unnecessary Regulatory Burdens on America's Small Manufacturers Remedia Publications
From the bestselling author of Swindle, Restart, and Slacker is another hilarious story about an underachiever who learns to go above and beyond. Cameron Boxer, king of the slackers, has found

something worth his time. By playing video games online in front of an audience he can find both fame AND fortune -- especially with Elvis (a beaver who seems to love video games as much as Cam) at his side. The only problem? Things keep getting in Cam's way. Like school. And the club he accidentally started. And the misguided people in his life who don't think beavers should be playing video games. It's going to take some trickery, some close calls, and a fierce devotion to slacking in order for Cam to get to his goal -- conquering the game's infamous Level 13. But if any slacker can do it, Cam can.

This volume represents a new name and a new focus for its predecessor, Current Perspectives on Aging and the Life Cycle (volumes 1-4). We begin

our new series, now titled Advances in Life Course Research, with volume 5. Its statement of purpose is the publication of theoretical analyses, reviews, policy analyses and positions, and theory-based empirical papers on issues involving all aspects of the human life course. It adopts a broad conception of the life course, and invites and welcomes contributions from all disciplines and fields of study interested in understanding, describing, and predicting the antecedents of and consequences for the course that human lives take from birth to death, within and across time and cultures (construed in its broadest sense), regardless of methodology, theoretical orientation, or disciplinary affiliation.

Like the original two-volume work, this work attempts to present a systematic and comprehensive exposition, with illustrations, of the methods used by technicians and research workers in dealing with demographic data. The book is concerned with how data on population are gathered, classified, and treated to produce tabulations and various summarizing measures that reveal the significant aspects of the composition and dynamics of populations. It sets forth the sources, limitations, underlying definitions, and bases of classification, as well as the techniques and methods that have been developed for summarizing and analyzing the data.
