After some wailing and gnashing of teeth, I broke down and paid the \$60 for the official Yamaha Service Manual, a fine tome indeed. Well finally in 2003, first Haynes and then Clymer published manuals for the 1985-2003 V-Max. I wanted one, but was not sure which to buy.

New owner of an 02 1150GS and need to get a manual. Is either manual better than other? I've had many Clymer manuals over the years and was happy with them, never used a Haynes before. Just bought an 02 1150GS too! It came with both and although I've always used the Clymer manuals I think I like the ...

Re: Manuals, Factory vs. Clymer vs. Seloc
bubbakat, Thanks for the info and the link, I read a lot there and it seems a small majority suggest the factory Mercury manual over both Seloc and Clymer, so I will try to get to their website and order (any one else's opinions appreciated still). This is an awesome site!

Clymer seems to be geared more to the pro or serious DIY. To that end, they're a little harder to read and work with. I like the clymers, no nonsense nitty gritty type of manual. The haynes tends to explain things out in greater length, the clymer says "go here, do this."

[Clymer | Haynes Manuals](#)

I have both the factory manual along with the Clymer and the Clymer is more detailed. If you are just starting out in working on your ride, I recommend the Clymer over the factory one. The factory manual is geared for experienced guys. But, it's a good idea to have both of them along with the factory parts manual.

The Clymer manual is ready to get you back on the trail! Pricing... A Clymer repair manual can be in your mail box for around 30 bucks where the OEM repair manual comes in at about 130. I'll admit, I was initially skeptical of using a manual produced by anyone other than Honda, especially at a hundred dollars less.
