Scouting for Boys Simon and Schuster

Illustrated Edition of 1959 in Facsimile. This is the first edition of one of the classic descriptions of wildcat cartridges, first published in 1949. Though revised and updated in 1962, this is Ackley's first effort at tackling the loading data, theory, and practice of

wildcat cartridges. A wildcat cartridge, often shortened to wildcat, is a custom cartridge for which ammunition and/or firearms are not mass-produced. These cartridges are often created in order to optimize a certain performance characteristic (such as the power, size, or efficiency) of an existing commercial cartridge. Developing and using wildcat cartridges does not generally serve a purpose in military or law enforcement; it is more a hobby for serious shooting, hunting, gunsmithing and handloading enthusiasts, particularly in the United States.

Excerpt from Boy Scouts of America: A Handbook of Woodcraft, Scouting, and Life-Craft My various papers on Woodcraft and Scouting, herein collected, appeared first, chiefly, in Forest and Stream, 1886 to 1893; St. Nicholas, 1887 to 1890; Scribner's, 1892 and 4; Century, 1900; The Ladies' Home Journal, 1902, 3, and 4, and in Country Life, 1903, 4, and 5. Acknowledgment is made to the editors of these magazines. The Woodcraft and Scouting movement that I aimed to foster began to take shape in America some ten years ago. Because the idealized Indian of Hiawatha has always stood as the model for outdoor life, woodcraft, and scouting, I called its brotherhood the "Woodcraft Indians." In 1904 I went to England to carry on the work there,

and, knowing General R. S. S. Baden-Powell as the chief advocate of scouting in the British Army, invited him to cooperate in making the movement popular. Accordingly, in 1908 he organized his Boy Scout movement, incorporating the principles of the Indians with other ethical features bearing on savings banks, fire drills, etc., as well as by giving it a partly military organization, and a carefully compiled and fascinating handbook. All of the last that is applicable in America has been included here, with due credit to General Sir Robert Baden-Powell, and combined with the Birch-Bark Roll. The present issue will constitute the Book of Organization. It will be followed by others, making a dictionary of Woodcraft, with descriptions of the common trees, herbs, flowers, etc., trailing or tracking, sign-language, bird-stuffing, emergency foods, first aid, lasso, boat-building, camp-fire songs and plays, and many other things that belong to camp and outdoor life. Not illustrated. 1917 edition. Excerpt: ... CHAPTER X BANDAGES AND CARRIES The postman recently brought us a letter from a scoutmaster whose troop has lately become famous for its good work in bandaging. We had written to him for advice, asking what his method of instruction was. Here is his letter: Dear Sirs: -- In reply to your recent

letter asking how I teach bandaging to my troop, I want to tell you an experience that we had last May. With twenty-four members of my troop and one assistant scoutmaster I was on a camping trip in the Black Hills. We had planned to follow what was said to be an old Indian trail and camp each day at the first good place we could find when the sun began to sink. On a Tuesday morning we started rather late to go through Calico Pass and down into the valley of Beaver Stream. Early in the afternoon we had reached the point of highest altitude--thirtyfive hundred feet according to our maps--when clouds swept down upon us and brought a cold rain that presently turned to sleet. We hurried along the trail in single file with heads bent low to the storm and in the course of half an hour descended below the tree-line and entered a scraggy growth of spruce. Still it rained, and we were facing the unpleasant prospect of pitching our pup-tents on the wet ground, when suddenly we rounded a ledge and came upon a log cabin half hidden in a dense growth of hemlocks. One of the boys gave a shout and we all rushed forward. The door was latched, but opened readily when

we pushed on the handle. Inside we found one long room with bunks ranged along the log walls, and a wide stone fireplace at the further end. Two windows--one in the middle of each long side-- gave sufficient light to reveal that the place was unoccupied and apparently had been in that condition for some..

Excerpt from Cooper's Cavalry Tactics, for the Use of Volunteers: To Which Is Added, a Manual for Colt's Revolver It is not to be expected that the militia or volunteer Cavalry are to be instructed in all the minutiae practiced by the regular Cavalry. It will be sufficient that every man learns the rudiments of Infantry formations, to act occasionally on foot, and to mount and dismount with ease, sit his horse naturally, and to have his stirrups sufficiently short to enable him to command his horse, and to rise in them to strike, when it may be necessary to use the sword or the lance. The manuvres are simple and easy to be learned. The sword exercise is reduced to very few motions. It has not been thought necessary to enter into all the cuts usually practiced by Cavalry in the attack and defense; it

is deemed sufficient that the militia or volunteer trooper should be able to draw and return his sword with agility, to pay the compliments with grace, and for the attack, to come to the preparatory, of "raise sword," and dash at his adversary with cut, or point, as may be most effectual in the charge against horse or foot.

Tomahawk Scout Field Manual Andesite Press "Scout' used to mean the one on watch for the rest. We have widened the word a little. We have made it fit the town as well as the wilderness and suited it to peace time instead of war. We have made the scout an expert in Life-craft as well as Wood-craft, for he is trained in the things of the heart as well as head and hand. Scouting we have made to cover riding, swimming, tramping, trailing, photography, first aid, camping, handicraft, loyalty, obedience, courtesy, thrift, courage, and kindness. Do these things appeal to you? Then, whether you be farm boy or shoe clerk, newsboy or millionaire's son, your place is in our ranks, for these are the thoughts in scouting; it will help you to do better work with

your pigs, your shoes, your papers, or your dollars; it will give you new pleasures in life; it will teach you so much of the outdoor world that you wish to know; and this Handbook, the work of many men, each a leader in his field, is their best effort to show you the way. This is, indeed, the book that I so longed for, in those far-off days when I wandered, heart hungry in the woods."
-Ernest Thompson Seton, Chief Scout "The Handbook for Boys" is filled page after page with age-old wisdom and practical advice ranging in topic from tent-pitching to wood crafting, camping to sailing, forestry to civic responsibility, and even etiquette. "The Forester's Manual" is the second part of the "Scout Manual," a series of instructional books written for the Boy Scouts of America by Ernest

Thompson Seton. This volume looks at the subject of forestry, concentrating on the identification of Eastern North America trees. "The Forester's Manual" will appeal to those with an interest in forestry and is not to be missed by collectors of vintage scouting literature. Ernest Thompson Seton (1860 - 1946) was an English author and wildlife artist who founded the Woodcraft Indians in 1902. He was also among the founding members of the Boy Scouts of America, established in 1910. He wrote profusely on this subject, the most notable of his scouting literature including "The Birch Bark Roll" and the "Boy Scout Handbook." Seton was also an early pioneer of animal fiction writing, and he is fondly remembered for his charming book "Wild Animals I Have Known" (1898). Other notable works by this author include: "Lobo, Rag and Vixen" (1899), "Two Little Savages" (1903), and "Animal Heroes" (1911). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author.

Colt Peacemaker Collector - Hand Book & Guide Createspace Independent Publishing Platform Scouting for Boys: A handbook for instruction in good citizenship is a book on Boy Scout training, published in various editions since 1908. Early editions were written and illustrated by Robert Baden-Powell with later editions being extensively rewritten by others. The book was originally a manual for self-instruction in observation, tracking and woodcraft skills as well as self-discipline and self-improvement, about the Empire and duty as citizens with an eclectic mix of anecdotes and unabashed personal observations and recollections. It is pervaded by a degree of moral proselytizing and references to the author's own exploits. It is based on his boyhood experiences, his experience with the Mafeking Cadet Corps during the Second Boer War at the Siege of Mafeking, and on his experimental camp on Brownsea Island, England.

Please note This is NOT the current edition of the BSA Handbook. It is a reprint of an historical edition of the BSA Handbook. For the first time, we are pleased to present this facsimile copy of the 1910 Original Edition of

the Boy Scouts of America Official Handbook! Written primarily by Ernest Thompson Seton, with sections added from Lieutenant General Sir Robert Baden-Powell's "Scouting for Boys" and "Aids to Scouting." The 1910 Original Edition is a milestone in the history of the Boy Scouts of America. Published only from July 1910 to March 1911, this short-lived BSA Handbook was cobbled together using material from Seton's earlier work "The Birch Bark Roll" and then fused with Baden-Powell's Boy Scouts concept. Always meant as a temporary handbook until a proper one could be written and published, the 1910 Original Edition is super interesting and contains a wealth of woodsman's lore and military scouting techniques and training which do not appear in later editions of the BSA Handbooks. Many experts consider this book to be quite a useful backwoods survival manual, and it definitely has appeal to the modern "classic camping" movement. The content of this edition is presented exactly as per the original, with the same page count, illustrations and table of contents. It's the original text exactly as it was presented in 1910 without some modern "expert" analysis or introduction. Today's reader can make up

their own mind by actually reading the book. A perfect gift for the classic camping enthusiast, old Eagle Scout or the young Indiana Jones in your life. With all original illustrations, this new paperback replica edition brings this exceptionally rare book to a 21st Century audience.
