"The main objective of developing the UN/DESA Compendium of Innovative E-government Practices as an ongoing project is to create a venue for promoting innovative e-government solutions, services and products developed and yet to be developed by governments. The Compendium also enables South- South and North-South information-sharing of their respective experiences and innovative practices. In both cases, the focus is on hastening innovation and creating public value for the citizenry."--Provided by publisher.

The world ' s best-selling textbook on book-keeping and accounting, Business Accounting Volume 1 continues to provide an indispensable introduction for students and professionals across the globe. It is renowned for clarity, with easy-to-understand language and a plethora of examples to aid your understanding. The 12th edition is updated to be fully compliant with International Financial Reporting Standards (IFRS). Other updates include new coverage of professional ethics, disaster recovery, and over 70 new examples to test your understanding. ' A benchmark for all accounting books. ' Sarah Knight, former Finance Courses Coordinator, Huntingdonshire Regional College ' The writing style of the book is ' ' spot-on ' ' and just the right tone – well done! I consider all chapters to be at the appropriate level, very practical and structured in manageable ' ' bite-sized ' ' chunks. ' Alison Fox, Lecturer, University of Dundee This title can be supported by MyAccountingLab, an online homework and tutorial system designed to test and build your students understanding. MyAccountingLab provides a personalised approach, with instant feedback and numerous additional resources to support their learning. For students · A personalised study plan · Worked solutions showing them how to solve difficult problems · An eText for quick reference · Case studies to help them apply what they ' ve learned · Audio animations and videos Use the power of MyAccountingLab to accelerate your students learning.

[Biology Matters](#) Palgrave Macmillan China's influence in the South Pacific is growing rapidly. What are the main driving forces behind China's policy toward the region? Should the West be concerned? Why are there so many myths, misperceptions, and unsubstantiated assertions about China's growing influence? Where does discussion of China's presence in the South Pacific fit in the broader debate on China? This book--the first single-authored book on Chinese policy toward the South Pacific--answers these questions. It examines Chinese engagement with the region in the context of China's grand strategy, drawing on extensive Chinese sources and interviews with policymakers and community leaders.

This report discusses how Sri Lanka can prepare for the challenges of an aging population. By 2050, Sri Lanka will go through an unprecedented demographic transition into an aging population at a lower level of per capita income than other aging economies. This publication analyzes the living arrangements and incomes of the over-60s in Sri Lanka, and patterns and trends of aging. It identifies the challenges the country is likely to face and suggests how policy makers can tackle them.

A detailed look at the technology of wind generated power includes a comparison of various system designs, advice on assembling a wind power system, and an analysis of wind power availability in each state *British Books in Print* Springer

In this comprehensive guide to creating an e-commerce Web site using PHP and MySQL, renowned author Larry Ullman walks you through every step—designing the visual interface, creating the database, presenting content, generating an online catalog, managing the shopping cart, handling the order and the payment process, and fulfilling the order—always with security and best practices emphasized along the way. Even if you're an experienced Web developer, you're guaranteed to learn something new. The book uses two e-commerce site examples—one based on selling physical products that require shipping and delayed payment, and another that sells non-physical products to be purchased and delivered instantly—so you see the widest possible range of e-commerce scenarios. In 11 engaging, easy-to-follow chapters, Effortless E-Commerce with PHP and MySQL teaches you how to:

- Think of the customer first, in order to maximize sales
- Create a safe server environment and database
- Use secure transactions and prevent common vulnerabilities
- Incorporate different payment gateways
- Design scalable sites that are easy to maintain
- Build administrative interfaces
- Extend both examples to match the needs of your own sites

Larry Ullman is the president of Digital Media and Communications Insights, Inc., a firm specializing in information technology (www.dmcinsights.com). He is the author of several bestselling programming and Web development books, including PHP and MySQL for Dynamic Web Sites: Visual QuickPro Guide. Larry also writes articles on these subjects and teaches them in small and large group settings. Despite working with computers, programming languages, databases, and such since the early 1980s, Larry still claims he's not a computer geek (but he admits he can speak their language).

Ordinary Level Physics Foundation Books An improved understanding of the interactions between nanoparticles and plant retorts, including their uptake, localization, and activity, could revolutionize crop production through increased disease resistance, nutrient utilization, and crop yield. This may further impact other agricultural and industrial processes that are based on plant crops. This two-volume book analyses the key processes involved in the nanoparticle delivery to plants and details the interactions between plants and nanomaterials. Potential plant nanotechnology applications for enhanced nutrient uptake, increased crop productivity and plant disease management are evaluated with careful consideration regarding safe use, social acceptance and ecological impact of these technologies. Plant Nanobionics: Volume 1, Advances in the Understanding of Nanomaterials Research and Applications begins the

discussion of nanotechnology applications in plants with the characterization and nanosynthesis of various microbes and covers the mechanisms and etiology of nanostructure function in microbial cells. It focuses on the potential alteration of plant production systems through the controlled release of agrochemicals and targeted delivery of biomolecules. Industrial and medical applications are included. Volume 2 continues this discussion with a focus on biosynthesis and toxicity. *Growing Old Before Becoming Rich* Pearson Education Cambridge IGCSE® Business Studies Revision Guide helps students apply their knowledge, understanding and skills to succeed in their course. Cambridge International AS and A Level Literature in English Coursebook Cambridge University Press

SUMMARY: Recommendations on the teaching of mathematics in primary & secondary schools in England & Wales, with particular regard to the mathematics required in further & higher education, employment & adult life generally. [Grade 7, Student Book 5-Pack](#) Lulu Press, Inc This important new anthology - prepared by a leading business historian - presents the outstanding contributions on the history of US, British, Continental European and Japanese multinational corporations and constitutes an introduction to the subject. The first part has four survey articles showing the origins of the multinational enterprise in the late 19th century and the subsequent developments. It then presents pioneer studies and offers a range of new perspectives on the history of multinationals. The final parts of the book contain case studies as well as articles on the history of the operations of multinational enterprises in such host countries as Britain, China, Japan and Poland. This authoritative volume provides an indispensable guide to the state-of-the-art research on the history of multinationals.
