Epistemic cognition, the philosophical core of metacognition, concerns people's knowledge about the justification and truth of beliefs. Multiple literatures in psychology and education address aspects of epistemic cognition. In the absence of a coherent conceptual framework, however, these literatures mostly fail to communicate with each other and often connect only loosely to genuine epistemology. This complicates any effort to achieve a systematic theoretical understanding of epistemic cognition and its development. Deanna Kuhn writes in her foreword, "Moshman is not the first to take on this challenge, but he fulfills it elegantly and, I think, the most comprehensively and astutely." After reviewing the basics of philosophical epistemology and cognitive psychology, *Epistemic Cognition and Development* provides a compelling account of developmental change across childhood and beyond in knowledge about knowledge, especially with regard to fundamental conceptions of objectivity, subjectivity, rationality, justification, and truth. This is followed by detailed consideration of domain-specific epistemologies of science, logic, morality, social convention, history, and identity, including associated forms of reasoning. The final section provides theoretical conclusions, educational and social applications, and suggestions for further research.

Claire, a glasswing butterfly whose transparent wings reflect her lush home, finds herself lost in the city after being separated from her family. She doesn't know how they will ever see her, but she finds new city friends, a pigeon, an ant, and a ladybug, who search for the flowers Claire needs to live. They come upon a tiny urban garden, and as Claire drinks from the flowers' nectar, she pollinates more flowers. Soon the garden—and Claire's clear wings—fill with color, allowing her family to recognize her at last. Together they create an oasis for all to enjoy. Facts about glasswing butterflies and pollination complete this beautiful and educational picture book. Kleven's latest offering is as colorful and delicate as a butterfly's wings—a treasure that can be cherished for years.

2013 ELit Bronze Medal Winner-*True Crime One Voice Raised: A Triumph Over Rape* "Look at me and I'll kill you" Early in the morning of August 21, 1988, an unknown assailant climbed onto the balcony to the open door of Jennifer Wheatley's home, crept down the stairs, entered her first floor bedroom, and waited for her in the dark. As he grabbed her and pulled something tight around her throat, Jennifer was sure her life was over. Assaulted and raped, Jennifer lived through every woman's worst nightmare. Having never seen her assailant's face, she was sure he would never be caught. She spent two decades wondering who and where he was, and when he would strike again.

Twenty years after the attack, through the dedication and tireless efforts of an investigator who refused to let her case go cold, a suspect was found. Jennifer writes about her ordeal and the years of waiting for justice with the candor and fortitude that helped her survive, and Chief Investigator David Cordle illuminates the process of assembling the puzzle pieces that led to the prosecution of one of his longest open cases.

----- Since publication of *One Voice Raised*, 2 more victims have been linked through DNA to serial rapist,

William Joseph Trice. *May 31, 1987 in Montgomery County, Maryland. *August, 1988 in Silver Springs, Maryland "It brings peace of mind to Trice's victims to know their attacker has been caught and convicted. The importance of entering cold-case evidence into the national data-base can not be stressed enough."

Amanda Harcourt had one scorching night of incredible sex with Conleth Maguire on a Galveston, Texas beach ten years ago. Then she 'd left Con for a career in New York City. She 's back in Galveston now as the interior designer for the weird and wacky Castle of Dark Dreams, a theme park attraction. Old memories surface when she finds out that Con has been hired to paint the castle. Because no matter what she tries to tell herself, she 's never forgotten him or the rose tattoo on his hip. Con remembers everything about Mandy, including the blue butterfly tattoo on her round little behind. And now that she 's back, he 's determined to make her realize what she abandoned so many years ago. Namely, him. He wants to paint the castle in darkly erotic colors. She 's into understated elegance. But they agree on one thing. Even grumpy wizards, telepathic cats, and voyeur plants won 't stop them from finishing what began on that beach.

After the collision claimed her mother's life and left her with a memory full of holes, Lilly Noble is sent

away to boarding school on the gloomy island of Raven's Landing, Maine. Though feeling exiled and abandoned by her father, she is determined to fill in the blanks the accident left in her mind. When she meets the hypnotically charming and strangely intense Murosky Skaggs, his unnatural curiosity and careful attentions toward her raise her suspicions. His stories don't add up. Lilly's search for the truth beneath his lies causes her life to take a thrilling and terrifying twist. What she doesn't realize is the closer she gets to revealing his dark secret, the closer she comes to regaining her memory and unmasking her mother's murderer. But something else, something far more sinister is lurking just off the coast. It's been there, waiting for her. Lilly's quest for answers puts her and those around her in mortal danger, and once she starts down that path, there is no turning away from her destiny, if she can survive. Young Adult Paranormal

The story behind Telemundo 's Jenni Rivera: Mariposa del Barrio series, now streaming. A New York Times bestseller, this is the official

biography from the beloved Mexican-American singer who lost her life in a tragic plane crash. The only autobiography authorized by Jenni Rivera "I can 't get caught up in the negative because that destroys you. Perhaps trying to move away from my problems and focus on the positive is the best I can do. I am a woman like any other, and ugly things happen to me like any other woman. The number of times I have fallen down is the number of times I have gotten up." These are the last words that beloved Mexican American singer Jenni Rivera spoke publicly before boarding the plane that would crash and cut her life short on December 9, 2012. However, they are not the final words that La Diva de la Banda had for the world. Those are found in the pages you hold in your hands, Jenni 's own account of the highs and lows of her extraordinary journey. She became the most acclaimed Spanish-language singer in the United States and sold more than 15 million records worldwide. A single mother of five and grandmother of two, she was also an actress, a television producer, the star of her own reality show, and an entrepreneur. But for all its immense success, Jenni 's life often seemed to be a series of personal battles in which perseverance was her only weapon. As her fame grew, she made it her mission to speak about her struggles, forging an intimate connection with her fans. She became a figure of strength and a source of encouragement to women of all ages. In Unbreakable, Jenni recounts the crucial moments in her past, revealing her experiences with domestic and sexual abuse, divorce, body image issues, making her way in a male-dominated industry, raising her children as a single mother, and learning that she could depend only on herself. Though she is no longer with us, Jenni will always be the "Rivera rebel from Long Beach," the girl who maintained her sense of humor and fighting spirit in every circumstance. In this remarkable memoir, Jenni leaves behind a legacy of inspiration and determination that will forever live on through her precious family, friends, and fans.

In Butterfly Biology Systems Roger Dennis explores key topics and contentious issues in butterfly biology, specifically those in life history and behaviour. Uniquely, using a systems approach, the book focuses on the degree of integration and feedback between components and elements affecting each issue, as well as the links between different issues. The book comprises four sections. The first two sections introduce the reader to principles and approaches for investigating complex relationships, and provide a

platform of knowledge on butterfly biology. The final two sections deal in turn with life history and behaviour, covering key issues affecting different stages of development from eggs to adults.
