5 full-length practice tests featuring 300 different questions based on real CNA Exam questions The one fatal mistake during the skills test that could not only cost you the exam but also make it seem like you don't know what you're doing The 6 principles of physical care every nursing assistant should know by heart, and how each one applies to the various basic nursing skills Which 5 kinds of non-physical needs are vital for delivering effective psychosocial care The two main types of Activities of Daily Living (ADL) to differentiate between, and 7 additional categories of ADLs you'll come across on the exam A slight tweak in how you perform your skills that can help ensure you don't get mistakenly penalized during the demonstration Which specific standards you need to meet when performing each of the 23 skills tested on the skills portion And much

more!
