Comprehending as with ease as pact even more than supplementary will have enough money each success. neighboring to, the proclamation as competently as perspicacity of this Cnn Cold War Episode Guide can be taken as competently as picked to act.

A New History Hoover Institution Press Publi

This is a compelling and dramatic account of Cuban policy in Africa from 1959 to 1976 and of its escalating clash with U.S. policy toward the continent. Piero Gleijeses's fast-paced narrative takes the reader from Cuba's first steps to assist Algerian rebels fighting France in 1961, to the secret war between Havana and Washington in Zaire in 1964-65--where 100 Cubans led by Che Guevara clashed with 1,000 mercenaries controlled by the CIA--and, finally, to the dramatic dispatch of 30,000 Cubans to Angola in 1975-76, which stopped the South African advance on Luanda and doomed Henry Kissinger's major covert operation there. Based on unprecedented archival research and firsthand interviews in virtually all of the countries involved--Glejises was even able to gain extensive access to closed Cuban archives--this comprehensive and balanced work sheds new light on U.S. foreign policy and CIA covert operations. It revolutionizes our view of Cuba's international role, challenges conventional U.S. beliefs about the influence of the Soviet Union in directing Cuba's actions in Africa, and provides, for the first time ever, a look from the inside at Cuba's foreign policy during the Cold War. "Fascinating . . . and often downright entertaining. . . . Gleijeses recounts the Cuban story with considerable flair, taking good advantage of rich material.--Washington Post Book World "Glejises's research . . . bluntly contradicts the Congressional testimony of the era and the memoirs of Henry A. Kissinger. . . . After reviewing Dr. Gleijeses's work, several former senior United States diplomats who were involved in making policy toward Angola broadly endorsed its conclusions.--New York Times "With the publication of *Conflicting Missions*, Piero Gleijeses establishes his reputation as the most impressive historian of the Cold War in the Third World. Drawing on previously unavailable Cuban and African as well as American sources, he tells a story that's full of fresh and surprising information. And best of all, he does this with a remarkable sensitivity to the perspectives of the protagonists. This book will become an instant classic.--John Lewis Gaddis, author of *We Now Know: Rethinking Cold War History* Based on unprecedented research in Cuban, American, and European archives, this is the compelling story of Cuban policy in Africa from 1959 to 1976 and of its escalating clash with U.S. policy toward the continent. Piero Gleijeses sheds new light on U.S. foreign policy and CIA covert operations, revolutionizes our view of Cuba's international role, and provides the first look from the inside at Cuba's foreign policy during the Cold War. -->

Soviet Espionage in America -- The Stalin Era Routledge

Drawn from the journals kept intermittently by the poet throughout his life, this volume is a chronicle of a revolutionary literary period, with portraits of some of its most memorable figures, including Auden, Isherwood, Henry Moore, and Cyril Connolly

Issues and Controversy Ivan R Dee

The Cable News Network (CNN) presents an online educator's guide to episode five of the television series "The Cold War," which is about the Korean War. CNN offers access to curriculum materials, a chronology, maps, and links to related episodes.

The Soviet World of American Communism DIANE Publishing

In the mid-1970s, the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia. As Gerald Ford and Jimmy Carter fought for the presidency in late 1976, the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment. There was one continent, however, where the Cold War was on the point of flaring hot: Africa. Jimmy Carter in Africa opens just after Henry Kissinger's failed 1975 plot in Angola, as Carter launches his presidential campaign. The Civil Rights Act was only a decade old, and issues of racial justice remained contentious. Racism at home undermined Americans' efforts to "win hearts and minds" abroad and provided potent propaganda to the Kremlin. As President Carter confronted Africa, the essence of American foreign policy--stopping Soviet expansion--slammed

up against the most explosive and raw aspect of American domestic politics--racism. Drawing on candid interviews with Carter, as well as key U.S. and foreign diplomats, and on a dazzling array of international archival sources, Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself. In the face of two major tests, in Rhodesia and the Horn of Africa, Carter grappled with questions of Cold War competition, domestic politics, personal loyalty, and decision-making style. Mitchell reveals an administration not beset by weakness and indecision, as is too commonly assumed, but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings. Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined.

Looks at the reasons for the adoption of the Fourth Amendment, describes the laws it sets forth, and discusses challenges to and violations of the amendment. Cambridge University Press

Cold hard facts on the world's hot spots. Now readers can make sense of the daily headlines with an examination of the sides and issues of evolving conflicts. This updated edition provides coverage of all of the hot conflict spots in our world today, background and history, new and added coverage of the war on terror, and up-to-date coverage on the Middle East, including Iraq. * As Iraq continues to dominate the news, there is, unfortunately, no shortage of other trouble spots--this guide looks at conflicts around the globe * An accurate reference source for high school and college students, and a great overview for people who want more in-depth understanding of daily events

THE Journal Harvard University Press

"What if you set off on a vacation trip in search of history--and your destination was the men who had been president?" Asking himself that tantalizing question, bestselling author and award-winning journalist Bob Greene embarked on a long journey across the breadth of the nation, hoping to spend time with Richard Nixon, Gerald Ford, Jimmy Carter, George Bush and Ronald Reagan. The result of his odyssey is *Fraternity*. Rich with the sounds of the presidents' own voices, *Fraternity* is dramatic, surprising, funny, revealing, inspiring, tragic, touching and unforgettable: a story destined to be read and enjoyed not just now, but far into the future as Americans think about who we are as a people. Here is Nixon, in an unmarked office high above Manhattan, explaining the reason for his solitary walks through New York streets at 5:30 every morning. Here is Carter, riding in a Secret Service van, recalling the sting of his family's being mocked for their rural Southern heritage, even after he had won the White House. Here is Ford, beside a golf course fairway, laughing at his startled discovery that of all his presidential papers, the one worth the most on the open market was a letter from a woman who tried to kill him. Here is Bush, on the road with his son, remembering his despair and anger at encountering a swastika carved into the sand behind an elegant resort on American soil. And here is Nancy Reagan, in a Beverly Hills hotel, on the haunting first night she must stand in for her husband after the announcement of his illness. A travelogue of the national spirit that chronicles a quest stretching over fifteen years and starring the biggest names in the modern American saga, this is living history of the most human kind, and Bob Greene at his very best.

Last Best Hope Oxford University Press

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts--and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president.

"We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days. **Behind the Scenes of the Cold War Race for Missile Defense** Univ of North Carolina Press

Uses declassified documents from the Johnson Library to examine the roles of President Johnson and his advisors in determining United States policy in Vietnam

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever. The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long past their primes, HBO shook off the shackles of convention and led the way to a bolder world of content, opening the door to all that was new, original, and worthy of our attention. In *Tinderbox*, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with *SNL in Live from New York*; with ESPN in *Those Guys Have All the Fun*; and with talent agency CAA in *Powerhouse*, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO--and hundreds of other major players. Over the course of more than 750 interviews with key sources, Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.

Inspired by True Events ABC-CLIO

This volume presents the story of the Hungarian Revolution in 120 original documents, ranging from the minutes of Khrushchev's first meeting with Hungarian leaders after Stalin's death in 1953, to Yeltsin's declaration on Hungary in 1992. The great majority of the material comes from archives that were inaccessible until the 1990s, and appears here in English for the first time. Book jacket.

The True Story that Inspired The Hunt for Red October Potomac Books, Inc. Based upon previously secret KGB records, this book reveals for the first time the riveting story of Soviet espionage's golden age in the U.S. throughout the 1930s, WW2, and the early Cold War. Weinstein and Vassiliev were provided unique access to thousands of classified Soviet intelligence dispatches that documented the KGB's success in acquiring America's most valuable atomic, mil., and diplomatic secrets. Details the range of classified gov't. documents and info. stolen for Soviet intell. during the 1930s and the war years. They also incorporate, for the first time, a number of the previously classified VENONA cables released in 1995-96 by the CIA. 3The first realistic and non-judgmental understanding of Soviet espionage in the U.S. during the Stalin era.2 Photos.

HBO's Ruthless Pursuit of New Frontiers Crown

This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th-century intervention operations. Designed for a wide variety of users, it encompasses general reviews of aspects of military organization and science, as well as specific wars and conflicts. The book examines naval and air warfare, as well as significant individuals, including commanders, theorists, and war leaders. Each entry includes a listing of additional publications on the topic, accompanied by an article discussing these publications with reference to their particular emphases, strengths, and limitations.

Tinderbox Henry Holt and Company

A comprehensive resource on what lockdown drills are, why they are necessary, and how best to conduct them. The first book to offer a comprehensive examination of lockdown drills in K–12 schools, *Lockdown Drills* balances research findings with practical applications and implications. Schildkraut and Nickerson, school safety experts with complementary backgrounds in criminology and school psychology, review the historical precedents for lockdown drills, distinguish school lockdowns from other emergency procedures (such as active shooter drills), explain why they are conducted, present evidence-based research on their effectiveness, and describe how to conduct them according to best practices. Proponents of lockdown drills as a life-saving necessity, the authors help to bring much-needed standardization to how these drills are studied and conducted. The authors present common arguments for and against the inclusion of lockdown drills in emergency preparedness efforts, balancing their discussion of the perceptions and psychological impacts of lockdown drills with scholarly research on the extent to which lockdown drills improve how effectively individuals respond to a potential threat. Placing lockdown drills in the larger context of school safety and preparedness, they examine the broader implications for policymakers. Finally, they emphasize that drills, of which lockdowns are only one type, are just a part of the complex school safety puzzle. Ensuring that schools are safe places for students and educators begins long before a crisis occurs and continues through the days, weeks, and years of recovery following a crisis.

The Cold War Penguin

An Economist Best Book of 2018 A spellbinding narrative of the high-stakes mission that changed the course of America, China, and global politics—and a rich portrait of the towering, complex figure who carried it out. As World War II came to an end, General George Marshall was renowned as the architect of Allied victory. Set to retire, he instead accepted what he thought was a final mission—this time not to win a war, but to stop one. Across the Pacific, conflict between Chinese Nationalists and Communists threatened to suck in the United States and escalate into revolution. His assignment was to broker a peace, build a Chinese democracy, and prevent a Communist takeover, all while staving off World War III. In his thirteen months in China, Marshall journeyed across battle-scarred landscapes, grappled with Mao Zedong and Zhou Enlai, and plotted and argued with Generalissimo Chiang Kai-shek and his brilliant wife, often over card games or cocktails. The results at first seemed miraculous. But as they started to come apart, Marshall was faced with a wrenching choice. Its consequences would define the rest of his career, as the secretary of state who launched the Marshall Plan and set the standard for American leadership, and the shape of the Cold War and the US-China relationship for decades to come. It would also help spark one of the darkest turns in American civic life, as Marshall and the mission became a first prominent target of McCarthyism, and the question of “who lost China” roiled American politics. The *China Mission* traces this neglected turning point and forgotten interlude in a heroic career—a story of not just diplomatic wrangling and guerrilla warfare, but also intricate spycraft and charismatic personalities. Drawing on eyewitness accounts both personal and official, it offers a richly detailed, gripping, close-up, and often surprising view of the central figures of the time—from Marshall, Mao, and Chiang to Eisenhower, Truman, and MacArthur—as they stood face-to-face and struggled to make history, with consequences and lessons that echo today.

The Star Wars Enigma Enslow Publishers, Inc.

From the bestselling author of *Team of Teams* and *My Share of the Task*, an entirely new way to understand risk and master the unknown. Retired four-star general Stan McChrystal has lived a life associated with the deadly risks of combat. From his first day at West Point, to his years in Afghanistan, to his efforts helping business leaders navigate a global pandemic, McChrystal has seen how individuals and organizations fail to mitigate risk. Why? Because they focus on the probability of something happening instead of the interface by which it can be managed. In this new book, General McChrystal offers a battle-tested system for detecting and responding to risk. Instead of defining risk as a force to predict, McChrystal and coauthor Anna Butrico show that there are in fact ten dimensions of control we can adjust at any given time. By closely monitoring these controls, we can maintain a healthy Risk Immune System that allows us to effectively anticipate, identify, analyze, and act upon the ever-present possibility that things will not go as planned. Drawing on examples ranging from military history to the

business world, and offering practical exercises to improve preparedness, McChrystal illustrates how these ten factors are always in effect, and how by considering them, individuals and organizations can exert mastery over every conceivable sort of risk that they might face. We may not be able to see the future, but with McChrystal’s hard-won guidance, we can improve our resistance and build a strong defense against what we know—and what we don’t.

Latino Americans Light Technology Publishing

An epic account of the Navy SEALs of Alpha platoon, the startling accusations against their chief, Eddie Gallagher, and the courtroom battle that exposed the dark underbelly of America’s special forces—from a Pulitzer Prize-winning reporter “Meticulously assembled and brilliantly written . . . [a] remarkable and engrossing book.” —The New York Times By official accounts, the Navy SEALs of Alpha platoon returned as heroes after their 2017 deployment to Mosul, following a vicious, bloody, and successful campaign to drive ISIS from the city. But within the platoon a different war raged. Even as Alpha’s chief, Eddie Gallagher, was being honored by the Navy for his leadership, several of his men were preparing to report him for war crimes, alleging that he’d stabbed a prisoner in cold blood and taken lethal sniper shots at unarmed civilians. Many young SEALs regarded Gallagher as the ideal special operations commando. Trained as a sniper, a medic, and an explosives expert, he was considered a battle-tested leader. But in the heat of combat, some in his platoon saw a darker figure—a man who appeared to be coming unhinged after multiple deployments in America’s forever wars. Their excitement to work with a tough, experienced chief soon gave way to a grim suspicion that his thirst for blood seemed to know no bounds and a belief that his unpredictability was as dangerous as the enemy. In riveting detail, Pulitzer Prize-winning New York Times correspondent David Philipps reveals the story of a group of special operators caught in a moral crucible—should they uphold their oath and turn in their chief, or honor the SEALs’ unwritten code of silence? It is also a larger story of how the SEAL Teams drifted off course after 9/11, and of the “pirate” subculture that festered within their ranks—a secret brotherhood that, in a time of endless war with few clear victories, made the act of killing itself the paramount goal. The investigation and trial following Alpha’s deployment—and Gallagher’s ultimate acquittal on the most serious charges—would pit SEAL against SEAL, set the Navy brass on a collision course with President Donald Trump, and turn Gallagher into a political litmus test in a hotly polarized America. A page-turning tale of battle, honor, and betrayal, *Alpha* is a remarkable exposé of the fault lines fracturing a country that has been at war for a generation and counting.

The 500-year Legacy that Shaped a Nation Penguin

Nations carry out geopolitical combat through economic means. Yet America often reaches for the gun over the purse to advance its interests abroad. Robert Blackwill and Jennifer Harris show that if U.S. policies are left uncorrected, the price in blood and treasure will only grow. Geoeconomic warfare requires a new vision of U.S. statecraft.

Fraternity Naval Institute Press

When *Strategies of Containment* was first published, the Soviet Union was still a superpower, Ronald Reagan was president of the United States, and the Berlin Wall was still standing. This updated edition of Gaddis’ classic carries the history of containment through the end of the Cold War. Beginning with Franklin D. Roosevelt’s postwar plans, Gaddis provides a thorough critical analysis of George F. Kennan’s original strategy of containment, NSC-68, The Eisenhower-Dulles “New Look,” the Kennedy-Johnson “flexible response” strategy, the Nixon-Kissinger strategy of detente, and now a comprehensive assessment of how Reagan - and Gorbachev - completed the process of containment, thereby bringing the Cold War to an end. He concludes, provocatively, that Reagan more effectively than any other Cold War president drew upon the strengths of both approaches while avoiding their weaknesses. A must-read for anyone interested in Cold War history, grand strategy, and the origins of the post-Cold War world.
