New to Microsoft Office 2016 or 2013? Upgrading from a previous version?
Designed with the busy professional in mind, this two-page quick reference guide provides step-by-step instructions in the shared, basic features of Microsoft Excel, Word and PowerPoint. When you need an answer fast, you will find it right at your fingertips. Simple and easy-to-use, quick reference guides are perfect for individuals, businesses and as supplemental training materials. With 28 topics covered, this guide is ideal for someone new to Microsoft Office or upgrading from a previous version.
MSC/NASTRAN Quick Reference Guide, Version 67 Mario Capurso
DEGLAMORIZATION: Alcohol abuse is inconsistent with Navy initiatives to promote

personal excellence among members. Alcohol abuse should not be promoted by the chain of command.
GENERAL RESPONSIBILITIES OF CO: Alcohol abuse information should be provided by a trained DAPA during indoctrination of newly reporting personnel. Command DAPA must screen all alcohol/drug-related cases brought to the attention of the command and forward to CAAC for evaluation and an appropriate determination of treatment. Document substantiated alcohol related incidents by page 13 entries; evals; fitreps and other reports DRUG AND ALCOHOL ABUSE REPORTS (DAARs) as required. Clearance eligibility incidents shall be referred to DONCAF. Review the status of members involved in alcohol abuse incidents and take appropriate disciplinary, remedial, educational and I or administrative action and make a final report to DONCAF. See ADMINISTRATIVE & DISCIPLINARY OPTION & Ensure that breathalyzer and I or field sobriety tests are conducted by base security when there is

reasonable suspicion of alcohol abuse. Additionally, institute a random gate inspection program. See **SEARCH AND SEIZURE**. Consult with medical and alcohol abuse program personnel when there is a suspected problem. Conduct screening for overseas assignment per transfers manual to ensure members with unresolved alcohol incidents are not considered for overseas duty. (Continued on next page).

Coast Guard Commander's Quick Reference Manual for Legal Issues Independently Published

Sample text: **NCIS REPORTING AND MILITARY JUSTICE INVESTIGATIONS**

REFERENCES: (a) MCM (RCM 303) (b) JAGMAN (Chapter II) (c) SECNAVINST 5430.107 (series) (d) SECNAVINST 1752.4A (series) (e) DODI 6495.02 **COMMAND**

INQUIRY: Suspected offenses may come to command attention in a variety of ways (e.g., shore patrol, civil law enforcement, or phone call, etc.)

The commanding officer (CO) must conduct some

form of inquiry into reported offenses that may be tried by court-martial per reference (a). The degree of inquiry will depend on the nature, validity, and seriousness of the complaint. See reference (b).

MANDATORY REFERRAL TO NCIS: Reference (c) mandates that certain incidents be referred to NCIS whether occurring on or off base and regardless of civilian investigation involvement.

These incidents include: Actual, suspected, or alleged major criminal offenses (punishable under the Uniform Code of Military Justice (UCMJ) by more than 1 year of confinement); Non-combat deaths when the cause of death is not medically attributable to disease or natural causes; Fires or explosions of unknown origin affecting Department of the Navy (DON) property or property under DON control; Theft or loss of ordnance or controlled substances; Disappearance of a command member; All instances of suspected fraud against the government within DON (e.g., theft of government property, bribery, false claims for pay,

etc.); actual or suspected acts of espionage, terrorism, sabotage, assassination, and actual, suspected, or attempted defection of DON personnel; Internal security incidents, such as loss, compromise, or suspected compromise of classified information and national security cases; and Suspected sex-related offenses as defined under Articles 120 and 125 of the UCMJ. WHEN NCIS DECLINES TO INVESTIGATE: NCIS may, at its discretion, decline to conduct or continue any investigation, but shall expeditiously inform the effected command. A command may then request assistance from the local base security department or appropriate authority or pursue a command investigation pursuant to reference (a).

Pro Git (Second Edition) is

your fully-updated guide to Git and its usage in the modern world. Git has come a long way since it was first developed by Linus Torvalds for Linux kernel development. It has taken the open source world by storm since its inception in 2005, and this book teaches you how to use it like a pro. Effective and well-implemented version control is a necessity for successful web projects, whether large or small. With this book you'll learn how to master the world of distributed version workflow, use the distributed features of Git to the full, and extend Git to meet your every need. Written

by Git pros Scott Chacon and Ben Straub, *Pro Git (Second Edition)* builds on the hugely successful first edition, and is now fully updated for Git version 2.0, as well as including an indispensable chapter on GitHub. It's the best book for all your Git needs.

Data Science Quick Reference Manual – Methodological Aspects, Data Acquisition, Management and Cleaning TeachUcomp Inc.

The text deepens the knowledge on the command line; it is accompanied by eloquent explanations, practical examples and useful tips. With great clarity and extreme simplicity, the

author shows how to master the command prompt both to technical support professionals and to users who want to keep the PC in perfect shape. It is not necessary to be a mechanical engineer to drive a car well, but you need to have practice. You don't even need to have a degree in computer science to use the command prompt well, and this book directs you the right way.

Versatile and easy to use, this reference provides you with complete listings and syntax for all Java functions.

A Commander's Quick Reference Manual for Legal Issues Mario Capurso

This work follows the 2021 curriculum of the Association for Computing Machinery for

specialists in Data Sciences, with the aim of producing a manual that collects notions in a simplified form, facilitating a personal training path starting from specialized skills in Computer Science or Mathematics or Statistics. It has a bibliography with links to quality material but freely usable for your own training and contextual practical exercises. Second of a series of books, it covers methodological aspects, analysis and visualization. It describes the CRISP DM methodology, the working phases, the success criteria, the languages and the environments that can be used, the application libraries. Since this book uses Orange for the application aspects, its installation and widgets are described. In visualization, historical notes are made, and next the book describes the characteristics of an effective visualization, the types of messages that can be conveyed, the Grammar of Graphics, the use of a graph and a

dashboard, the software and libraries that can be used, the role and use of color. 55 types of graphs are then analyzed, reporting meaning, use, examples and visual dimensions also with a vocabulary of graphs and summary tables. Examples are given in Orange and the possible use of Python with Orange is explained. Visualization-based inference is discussed, exploratory and confirmatory analysis is defined and techniques are reported. The book is accompanied by supporting material and it is possible to download the project samples in Orange and sample data.

Manuals Combined: USN/USMC Commander's Quick Reference Legal Handbook 2015, 2012 and 2009 Editions And The USMC Senior Enlisted Leader Smart Packet (2016) Independently Published

This work follows the 2021 curriculum of

the Association for Computing Machinery for specialists in Data Sciences, with the aim of producing a manual that collects notions in a simplified form, facilitating a personal training path starting from specialized skills in Computer Science or Mathematics or Statistics. It has a bibliography with links to quality material but freely usable for your own training and contextual practical exercises. Part of a series of books, it first summarizes the standard CRISP DM working methodology used in this work and in Data Science projects. Since this text uses Orange for the application aspects, it describes its installation and widgets. Then it considers the concept of model, its life cycle and the relationship with measures and metrics. The data modeling phase is considered

from the point of view of machine learning by deepening the types of machine learning, the types of models, the types of problems and the types of algorithms. After considering the ideal characteristics of models and algorithms, a vocabulary of the types of models and algorithms is compiled and their use in Orange is considered through two supervised and unsupervised projects respectively. The text is accompanied by supporting material and you can download the samples in Orange and the test data.

Quick Reference Guide for the National Response Plan Mario A.B. Capurso

As an illustrated quick reference guide, each page offers clear and direct information on a single command or function of AutoCAD for a quick application to assignments ranging from tutorials to full-blown projects.

When Microsoft introduced Windows, the command line gradually fell into oblivion...! So why use an anachronistic system, when everything you need is

available in a graphical environment? The problem is that the graphical interface does not provide all the features available on the system. This book guides you to rediscover that world you access through a black window, well hidden but always present in all versions of Windows. Some say that the command line is the fastest operating system on earth, and actually when you run a command, execution times are really fast.

Windows 10 at the Command-line Part III
