Whether you have a teen who is struggling with exam pressure, a young adult who hasn ' t settled into university life or you are curious about what lies ahead for your younger child, How to Grow a Grown Up will help you to build your child's confidence and resilience - so they can become a strong, happy and independent adult. We ' re fast approaching the 3rd decade of the 21st century and it ' s a very different world from the one in which parents (and teachers) grew up in. Challenging issues have come together – including cyber bullying, ' always-on ' culture and ever

increasing pressure to do well – to create a perfect storm. The result is that teenagers and young adults are now less prepared for a more challenging world – and if they don ' t develop the skills they need to help them thrive they can become easy prey to mental health problems. In this book Dr Dominique Thompson, the UK ' s leading GP on student mental health and educational expert Fabienne Vailles, reveal what exactly parents need to do to help teenagers and young adults in this new world – and how to manage problems along the way. It includes: *An overview of the pressures and problems facing this generation of young people - why are they increasingly stressed, anxious or suffering from mental health issues *What exactly parents can do to help their teens and young adults become healthily independent, navigate challenges and flourish in preparation for adult life *How pastoral care at universities and workplaces is changing, and what a parent ' s role could and should be *Ways to recognise the signs of mental health distress and what to do about it, particularly dealing with problems from a distance

Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic: they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study.

IGNOU MCA Professional Skills and Ethics Previous Year Unsolved Papers Disha Publications

This scholarly book explores the latest education research on metacognition and self-directed learning, providing practical insights for educators and students. As the thirteenth volume in the NWU Self-Directed Learning Series, it focuses on developing metacognitive skills to enhance self-regulation, motivation, and independent thinking – key competencies for success in the 21st century. Metacognition plays a vital role in learning, helping students plan, evaluate, and self-assess their progress. Research shows that students with strong metacognitive strategies achieve better learning outcomes, apply knowledge effectively, and persist through academic challenges. This book offers evidence-based teaching strategies to support the development of self-regulated learning and motivation in diverse educational settings. It examines teaching behaviour and instructional methods that foster metacognitive growth in both basic and higher education. With a particular focus on the South African education landscape, it extends research in cognitive, developmental, and applied psychology. Researchers and educators will find practical approaches for integrating metacognition into various disciplines, making this book a valuable resource for both undergraduate and graduate education programmes.
