The examples are good. That is not what I feel is a problem. The cost for a paperback; my god, is more than \$100. I have had to control my gag reflect when I think of that. The cost should be around \$40 at most. There are other books that cover the same material that could pass as text, but when the instructor say -- Colander, Colander it is.

By far one of the best textbooks I've ever used, and certainly one of the best economics books on the market. Colander's down to earth, sometimes conversational writing style presents many involved and sometimes complicated topics in a manner that makes them easy to grasp. This text is a must for any economics student.
