channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Of all that has been written of the cowboy and the life of the cattle range, very little has been written by the principal actors themselves. The same is equally true of the famous government scouts, mail riders and other adventurous figures, who were men of deeds rather than words. Not many possessed, like David Crockett and W. F. Cody, the power to dramatize themselves. James H. Cook, the

author of *Fifty Years on the Old Frontier*, first published in 1923, was, however, a genuine cowboy, and he was able to recount in a most readable way his adventures over half a century. During the Seventies and part of the Eighties he rode the ranges in Texas and New Mexico. A vivid account is to be found in the first part of the book of the life of the cattlemen in the Southwest, including such details as rounding up entirely wild cattle and horses, and the conveying of droves of animals hundreds of miles through extremely rough, Indian-infested territory. Those who desire thrills can find them here. The author served as government scout in the campaign against Geronimo in 1885, and later, in the North, saw much of the unfortunate troubles with the Sioux and the Cheyennes, whom he showed to have been shamefully misused by the Bureau of Indian Affairs. Much space is given to the Sioux chief, Red Cloud, of whom Cook was a champion and faithful friend. Not the least entertaining parts of the book are the narratives of hunts after big game in the Rockies, during the years when Cook was one of the foremost guides and hunters of the regions bordering the one transcontinental railway. An invaluable addition to any Old West collection!
