Experience postwar Europe through the diary of a fascinating and witty twentieth-century writer and artist. Recording his travels in France and Switzerland, Curzio Malaparte encounters famous figures such as Cocteau and Camus and captures the fraught, restless spirit of Paris after the trauma of war. In 1947 Curzio Malaparte returned to Paris for the first time in fourteen years. In between, he had been condemned by Mussolini to five years in exile and, on release, repeatedly imprisoned. In his intervals of freedom, he had been dispatched as a journalist to the Eastern Front, and though many of his reports from the bloodlands of Poland and Ukraine were censored, his experiences there became the basis for his unclassifiable postwar masterpiece and international bestseller, Kaputt. Now, returning to the one country that had always treated him well, the one country he had always loved, he was something of a star, albeit one that shines with a dusky and disturbing light. The journal he kept while in Paris records a range of meetings with remarkable people—Jean Cocteau and a dourly unwelcoming Albert Camus among them—and is full of Malaparte's characteristically barbed reflections on the temper of the time. It is a perfect model of ambiguous reserve as well as humorous self-exposure. There is, for example, Malaparte's curious custom of sitting out at night and barking along with the neighborhood dogs—dogs, after all, were his only friends when in exile. The French find it puzzling, to say the least; when it comes to Switzerland, it is grounds for prosecution!

bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Because of its inherent simplicity, graph theory has a wide range of applications in engineering, and in physical sciences. It has of course uses in social sciences, in linguistics and in numerous other areas. In fact, a graph can be used to represent almost any physical situation involving discrete objects and the relationship among them. Now with the solutions to engineering and other problems becoming so complex leading to larger graphs, it is virtually difficult to analyze without the use of computers. This book is recommended in IIT Kharagpur, West Bengal for B.Tech Computer Science, NIT Arunachal Pradesh, NIT Nagaland, NIT Agartala, NIT Silchar, Gauhati University, Dibrugarh University, North Eastern Regional Institute of Management, Assam Engineering College, West Bengal University of Technology (WBUT) for B.Tech, M.Tech Computer Science, University of Burdwan, West Bengal for B.Tech. A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia

for most of her life, and still has ongoing major episodes of the illness. The Center Cannot Hold is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

The Sounds of Early Cinema New York Review of Books

Off Limits Getty Publications

The Sounds of Early Cinema is devoted exclusively to a little-known, yet absolutely crucial phenomenon: the ubiquitous presence of sound in early cinema. "Silent cinema" may rarely have been silent, but the sheer diversity of sound(s) and sound/image relations characterizing the first 20 years of moving picture exhibition can still astonish us. Whether instrumental, vocal, or mechanical, sound ranged from the improvised to the pre-arranged (as in scripts, scores, and cue sheets). The practice of mixing sounds with images differed widely, depending on the venue (the nickelodeon in Chicago versus the summer Chautauqua in rural Iowa, the music hall in London or Paris versus the newest palace cinema in New York City) as well as on the historical moment (a single venue might change radically, and many times, from 1906 to 1910). Contributors include Richard Abel, Rick Altman, Edouard Arnoldy, Mats Bj Å rkin, Stephen Bottomore, Marta Braun, Jean Ch Å ç teauvert, Ian Christie, Richard Crangle, Helen Day-Mayer, John Fullerton, Jane Gaines, Andr Å © Gaudreault, Tom Gunning, Fran Å § ois Jost, Charlie Keil, Jeff Klenotic, Germain Lacasse, Neil Lerner, Patrick Loughney, David Mayer, Dominique Nasta, Bernard Perron, Jacques Polet, Lauren Rabinovitz, Isabelle Raynauld, Herbert Reynolds, Gregory A. A classic and impassioned account of the Haitian Revolution—the first revolution in the Third World and the model for the liberation movements from Africa to Cuba. “ One of the seminal texts about the history of slavery and abolition. . . . Provocative and empowering. ” – The New York Times Book Review This powerful, intensely dramatic book is the definitive account of the Haitian Revolution of 1794-1803, a revolution that began in the wake of the Bastille. It is the story of the French colony of San Domingo, a place where the brutality of master toward slave was legendary. And it is the story of a barely literate slave named Toussaint L'Ouverture, who led the black people of San Domingo in a successful struggle against successive invasions by overwhelming French, Spanish, and English forces and in the process helped form the first independent nation in the Caribbean.

The winners of the Nobel Prize in Economics upend the most common assumptions about how economics works in this gripping and disruptive portrait of how poor people actually live. Why do the poor borrow to save? Why do they miss out on free life-saving immunizations, but pay for unnecessary drugs? In Poor Economics, Abhijit V. Banerjee and Esther Duflo, two award-winning MIT professors, answer these questions based on years of field research from around the world. Called "marvelous, rewarding" by the Wall Street Journal, the book offers a radical rethinking of the economics of poverty and an intimate view of life on 99 cents a day. Poor Economics shows that creating a world without poverty begins with understanding the daily decisions facing the poor.

A moving lyric meditation on the Congo River that explores the identity, chaos, and wonder of the Democratic Republic of Congo as well as race and the detritus of colonialism. With The River in the Belly, award-winning Congolese author Fiston Mwanza Mujila seeks no less than to reinitiate the Congo River in the imaginary of European languages. Through his invention of the “ solitude ” —a short poetic form lending itself to searing observation and troubled humor, prone to unexpected tonal shifts and lyrical u-turns—the collection celebrates, caresses, and chastises Central Africa ’ s great river, the world ’ s second largest by discharge volume. Drawing inspiration from sources as diverse as Soviet history, Congolese popular music, international jazz, and everyday life in European exile, Mwanza Mujila has fashioned a work that can speak to the extraordinary hopes and tragedies of post-independence Democratic Republic of the Congo while also mining the generative yet embattled subject position of the African diasporic writer in Europe longing for home. Fans of Tram 83 will discover in River the same incandescent, improvisatory verbal energy that so dazzled them in Mwanza Mujila ’ s English-language debut.
