The wildly popular YouTube star behind Clean My Space presents the breakthrough solution to cleaning better with less effort
Melissa Maker is beloved by fans all over the world for her completely re-engineered approach to cleaning. As the dynamic new authority on home and living, Melissa knows that to invest any of our precious time in cleaning, we need to see big, long-lasting results. So, she developed her method to help us get the most out of our effort and keep our homes fresh and welcoming every day.
In her long-awaited debut book, she

shares her revolutionary 3-step solution: • Identify the most important areas (MIAs) in your home that need attention • Select the proper products, tools, and techniques (PTT) for the job • Implement these new cleaning routines so that they stick
Clean My Space takes the chore out of cleaning with Melissa 's incredible tips and cleaning hacks (the power of pretreating!) her lightning fast 5-10 minute " express clean " routines for every room when time is tightest, and her techniques for cleaning even the most daunting places and spaces. And a big bonus: Melissa gives guidance on the best non-toxic, eco-conscious cleaning products and offers

natural cleaning solution recipes you can make at home using essential oils to soothe and refresh. With Melissa's simple groundbreaking method you can truly live in a cleaner, more cheerful, and calming home all the time. Lippincott Williams & Wilkins Completely updated for C# 3.0 and the .NET 3.5 platform, the new edition of this bestseller offers more than 250 code recipes to common and not-so-common problems that C# programmers face every day. Every recipe in the book has been

reconsidered with more than a third of them rewritten to take advantage of new C# 3.0 features. If you prefer solutions you can use today to general C# language instruction, and quick answers to theory, this is your book. C# 3.0 Cookbook offers a new chapter on LINQ (language integrated query), plus two expanded chapters for recipes for extension methods, lambda functions, object initializers, new synchronization primitives and more. The new edition is also complemented by a

public wiki, which not only includes all of the C# 2.0 recipes from the previous edition unchanged by the release of C# 3.0, but invites you to suggest better ways to solve those tasks. Here are some of topics covered: LINQ Numeric data types and Enumerations Strings and characters Classes and structures Generics Collections Exception handling Delegates, events, and lambda expressions Filesystem interactions Web site access XML usage (including

LINQ to XML, XPath and XSLT) Networking Threading Data Structures & Algorithms Each recipe in the book includes tested code that you can download from oreilly.com and reuse in your own applications, and each one includes a detailed discussion of how and why the underlying technology works. You don't have to be an experienced C# or .NET developer to use C# 3.0 Cookbook. You just have to be someone who wants to solve a problem now, without having to

learn all the related theory first. [Mediamark Research Health Care & Drug Products Report](#) Gallery Books Secured transactions law has been subjected to a close scrutiny over the last two decades. One of the main reasons for this is the importance of availability of credit and the consequent need to reform collateral laws in order to improve access to finance. The ability to give security

effectively influences not only the cost of credit but also, in some cases, whether credit will be available at all. This requires rules that are transparent and readily accessible to non-lawyers as well as rules that recognise the needs of small and medium-sized enterprises. This book critically engages with the challenges posed by inefficient secured credit laws. It offers a comparative

analysis of the reasons and the needs for a secured transactions law reform, as well as discussion of the steps taken in many common law, civil law and mixed law jurisdictions. The book, written under the auspices of the Secured Transactions Law Reform Project, informs the debate about reform and advances novel arguments written by world renowned experts that will build upon the existing

literature, and as such will be of interest to academics, legal practitioners and the judiciary involved in secured transactions law around the world. The text considers reform initiatives that have taken place up to the end of April 2016. It has not been possible to incorporate events since then into the discussion. However, notable developments include the banks decree passed by the

Italian Government on 29th June 2016, and the adoption of the Model Law on Secured Transactions by UNCITRAL on 1st July 2016. **Try Harder** Simon and Schuster Unjust enrichment is one of the least understood of the major branches of private law. This book builds on the 2006 work by the same authors, which examined the developing law of unjust enrichment in Australia. The refinement of the authors' thinking, responding to

novel issues and circumstances that have arisen in the maturing case law, has required many chapters of the book to be completely rewritten. The scope of the book is also much broader. It concerns the principles of the law of unjust enrichment in Australia, New Zealand, England and Canada. Major decisions of the highest courts of these jurisdictions in the last decade provide a fertile basis for examining the underlying principles and

foundations of this subject. The book uses the leading cases, particularly in England and Australia, to distil and explain the fundamental principles of this branch of private law. The cases discussed are current as of 1 May 2016 although the most recent could only be included in footnotes. *Annual Report* CRC Press
This comprehensive text and reference addresses the full scope of contemporary contact lens science and practice. With two expert editors and 100 first-rate

contributors, the book presents practitioners and students in optometry and ophthalmology with key facts on corneal anatomy, recent research, contact lens design, patient evaluation, clinical applications, patient education, and complications of contact lens wear. More than 600 illustrations complement the text. Clinical Contact Lens Practice will be the standard text for required contact lens courses and will be an invaluable everyday reference for practitioners. Little House Living CCH Australia Limited

From the foods you consume to the household and personal care products you buy, being just slightly greener can have a big impact on your health and happiness! The Slightly Greener Method gives you small, actionable changes you can easily make in three areas of your home—the kitchen (foods and beverages), bathroom (personal care products and cosmetics), and cleaning products—without breaking the bank or upending your life. You don't have to be 100% chemical free to be healthier and safer. By focusing on micro-habits you can build over time and the gradual introduction of non-toxic, all-natural or organic, eco-friendly products, board-certified holistic nutritionist Tonya Harris guides you along a roadmap to a greener, more environmentally-friendly and sustainable lifestyle that can help protect you and your families' health long-term. Get answers to questions like: What does "organic" really mean? Which of the unpronounceable chemicals listed on the back of my shampoo bottle might be toxic? Do I really need to throw away expired makeup? Why aren't companies always required to list toxic ingredients on their product labels? How can I make sure my kids and pets are safe while also keeping a squeaky clean house? It's never too soon (or too late) to start your slightly greener journey! This practical, actionable guide is perfect for readers of bestselling lifestyle and organizational books such as *The Complete Book of Clean and Zero Waste Home*, and fans of TV shows like *Tidying Up with Marie Kondo* and *The Home Edit*. *Detroit Suburban East Area Telephone*

The immensely popular blogger behind Little House Living provides a timeless and “heartwarming guide to modern homesteading” (BookPage) that will inspire you to live your life simply and frugally—perfect for fans of *The Pioneer Woman* and *The Hands-On Home*. Shortly after getting married, Merissa Alink and her husband found themselves with nothing in their pantry but a package of spaghetti and some breadcrumbs. Their life had seemingly hit rock bottom, and it was only after a touching act of charity that they were able to get

back on their feet again. Inspired by this gesture of kindness as well as the beloved Little House on the Prairie books, Merissa was determined to live an entirely made-from-scratch life, and as a result, she rescued her household budget—saving thousands of dollars a year. Now, she reveals the powerful and moving lessons she’s learned after years of homesteading, homemaking, and cooking from scratch. Filled with charm, practical advice, and gorgeous full-color photographs, Merissa shares everything from tips

on budgeting to natural, easy-to-make recipes for taco seasoning mix, sunscreen, lemon poppy hand scrub, furniture polish, and much more. Inviting and charming, *Little House Living* is the epitome of heartland warmth and prairie inspiration.

Pipeline Steels for Sour Service Apress

This book summarizes the results of experimental work on the development of technologies for the manufacture of sour service line pipe steels. It presents the latest theories on the mechanisms of cracking and factors affecting fracture resistance in H2S-containing media of low-alloy pipe steels.

The authors propose methods for improving the quality of continuously cast slabs and show the effect of the chemical composition on the microstructure and properties of rolled plates for pipes.

Considerable attention is paid to the metallurgical aspects of microstructure formation and its mechanical properties, as well as the enhancement and cracking resistance of sour service sheets under thermomechanical rolling with accelerated cooling. In brief, the book presents a cutting-edge overview of sour service sheet and pipe production.

Now in its second edition,

Construction Law is the standard work

of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a "tour de force", and by His Honour Humphrey Lloyd QC as "seminal" and "definitive". This new edition builds on that strong foundation and has been fully updated to include extensive

references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law. *Semiannual Report of the Architect of the Capitol for the Period ... Pursuant to Section 105(b), Public Law 454, Eighty-eighth*

Congress Healthy House Inst Completely revised with the latest advances, evidence, and standards needed for everyday practice, Contact Lenses, 6th Edition, remains a definitive work on this multi-faceted topic, ideal for optometrists, dispensing opticians, ophthalmologists, and contact lens practitioners. This classic, superbly designed text is perfectly suited for health care professionals, providing all of the essential knowledge needed

in one convenient volume. Provides up-to-date, authoritative information on contact lens materials and lens types, treatment in contact lens and tear film complications, and myopia correction and contact lenses for abnormal ocular conditions. Discusses current topics such as miniscleral lenses, keratoconus, corneal cross linking, and paediatric, cosmetic and prosthetic contact lenses. Contains high-quality line diagrams and clinical

illustrations to highlight key points in the text. Focuses on the evidence behind contact lens practice, enabling you to make informed choices about the care you give to your patients.
