This Cold War Study Guide For Students, as one of the most involved sellers here will entirely be accompanied by the best options to review.

A Routledge Study Guide Gale, Cengage Learning
For over forty years much of the world was held captive by a conflict between two wholly incompatible economic ideologies—capitalism and communism—and the two primary superpower countries who practiced them, the United States and the Soviet Union. Written in accessible language for readers with little or no previous knowledge about the subject, this work is first a general history of the Cold War, with an overview of its root causes and the policies and theories that were in place from 1947 through 1990. A

thoroughly annotated chronology of important Cold War events follows. Short biographies of some of the major United States political figures and world leaders conclude the work.

Living with Purpose in a Fast-Paced World Penguin

A Study Guide for Arthur C. Clarke's "If I Forget Thee, Oh Earth?," excerpted from Gale's acclaimed Short Stories for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Short Stories for Students for all of your research needs.

Cold War Gale, Cengage Learning

Horror films provide a guide to many of the sociological fears of the Cold War era. In an age when warning audiences of impending death was the order of the day for popular nonfiction, horror films provided an area where this fear could be lived out to its ghastly conclusion. Because enemies and potential situations of fear lurked everywhere, within the home, the government, the family, and the very self, horror films could speak to the invasive fears of the cold war era. *I Was a Cold War Monster* examines cold war anxieties as they were reflected in British and American films from the fifties through the early sixties.

This study examines how cold war horror films combined anxiety over social change with the erotic in such films as Psycho, The Tingler, The Horror of Dracula, and House of Wax.

I was a Cold War Monster Gale, Cengage Learning
This book tells the story of the rise and decline of the United Electrical, Radio, and Machine Workers of America (UE) from 1933 to 1990. Once the third-largest industrial union in the United States, the UE was the most powerful left-wing institution in U.S. history and arguably the most significant victim of the anti-communist purges that marked post-World War II America. This is an institutional study of the formation of the UE and the struggle for its control by left-wing and right-wing factions. Unlike most books on unions during the Cold War, this study carries the story up to the present, showing the long-term effects of the ideological battles.

Origins and Prevention Routledge

"AP UNITED STATES HISTORY Study Guide" 700 questions and answers (ILLUSTRATED). Essential names, dates, and summaries of key historical events. Reviewing AP flash cards is the first step toward more confident AP preparation and ultimately, higher AP exam scores!

The United States of War Greenwood Publishing Group
"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The “ dean of Cold War historians ” (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, The Cold War stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of On Grand Strategy.

Gale Researcher Guide for: Cold Wars and Hot Spots
Simon and Schuster

2020 L.A. Times Book Prize Finalist, History A provocative examination of how the U.S. military has shaped our entire world, from today's costly, endless wars to the prominence of violence in everyday American life. The United States has been fighting wars constantly since invading Afghanistan in 2001. This nonstop warfare is far less exceptional than it might seem: the United States has been at war or has invaded other countries almost every year since independence. In *The United States of War*, David Vine traces this pattern of bloody conflict from Columbus's 1494 arrival in Guantanamo Bay through the 250-year expansion of a global US empire. Drawing on historical and firsthand anthropological research in fourteen countries and territories, *The United States of War* demonstrates how US leaders across generations have locked the United States in a self-perpetuating system of permanent war by constructing the world's largest-ever collection of foreign military bases--a global matrix that has made offensive interventionist wars more likely. Beyond exposing the profit-making desires, political interests, racism, and toxic masculinity underlying the country's relationship to war and empire, *The United States of War* shows how the long history of U.S. military expansion shapes our daily lives, from today's multi-trillion-dollar wars to the pervasiveness of violence and militarism in everyday U.S. life. The book concludes by confronting the catastrophic toll of American wars--which have left millions dead,

wounded, and displaced--while offering proposals for how we can end the fighting.

British Cinema and the Cold War Gale, Cengage Learning
Mike Dowling offers a study guide on Russia and communism as part of the Electronic Passport online resource. Topics include information on the former Soviet Union, Russian leaders, the arms race, the Cold War, and more, as well as links to related sites. Dowling notes that the guide has been designed for use by gifted 6th grade students.

From World War to Cold War, 1939-1953 Gale, Cengage Learning

This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust *Poetry for Students* for all of your research needs.

Dawn of the Cold War Gale, Cengage Learning

"Shaw analyses key films of the period, including *High Treason*, which put a British McCarthyism on celluloid; the fascinatingly ambiguous science fiction thriller *The Quatermass Experiment*; the court-room drama based on the trial of Hungary's Cardinal Mindszenty, *The Prisoner*; the dystopic *The Damned*, made by one of Hollywood's blacklisted directors, Joseph Losey; and the CIA-funded, animated version of George Orwell's classic novel *Animal Farm*. The result is a deeply probing study of how Cold War issues were refracted through British films, compared with their imported American and East European counterparts, and how the British public received this 'war propaganda'."--BOOK JACKET.

Gale Researcher Guide for: The US War in Iraq McFarland

The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

A Study Guide for Franz Kafka's "Hunger Artist" Univ of California Press

Gale Researcher Guide for: Organization of American States is selected from Gale's academic platform Gale Researcher. Communist activity, and TV quiz show scandals.

Access to History: Europe and the Cold War 1945-1991: Second Edition Routledge

Many different social scientists have been challenged by the origins of wars, their immediate causes and the mechanisms leading to the breakdown of peaceful relations. Many have speculated whether conflicts were avoidable and whether alternative policies might have prevented conflict. The Ashgate Research Companion to War provides contributions from a number of theorists and historians with a focus on long term, systemic conflicts. The problématique is introduced by the Editors highlighting the need for interdisciplinary approaches to the study of war as a global phenomenon. The following 29 essays provide a comprehensive study guide in four sections: Part I explicates differing theories as to the origins of war under the general concept of 'polemology'. Part II analyzes significant conflicts from the Peloponnesian wars to World War II. Part III examines the ramifications of Cold War and post-Cold War conflict. Part IV looks at long cycles of systemic conflict, and speculates, in part, whether another global war is theoretically possible, and if so, whether it can be averted. This comprehensive volume brings us a much needed analysis of wars throughout the ages, their origins, their consequences, and their relationship to the present. A valuable understanding that is ideal for social scientists from a variety of backgrounds.

Depression to Cold War Gale, Cengage Learning

In this fascinating new interpretation of Cold War history, John Lewis Gaddis focuses on how the United States and the Soviet Union have managed to get through more than four decades of Cold War confrontation without going to war with one another.

Using recently-declassified American and British documents, Gaddis argues that the postwar international system has contained previously unsuspected elements of stability. This provocative reassessment of contemporary history--particularly as it relates to the current status of Soviet-American relations--will certainly generate discussion, controversy, and important new perspectives on both past and present aspects of the age in which we live.
