Penguin

An offbeat, often
hilarious crime

novel set in the
sleepy Alaskan town
of Cold Storage
from the Shamus
Award winning
author of the Cecil
Younger series.
Cold Storage,
Alaska, is a remote
fishing outpost
where salmonberries

sparkle in the
morning frost and
where you just
might catch a King
Salmon if you're
zen enough to wait
for it. Settled in
1935 by Norse
fishermen who liked
to skinny dip in its
natural hot springs,

the town enjoyed prosperity at the height of the frozen fish boom. But now the cold storage plant is all but abandoned and the town is withering. Clive “The Milkman” McCahon returns to his tiny Alaska hometown after a seven-year jail stint for dealing coke. He has a lot to make up to his younger brother, Miles, who has dutifully been taking care of their ailing mother. But Clive doesn’t realize the trouble he’s bringing home. His vengeful old business partner is hot on his heels, a stick-in-the-mud State Trooper is dying to bust Clive

for narcotics, and, to complicate everything, Clive might be going insane—lately, he’s been hearing animals talking to him. Will his arrival in Cold Storage be a breath of fresh air for the sleepy, depopulated town? Or will Clive’s arrival turn the whole place upside down? *The Angels Will Not Care* Soho Press NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY CHICAGO TRIBUNE • A thrilling adventure of

Librarian Greer
Hogan matches wits with a deviously clever killer in M.E. Hilliard's chilling series debut, ideal for fans of Louise Penny and Dorothy L. Sayers. Greer Hogan is a librarian and an avid reader of murder mysteries. She also has a habit of stumbling upon murdered bodies. The first was her

husband's, and the tragic loss led Greer to leave New York behind for a new start in the Village of Raven Hill. But her new home becomes less idyllic when she discovers her best friend sprawled dead on the floor of the library. Was her friend's demise related to two other deaths that the police deemed accidental? Do the residents of this insular village hold dark secrets about another murder, decades ago? Does a serial killer haunt Raven Hill? As the body count rises, Greer's anxious musings take a darker turn when she uncovers

unexpected and distressing information about her own husband's death...and the man who went to prison for his murder. She is racked with guilt at the possibility that her testimony may have helped to convict an innocent man. Though Greer admires the masters of deduction she reads about in books, she never expected to have to solve a mystery herself. Fortunately, she possesses a quick wit and a librarian's natural resourcefulness. But will that be enough to protect her from a brilliant, diabolical

murderer? And even if Greer manages to catch the Raven Hill killer, will living with her conscience prove a fate worse than death?

ON THE 100TH ANNIVERSARY OF PROHIBITION, LEARN WHAT REALLY HAPPENED. In 1919, the National Prohibition Act was passed, making it illegal

across America to produce, distribute, or sell liquor. With this act, the U.S. Congress also created organized crime as we know it. Italian, Jewish, and Irish mobs sprang up to supply the suddenly illegal commodity to the millions of people still eager to drink it. Men like Lucky Luciano and Meyer Lansky, Dutch Schultz and Bugsy Siegel, Al Capone in Chicago and Nucky Johnson in Atlantic City, waged a brutal war for power in

the streets and on the waterfronts. But if you think you already know this story...think again, since you've never seen it through the eyes of one of the mobsters who lived it. Called "one of the most significant organized crime figures in the United States" by the U.S. District Attorney, Vincent "Jimmy Blue Eyes" Alo was just 15 years old when Prohibition became law. Over the next decade, Alo would work side

by side with Lansky and Luciano as they navigated the brutal underworld of bootlegging, thievery and murder. Alo's later career included prison time and the ultimate Mob tribute: being immortalized as "Johnny Ola" in *The Godfather, Part II*. Introduced to the 91-year-old Alo living in retirement in Florida, Dylan Struzan based this book on more than 50 hours of recorded testimony--stories Alo had never

shared, and that he forbid her to publish until "after I'm gone." Alo died, peacefully, two months short of his 97th birthday. And now his stories--bracing and violent, full of intrigue and betrayal, hunger and hubris--can finally be told. I know my brother is dead. But sometimes Mama gets confused.

There's plenty about the grownup world that six-year-old Aoife doesn't understand. Like what happened to her big brother Theo and why her mama is in the hospital instead of home where she belongs. Uncle Donny says she just needs to be patient, but Aoife's sure her mama won't be able to come home until Aoife learns what really happened to her brother. The trouble is no one wants to talk about Theo because he was murdered. But by whom? With her imaginary friend Teddy by her side and the detecting skills of her nosy

next door neighbor, Aoife sets out to uncover the truth about her family. But as her search takes her from the banks of Theo's secret hideout by the river to the rooftops overlooking Detroit, Aoife will learn that some secrets can't stay hidden forever and sometimes the pain we bury is the biggest secret of them all. Driven by Aoife's childlike sincerity and colored by her vivid imagination, *All That's Bright and Gone* illuminates the unshakeable bond between families--and the lengths we'll go to bring our loved

ones home. *The Curious Eat Themselves Soho* Press How does one deal with a diagnosis of Parkinson ' s disease at the age of forty-three? My *Degeneration*, by former Anchorage Daily News staff cartoonist Peter Dunlap-Shohl, answers the question with humor and passion, recounting the author ' s attempt to come to grips with the " malicious whimsy " of this chronic, progressive, and disabling disease. This graphic novel tracks Dunlap-Shohl ' s

journey through depression, the worsening symptoms of the disease, the juggling of medications and their side effects, the impact on relations with family and community, and the raft of mental and physical changes wrought by the malady. My *Degeneration* examines the current state of Parkinson ' s care, including doctor/patient relations and the repercussions of a disease that, among other things, impairs movement, can rob patients of their ability to speak or write, degrades sufferers ' ability

to deal with complexity, and interferes with the sense of balance. Readers learn what it 's like to undergo a dramatic, demanding, and audacious bit of high-tech brain surgery that can mysteriously restore much of a patient 's control over symptoms. But My Degeneration is more than a Parkinson 's memoir. Dunlap-Shohl gives the person newly diagnosed with Parkinson 's disease the information necessary to cope with it on a day-to-day basis. He chronicles the changes that life with the disease

can bring to the way one sees the world and the way one is seen by the wider community. Dunlap-Shohl imparts a realistic basis for hope—hope not only to carry on, but to enjoy a decent quality of life.
