Wiley CPA Exam Review 2012, Business Environment and Concepts Abhishek Publications

This book provides rapid revision for MRCP candidates preparing for the commonly overlooked 'Ethics and Communication Skills' section of the Practical Assessment of Clinical Examination Skills (PACES) exam. It assists you in developing an understanding of ethical issues and enhances your ability to communicate effectively with patients, their relatives and your colleagues. MRCP PACES Ethics and Communication Skills is concise and well presented for easy study and reference - perfect for breezing through revision.

Building Better Ideas Lippincott Williams & Wilkins

"This book is easy to read and has relevant content for student midwives, with inclusion of reflective activities which are clear and appropriate. I particularly like the vignette's which are relevant and explore the challenges that midwives face. The script-like format of these adds a further layer to the narratives, and the inclusion of non-verbal communication as well is excellent. This will be an essential text for all student midwives." Mary Beadle, Midwifery Lecturer, Faculty of Health and Social Care, University of Hull, UK "Communication Skills for Midwives is a unique book that focuses not only on fundamental communication issues, but goes much further by including the many difficult and tricky issues experienced within contemporary midwifery practice. This much needed text provides detailed and comprehensive information which is reinforced by illustrations, vignettes and activities that engage the reader from the beginning. This is an excellent resource for students, practitioners and educators." Nicky Clark, Lead Midwife for Education, University of Hull, UK "This book covers many poignant examples of difficult and challenging communication that midwives face in everyday practice ... It covers both every day aspects of care such as facilitating choice and less common experiences like responding to domestic violence ... This book is unique and would be good bedtime reading for any midwife!" Tandy Deane-Grey, Senior Midwifery Lecturer, University of Hertfordshire, UK "This comprehensive and reader friendly text ... utilises a variety of strategies to aid understanding and application to practice. Each chapter has clear aims to address a challenging situation that readers will readily identify with and provides an excellent mix of vignettes, reflective activities, text and diagrams to support the development of knowledge and skills..." Heather Passmore, Senior Lecturer, UCS, UK This is the first book on communication skills to explore the more challenging contexts and circumstances that midwives encounter in practice. As these occur infrequently and often unexpectedly in the daily practice of many midwives, they may find it difficult to communicate effectively to alleviate the situation. Knowing what to say and how to say it is part of this dilemma. The book uses case vignettes, reflective questions, illustrations, tools and techniques to provide the evidence base needed to cope effectively in a range of situations by offering support to enhance your communication skills. Communication Skills for Midwives explores challenges relating to: Negotiating with others within inter-professional and inter-agency teams Working with minority groups Breaking significant news when labour threatens the life of a baby Telling parents that their baby has an abnormality Coping with loss and bereavement Addressing issues of domestic abuse Importantly the book provides information on how thoughts and feelings may be expressed both through body language and in words. Taking a practical and problem solving approach, the book will help you to enhance your learning and improve interaction with your colleagues, the women you care for and their families.

It will enable general practitioners nurses therapists and practice managers to design and apply personal development plans as individuals and as multidisciplinary practice teams.

New Rudman's Questions and Answers on the NTE Core Battery Examination in Communication Skills (written English Expression) BRILL

Why do teams settle for bad ideas or kill good ones? Popular consultant B. Kim Barnes's unique process of constructive debate shows how teams can create better ideas and outcomes by eliminating obstacles to honest discussion, creativity, and collaboration. In too many organizations, great ideas and unusual solutions can be suppressed, ignored, or attacked. Departments defend their turf, and people choose what is safe over what is better. Bad ideas move forward and good ideas die, which can lead to disastrous results—financial or otherwise. Luckily, there is a workable path out of this dysfunction. Kim Barnes's process of constructive debate shows how to establish

conditions that encourage the free exchange, discussion, and development of ideas and eliminate conditions that prevent potentially useful ideas from getting heard. By using this tested model, any company or team can improve outcomes and bring out everyone's best ideas. A constructive debate is one in which a diverse group of individuals can express their ideas, engage others in building on and improving them, explore ideas deeply, and challenge one another's positions in a fair and productive way. In this book, you'll learn a set of behaviors you can model and encourage and a process you can facilitate, lead, or support your client in leading. In this time, where opinions can be tribal and differences can lead to unconstructive conflict, it's important to find ways to build robust ideas through a thoughtful, fair, and inclusive approach.

Wiley CPA Examination Review, Outlines and Study Guides Oxford University Press
Communication Skills in Pharmacy Practice helps pharmacy and pharmacy technician students learn the principles, skills, and practices that are the foundation for clear communication and the essential development of trust with future patients. This text's logical organization guides students from theory and basic principles to practical skills development to the application of those skills in everyday encounters. Sample dialogues show students how to effectively communicate, and practical exercises fine tune their communication skills in dealing with a variety of sensitive situations that arise in pharmacy practice.

The MRCPCH Clinical Exam Made Simple PasTest Ltd

The history taking and communication skill stations are amongst the most difficult postgraduate examinations, where candidates more commonly fail due to an inability to communicate properly with the patient, rather than due to lack of knowledge. Authored by experienced postgraduate examiners, this book offers students a wealth of real-life scenarios in multi-conversational styles, using a seven-step approach to help them understand the questions and provide clear and succinct answers. The scenarios are similar to those most frequently encountered in examinations and the model answers are in a typical style expected between doctor and patient, also taking into account candidates for whom English may not be their first language. The comprehensive text is enhanced by illustrations and figures to assist learning and will be useful not only to candidates preparing for postgraduate clinical examinations, but also to undergraduate students. Key points Provides real-life, conversational-style scenarios between doctor and patient to help students prepare for postgraduate history taking and communication skill examinations Uses a seven-step approach to help postgraduates understand questions and provide clear and succinct answers Scenarios typical of those used in examinations Authored by experienced postgraduate examiners
