Cultural economics is the branch of economics that studies the relation of culture to economic  
outcomes. Here, 'culture' is defined by shared beliefs and preferences of respective groups.

Programmatic issues include whether and how much culture matters as to economic outcomes  
and what its relation is to institutions. As a growing field in behavioral economics, the role of  
culture in economic ...

Interpersonal communication is an exchange of information between two or more people. It is also an area of  
research that seeks to understand how humans use verbal and nonverbal cues to accomplish a number of personal  
and relational goals. Interpersonal communication research addresses at least six categories of inquiry: 1) how  
humans adjust and adapt their verbal communication and nonverbal ...
