Cognitive Behavioral Treatment Of Borderline

Dialectical behavior therapy (DBT) is a structured outpatient treatment based on cognitive-behavioral principles developed by Dr Marsha Linehan in the early 1990s for the treatment of parasuicidal behavior in women with borderline personality disorder (BPD).<sup>1</sup> Linehan defines parasuicidal behavior as “any intentional, acute self-injurious behavior with or without suicidal intent, including both suicide attempts and self-mutilative behaviors.”<sup>2</sup> Borderline personality disorder, as outlined ...
