The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Corvettes built from 1968 through 1982 are somewhat unique collector cars for two reasons: 1) They can be purchased at relatively reasonable prices and 2) Their owners tend to be less concerned about absolute authenticity than other car collectors. This interchange manual advises owners of Corvettes from these model years as to which parts can be swapped across model years, as well as which parts from other Chevrolets can be used in their cars. An ideal, all-inclusive reference for owners who want to modify their cars at a nominal cost while expanding their modification options.

Paul M. Fritz's love affair with Corvettes began in 1963, when the local owner of a 1963 Saddle Tan fuel-injected coupe would park his Corvette next to the bank in Schuylkill Haven, Pennsylvania, on Friday nights for all. A few years later, though, he bought a 1966 Sunfire Yellow, 427 cubic inch, 425 horsepower Corvette Coupe, which he's owned for forty-seven years. For much of that time, however, the car was in storage, as he enlisted in the Navy in October 1969 and spent a lot of time overseas. It came out of storage in November 1998, and a full-body, off-the-frame restoration began at The Vette Shop in Warminster, Pennsylvania. The restoration followed the process of the National Corvette Restorers Society, and the Corvette went on to win the society's Top Flight Award, The Zora Arkus-Duntov Mark of Excellence Award. Relive your youth, renew your commitment to living in the moment, and celebrate the special bond between a man and his beloved car with The Life of a 1966 Corvette.

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.
