Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control—his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Three high school students in a summer arts program at Yale University collaborate on an "anti-guy musical" with the working title, Castration Celebration, in a bawdy, battle-of-the-sexes romp by the author of Spanking Shakespeare.

A Practical Guide to Digital Forensics Investigations John Wiley & Sons

The global market for oil and gas resources is rapidly changing. Three major trends—the rise of new consumers, the increasing influence of state players, and concerns about climate change—are combining to challenge existing regulatory structures, many of which have been in place for a half-century. Global Energy Governance analyzes the energy market from an institutionalist perspective and offers practical policy recommendations to deal with these new challenges. Much of the existing discourse on energy governance deals with hard security issues but neglects the challenges to global governance. Global Energy Governance fills this gap with perspectives on how regulatory institutions can ensure reliable sources of energy, evaluate financial risk, and provide emergency response mechanisms to deal with interruptions in supply.

The authors bring together decisionmakers from industry, government, and civil society in order to address two central questions: • What are the current practices of existing institutions governing global oil and gas on financial markets? • How do these institutions need to adapt in order to meet the challenges of the twenty-first century? The resulting governance-oriented analysis of the three interlocking trends also provides the basis for policy recommendations to improve global regulation. Contributors include Thorsten Benner, Global Public Policy Institute, Berlin; William Blyth, Chatham House, Royal Institute for International Affairs, London; Albert Bressand, School of International and Public Affairs, Columbia University; Dick de Jong, Clingendael International Energy Programme; Ralf Dickel, Energy Charter Secretariat; Andreas Goldthau, Central European University, Budapest, and Global Public Policy Institute, Berlin; Enno Harks, Global Public Policy Institute, Berlin; Wade Hoxtell, Global Public Policy Institute, Berlin; Hillard Huntington, Energy Modeling Forum, Stanford University; Christine Jojarth, Center on Democracy, Development, and the Rule of Law, Stanford University; Frederic Kalinke, Department of Politics and International Relations, Oxford University; Wilfrid L. Offers advice to Latino students considering or already in a university or community college, including tips on choosing a college, strategies for academic success, and success stories from notable Latinos. Bipolar Disorder, Second Edition Grand Central Publishing

Are eugenics practices morally defensible? Who should have access to genetic information about particular individuals? What dangers for cultural and racial diversity do developments in genetics pose? And how should scientific research be regulated and by whom? These are some of the questions addressed in this book, which comprises the 1998 Oxford Amnesty Lectures. The lecturers are all respected in their specific field, including Hilary Putnam, Ian Wilmut (co-creator of 'Dolly' the sheep), and Jonathan Glover. Each lecture is preceded by a discussion article written by prominent lawyers, scientists, and philosophers, and a foreword has been written by Richard Dawkins. Fascinating and thought-provoking, this book is essential reading for all those interested in the future of genetics and humankind.

THE following translation was undertaken from a desire to lay before the English-speaking people the full treasury of epic beauty, folklore, and mythology comprised in The Kalevala (the Land of Heroes, the national epic of the Finns.) The Kalevala describes Finnish nature very minutely and very beautifully. Grimm says that no poem is to be compared with it in this respect. A deeper and more esoteric meaning of the Kalevala, however, points to a contest between Light and Darkness. The numerous myths of the poem are likewise full of significance and beauty, and the Kalevala should be read between the lines, in order that the full meaning of this great epic may be comprehended. The whole poem is replete with the most fascinating folk-lore about the mysteries of nature, the origin of things, the enigmas of human tears, and, true to the character of a national epic, it represents not only the poetry, but the entire wisdom and accumulated experience of a nation. One of the most notable characteristics of the Finnish mythology is the interdependence among the gods. The Finnish deities, like the ancient gods of Italy and Greece, are generally represented in pairs. They have their individual abodes and are surrounded by their respective families. The Sun and the Moon each have a consort, and sons and daughters. Only two sons of Paeivae appear in The Kalevala, one comes to aid of Wainamoinen in his efforts to destroy the mystic Fire-fish, by throwing from the heavens to the girde of the hero, a "magic knife, silver-edged, and golden-handled;" the other son, Panu, the Fire-child, brings back to Kalevala the fire that had been stolen by Louhi, the wicked hostess of Pohyola. 10% of the net profit from the sale of this book will be donated to charities.

Weygandt helps corporate managers see the relevance of accounting in their everyday lives. Challenging accounting concepts are introduced with examples that are familiar to them, which helps build motivation to learn the material. Accounting issues are also placed within the context of marketing, management, IT, and finance. The new Do It! feature reinforces the basics by providing quick-hitting examples of brief exercises. The chapters also incorporate the All About You (AAY) feature as well as the Accounting Across the Organization (AAO) boxes that highlight the impact of accounting concepts. With these features, corporate managers will learn the concepts and understand how to effectively apply them.

"Choctaw Food tells the story of a group of people and the land. Through hundreds of generations living in the American Southeast, Choctaw ancestors wove the region's landscapes into their language, culture, and food. The foodway that they developed was local and productive. Its dishes were flavorful and healthy. Its food production activities brought the community together in a way that was sustainable on the land. Today, this foodway is one of the most threatened parts of our traditional culture. Yes, it contains timeless insights that have the potential to improve quality of life in the 21st century. The pages of this book delve deep into Choctaw history to bring to light the type of practical knowledge needed to bring Indigenous Choctaw food back to the family dinner table. This story is uniquely Choctaw, and yet, it is connected with the heritage of everyone who has ancestors that lived closely with the land." --Page 4 of cover.

OS X Mountain Lion: The Missing Manual "O'Reilly Media, Inc."

Citing the relevance of Impressionist gardens as subjects of par excellence by master painters, a lavishly illustrated volume explores history's fascination with gardens, parks, and flowers in a context of modern horticultural trends and the changing political landscape in France, describing how gardens were central to the Impressionists' discovery of the outdoor style. 10,000 first printing.

In the latest novel from the New York Times bestselling author of Agony of the Leaves, Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar... Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine, she needs to sort out the suspects on the groom's side from the suspects on the bride's side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her...
