"Color Vision" is an...

Founded in 2002 by Nobel

Laureate Carl Wieman, the PhET

Interactive Simulations project at

the University of Colorado Boulder creates free interactive math and science simulations. PhET sims are based on extensive education research and engage students through an intuitive, game-like environment where students learn through exploration and discovery.

Color Vision - Photons | Monochromatic Light - PhET PhET Interactive Simulations To help students engage in science and mathematics through inquiry, PhET simulations were developed to allow students to investigate cause-and-effect relationships and answer scientific questions through exploration of the simulation.

Solved: You Will Need To

Access The Simulation On Color Vi ...

Color Vision "Color Vision" is an educational simulation in HTML5, by PhET Interactive Simulations at the University of Colorado Boulder. For a description of this simulation, associated resources, and a link to the published version, visit the simulation's web page. Try it!
