Family therapist Monica McGoldrick explains how the use of genograms (family trees) can bring to light a family's history of estrangement, alliance, divorce, or suicide, revealing intergenerational patterns that prove more than coincidental. Genograms of famous families, such as the Kennedys, the Hepburns, and the Brontes, complement discussions

of the influence of birth order, sibling rivalry, family secrets, and couple relationships. Photos & drawings.

Bestselling author, pioneering photographer, mathematical don and writer of nonsense verse, Lewis Carroll remains a source of continuing fascination.

Though many have sought to understand this complex man he remains for many an enigma. Now leading international authority, Edward Wakeling, offers his unique appraisal of the man born Charles Dodgson but whom the world knows best as Lewis Carroll, author of *Alice's Adventures in Wonderland* and *Through the Looking-Glass*. This new biography of Carroll presents a fresh appraisal based upon his social circle. Contrary to the claims of many previous authors, Carroll's circle was not child centred: his correspondence was enormous, numbering almost 100,000 items at the time of his death, and included royalty and many of the leading artists, illustrators, publishers, academics, musicians and composers of the Victorian era. Edward Wakeling draws upon his personal database of nearly 6,000 letters,

mostly never before published, to fill the gaps left by earlier biographies and resolve some of the key myths that surround Lewis Carroll, such as his friendships with children and his drug-taking. Meticulously researched and based upon a lifetime's study of the man and his work, this important new work will be essential reading for scholars and admirers of one of the key authors of the Victorian age. *Dwight's Journal of Music* NYU Press

TO CATCH A KILLER, YOU HAVE TO THINK LIKE ONE

FBI agent Sophie Anderson has been trained to uncover the minds of serial killers, to understand their vile impulses and cravings—to catch them before they kill again. Newly relocated from Australia, Sophie is settling in to her job at Quantico with the help of her new friend, Agent Samantha Wright, and a potential new boyfriend, Agent Josh Marco, and is quickly becoming the FBI's star profiler. The only problem is the nightmares. These intense images are more than dreams. They are psychic visions, like those she experienced during childhood when her brother was abducted. When grisly details match recent crime scene photos, she confides in Sam, and her visions lead to several breakthroughs in the case. But when Sam is abducted, Sophie must finally trust her visions and use them. She may not have been able to save her brother, but perhaps she can save Sam—and herself.

"This book surveys the history of Latina and Latino depictions, narratives, and authorship in U.S. English-language television since the 1950s, with a focus on the navigations and impact of Latina/o series writers and creators as they have been able to enter the industrial landscape in recent decades. Based on archival research, interviews with dozens of media professionals who worked on or performed in these series, textual analysis of available episodes and promotional materials, and analysis of news media coverage, the chapters examine Latina/o representation in children's television Westerns in the 1950s, in Chicana/o and Puerto Rican activist-led public affairs series in the 1970s, in sitcoms from the 1970s through the 2010s, including many considered "failed,"

and in Latina and Latino-led series in the 2000s and 2010s on broadcast, cable, and streaming outlets, including George Lopez, Ugly Betty, One Day at a Time, and Vida. These series and their creators and writers are explored in relation to the social and political contexts of these junctures in U.S. and Latina/o history and to the evolving industry with respect to whether Latina/o creatives were allowed entrée and to the cultural climate for writers and other creative professionals working in television development and production. As such, it also highlights how television has been key to both the marginalization and to the incremental growth of Latina/o cultural citizenship in the United States, as well as how Latina/o creative professionals are gaining numbers and agency within the television industry and are continuing to push to be able to

produce and share their stories"--

An extraordinary retelling of the Baba Yaga myth, this debut novel will wrap itself around your heart and never let go. All 12-year-old Marinka wants is a friend. A real friend. Not like her house with chicken legs. Sure, the house can play games like tag and hide-and-seek, but Marinka longs for a human companion. Someone she can talk to and share secrets with. But that's tough when your grandmother is a Yaga, a guardian who guides the dead into the afterlife. It's even harder when you live in a house that wanders all over the world . . . carrying you with it. Even worse, Marinka is being trained to be a Yaga. That means no school, no parties -- and no playmates that stick around for more than a day. So when Marinka stumbles across the chance to make a real friend, she breaks all the rules . . . with

devastating consequences. Her beloved grandmother mysteriously disappears, and it's up to Marinka to find her -- even if it means making a dangerous journey to the afterlife. With a mix of whimsy, humor, and adventure, this debut novel will wrap itself around your heart and never let go.

Although Yanka is happy at

So when Yanka wakes up one morning to find her legs have become bear legs, she knows she has no choice but to leave her village. She has to find somewhere she truly belongs, so she ventures into the Snow Forest with her pet weasel, Mousetrap, in search of the truth about her past. But deep in the forest there are many dangers and Yanka discovers that even the most fantastic stories she grew up hearing are true. And just as she draws close to discovering who she really is, something terrifying happens that could trap her in the forest . . . forever.
