Owls, Synchronicity and the UFO Abductee Penguin
Now in paperback, the bestselling author of Communion revisits his groundbreaking work on alien abduction to explore the ultimate meaning behind today's increasing reports of UFO sightings, close encounters, alien implants, crop circles, animal mutilations - and what it means for our near-future. In 1987 writer Whitley Strieber exposed the world to the truth about alien abduction in his landmark memoir, Communion. For the first time in years, Strieber revisits his encounter with alien intelligences-but now dramatically widens his search to explore how "the visitors" connect with today's persistent and globe-spanning reports of anomalous phenomena, such as crop circles, cattle mutilations, UFO sightings, alien abductions, near-death experiences, close encounters, and unexplained bodily implants. In his magisterial style, Strieber contextualizes these bizarre and unsettling reports with his own childhood memories of strange schools, sinister experiments, and family secrets. In exploring today's most convincing cases of unexplained phenomena, Strieber reasons that they are not unrelated events. Nor are they the result of mass delusion. In some of his most persuasive writing, Strieber argues that the wave of mysterious episodes marks a transition that humanity is undergoing right now. Against all conscious understanding, we are experiencing a broadened awareness of dimensions of reality that exist beyond our current perceptions.

Without question, this is a classic by one of the most exciting new authors in the UFO field today. After reading it, your view of reality will never be the same. The owl has held a place of reverence and mystique throughout history. And as strange as this might seem, owls are also showing up in conjunction with the UFO experience. Mike Clelland has collected a wealth of first-hand accounts in which owls manifest in the highly charged moments that surround alien contact. There is a strangeness to these accounts that defy simple explanations. This book explores implications that go far beyond what more conservative researchers would dare consider. But the owl connection encompasses more than the UFO experience. It also includes profound synchronicities, ancient archetypes, dreams, shamanistic experiences, personal transformation, and death. From the mythic legends of our ancient past to the first-hand accounts of the UFO abductee, owls are playing some vital role. This is also a deeply personal story. It is an odyssey of self-discovery as the author grapples with his own owl and UFO encounters. What plays out is a story of transformation with the

owl at the heart of this journey.

Nature's End Tor Books

It is time for the truth to be told... On July 2, 1947 something crashed in the desert outside of Roswell, New Mexico. An explosion of light and sound made the sheep wail, the chickens squawk, and the children scream. And then the ranchers heard a noise they thought could only have come from the devil himself. For forty years, Majestic Agency director Wilfred Stone helped the CIA pretend the landing never happened. Then his conscience got the better of him. This is the real story, told to reporter Nicholas A. Duke by the guilt-racked shell of the man who once worked tirelessly to cover it all up. It is a truth so terrifying that Whitley Strieber had to call it fiction. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The True Story of a Close Encounter of the Fourth Kind Harper Collins

The Believer is the weird and chilling true story of Dr. John Mack. This eminent Harvard psychiatrist and Pulitzer Prize-winning biographer risked his career to investigate the phenomenon of human encounters with aliens and to give credibility to the stupefying tales shared by people who were utterly convinced they had happened. Nothing in Mack's four decades of psychiatry had prepared him for the otherworldly accounts of a cross-section of humanity including young children who reported being taken against their wills by alien beings. Over the course of his career his interest in alien abduction grew from curiosity to wonder, ultimately developing into a limitless, unwavering passion. Based on exclusive access to Mack's archives, journals, and psychiatric notes and interviews with his family and closest associates, The Believer reveals the life and work of a man who explored the deepest of scientific conundrums and further leads us to the hidden dimensions and alternate realities that captivated Mack until the end of his life.

Last Vampire 2 Bantam Books

One quiet spring evening, the animals of the north woods see a great light mushroom up from the human territories. Most ignore it, but Wolf of Shadows, sitting alone on his hill, knows that something is very wrong. The next day dark clouds block out the sun, and an icy black rain comes, washing away the smells of all living things. It gets colder, then colder still. Nuclear winter has begun. As sleet changes to snow in wolf country, a desperate human mother and her daughter appear and join Wolf of Shadows as he leads his pack south. This is the story of their journey through the desolate, frozen wasteland that was once the United States. Always near freezing and starvation, threatened by savage dog packs and marauding humans, the wolves and the two women soon come to depend on one another for survival. Strieber masterfully captures how the wolf interprets the actions of the adopted humans and compares them to the feelings and actions of wolves. As their journey progresses, an unspoken but deeply felt love grows between them. This alone sustains them in their search for a place where life can be reborn. "Wolf of Shadows" is a bold and brutal novel, a compelling tale of survival in the wild, and a unique vision told from the viewpoint of a wolf of the horrors we may bring to every living creature on earth.

Hybrids Beyond Words

This real-life The X-Files and Close Encounters of the Third Kind tells the true story of a computer programmer who tracks paranormal events along a 3,000-mile stretch through the heart of America and is drawn deeper and deeper into a vast conspiracy. Like "Agent Mulder" of The X-Files, computer programmer and sheriff's deputy Zukowski is obsessed with tracking down UFO reports in Colorado. He would take the family with him on weekend trips to look for evidence of aliens. But this innocent hobby takes on a sinister urgency when Zukowski learns of mutilated livestock, and sees the bodies of dead horses and cattle—whose exsanguination is inexplicable by any known human or animal means. Along an expanse of land stretching across the southern borders of Utah, Colorado, and Kansas, Zukowski discovers multiple bizarre incidences of mutilations, and suddenly realizes that they cluster around the 37th Parallel or "UFO Highway." So begins an extraordinary and fascinating journey from El Paso and Rush, Colorado, to a mysterious space studies company and MUFON, from Roswell and Area 51 to the Pentagon and beyond; to underground secret military caverns and Indian sacred sites; beneath strange,

unexplained lights in the sky and into corporations that obstruct and try to take over investigations. Inspiring and terrifying, this true story will keep you up at night, staring at the sky, and wondering if we really are alone...and what could happen next.

The Key Penguin

From the bestselling author of Communion comes the mysterious true story of how an unknown visitor barged into Strieber's hotel room late one night—and imparted extraordinary lessons in personal development and man's fate that challenge us to rethink every assumption about the meaning of life. At two-thirty in the morning of June 6, 1998, Whitley Strieber was awakened by somebody knocking on his hotel room door. A man came in, and everything he said was life-altering. This is the unsettling and ultimately enlightening narrative of what happened that night. Strieber was never really sure who this strange and knowing visitor was—a "Master of Wisdom"? A figure from a different realm of consciousness? A preternaturally intelligent being? He called him the Master of the Key. The one thing of which Strieber was certain is that both the man and the encounter were real. The main concern of the Master of the Key is to save each of us from self-imprisonment. "Mankind is trapped," the stranger tells Strieber. "I want to help you spring the trap." In a sweeping exchange between Strieber and the stranger—which takes the form of a classical student-teacher dialogue in pursuit of inner understanding—the unknown man presents a lesson in human potential, esoteric psychology, and man's fate. He illuminates why man has been caught in a cycle of repeat violence and self-destruction—and the slender, but very real, possibility for release. In its breadth and intimacy, The Key is on par with contemporary metaphysical traditions, such as A Course in Miracles, or even with the dialogues of modern wisdom teachers, such as D.T. Suzuki and Carl Jung.

How-and why- were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post-Cold War period? In this ground-breaking book, David G. Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge, and thus became part of a shared vocabulary. Through historical and ethnographic case studies of three prominent figures—novelist and abductee Whitley Strieber; environmentalist and reptilian proponent David Icke; and David Wilcock, alleged reincarnation of Edgar Cayce—the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive—it was prevented from arriving by malevolent, hidden others. Yet millennial conspiracism constructs a counter-elite, a gnostic third party defined by their special knowledge. An overview of the development of UFO subcultures from the perspective of religious studies, UFOs, Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion.

The Afterlife Revolution Communion A True Story

An award-winning journalist investigates a story largely ignored by mainstream media but right there, in front of our eyes ... UFOs, UAPs, flying cigars, extraordinary new technologies ... Are we not alone? Award-winning investigative journalist Ross Coulthart has been intrigued by UFOs since mysterious glowing lights were reported near New Zealand's Kaikoura mountains when he was a teenager. The 1978 sighting is just one of thousands since the 1940s, and yet research into UFOs is still seen as the realm of crackpots and conspiracy theorists. In 2020, however, after decades of denial, the US Department of Defence made the astonishing admission that strange aerial and underwater objects frequently reported and videoed by pilots and tracked by sensors are real, unexplained, and pose a genuine national security concern. Compelled to investigate, Coulthart has embarked on what's become the most confronting and challenging story of his career, speaking to witnesses, researchers, scientists, spies and defence and intelligence officials and insiders. What he has found suggests that the world is on the cusp of extraordinary technological breakthroughs and cultural revelations. Bizarre, sometimes mind-blowing and utterly fascinating, In Plain Sight tells a story that's largely escaped the radar of mainstream media coverage but has been there all along. Now it's time to observe what's in front of our eyes.

The Next Step Penguin

In September of 2015 the visitors in Whitley Strieber's immortal bestseller Communion returned to his life. A New World details their powerful message: A new world is coming...if we can take it. In 2018, the US Navy admitted that videos taken off the carrier Nimitz by pilots using ultra-sophisticated cameras were of unknown objects with incredible flight characteristics. Add to this the past seventy years of UFO evidence, and it is now undeniable that something unknown is flying around in our skies. But why are they here? There are millions of close encounter witnesses who would say that they are here for us, and have already been in contact with us for two generations, while the official world and the media have been in denial. In 1987, author Whitley Strieber published Communion about his own close encounter. It was met with brutal skepticism...but not from other close encounter witnesses, who wrote him in the hundreds of thousands, telling of their own experiences. With these overwhelming accounts of alien encounters, Rice University in Houston, Texas, has

archived these letters as a testimony that we are not alone. After thirty-three years of having them in his life, and an entirely new group of encounters starting in 2015, Whitley Strieber returns with a new vision of contact that will shatter all of our previous theories and beliefs and reveal the experience for what it is: the strangest, most powerful, and potentially most important thing that has ever happened to mankind.
