Examining a range of Coleridge's writings, this book uses recent scientific research to understand how we have evolved to make mental representations of the counterfactual, how such transformative essays in Imagination have enabled humans to survive, to prosper and to express themselves in the sciences, the arts and particularly in poetry.

West is a high school senior who has everything going for him until an accident leaves him paralyzed. Strapped down in his hospital bed, slipping in and out of consciousness, West is terrified and alone. Until he meets Olivia. She's the girl next door-sort of. A patient in the room next to his, only Olivia can tell what West is thinking, and only Olivia seems to know that the terrible dreams he's been having are not just a result of his medication. Yet as West comes to rely on Olivia-to love her, even-certain questions pull at him: Why has Olivia been in the hospital for so long? And what does it mean that she is at the center of his nightmares? But the biggest question of all comes when West begins to recover and learns that the mysterious girl he's fallen in love with has a secret he could never have seen coming.

Will Momma Peach become lost in the whispering halls of a cursed manor? Or will she manage, with the help of Michelle and Sam, to capture a series of killers who all want one thing: money? All Momma Peach wants to do is bake her some peach pies. Yes sir and yes ma'am. But when a mysterious woman shows up asking for her help, Momma Peach knows that her hope of baking peach pies has come to an end. Traveling to a remote North Georgia manor located deep in the mountains, she, Michelle, and Sam become trapped in a deadly mystery filled with a whole bunch of "Unseen People" that are determined to either kill her or drive her insane. To make matters worse, the mysterious woman who asked for Momma Peach's help is the daughter of an eccentric man whom Momma Peach despises. Then, to add fuel to the fire, the man falls in love with Momma Peach and begs her to marry him. But Momma Peach doesn't have time to fool around with some turkey. No sir and no ma'am. She has a mystery to solve and killers to catch-a whole bunch of killers, in fact, who trap her in the spooky manor with no way out. When your life is built around a father's wrath, how can you trust in the love of Father God? Mercy Roller knows her name is a lie: there has never been any mercy in her young life. Raised by a twisted and abusive father who called himself the Pastor, she was abandoned by the church community that should have stood together to protect her from his evil. Her mother, consumed by her own fear and hate, won't stand her ground to save Mercy either. The Pastor has robbed Mercy of innocence and love, a husband and her child. Not a single person seems capable of standing up to the Pastor's unrestrained evil. So Mercy takes matters into her own hands. Her heart was hardened to love long before she took on the role of judge, jury, and executioner of the Pastor. She just didn't realize the retribution she thought would save her, might turn her into the very thing she hated most. Sent away by her angry and grieving mother, Mercy's path is unclear until she meets a young preacher headed to counsel a pregnant couple. Sure that her calling is to protect the family, Mercy is drawn into a different life on the other side of the mountain where she slowly discovers true righteousness has nothing evil about it—and that there might be room for her own stained and shattered soul to find shelter. . . and even love. Mercy's Rain is a remarkable historical novel set in 19th century Appalachia that traces the thorny path from bitterness to forgiveness and reveals the victory and strength that comes from simple faith.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors. Stacy Alaimo, Amy Braun, Irus Braverman, Holly Jean Buck, Jennifer L. Gaynor, Stefan Helmreich, Elizabeth R. Johnson, Stephanie Jones, Zsafia Korosy, Berit Kristoffersen, Jessica Lehman, Astrida Neimanis, Susan Reid, Alison Rieser, Katherine G. Sammler, Astrid Schrader, Kristen L. Shake, Phil Steinberg

Complete Tracker Geronimo Stilton

He can't seem to shake the memory. From the top floor of his office building, he stands in the window and looks out over his domain, one of the cities that never sleeps in the north. His mind is drawn to a simple uncluttered encounter. It was just a brief moment, a second or two at most, but the scene has stuck in his mind for over 15 years. Miles away in a much smaller town filled with muddy dirt roads, on the outskirts of a place called the 'Shanty Town', Mrs. Craft remembers a person she happened to meet purely by accident at the train station's taxi turnabout. She didn't befriend the man and barely said thank you as he held the taxi door for her to take possession. But as he held the door, there was an undeniable sensation that he'd see her again. He was leaving town, she was trapped in it. The image of the young lady has haunted the man in the window hundreds of miles away in a world unfamiliar with 'The Shanties,' its collection of shacks, and one of its inhabitants. Caught in a web of deceit, the man who's fallen for the woman in the city, must follow the family traditions. His inheritance is controlled by the Matriarch who holds the purse strings to an historic southern family. The family has survived many trials and tribulations and it will survive another. The social circles are ablaze with the antics of at least one of the Farrington men, but only one holds the secret to their questionable future. For Sophia who has remade her world after expelled from the only world she'd ever known, lives with her girls in a place named Shanty Town. Under the majestic sprawling Oak trees, often called the umbrellas, a tale is spun that will invite the reader into a world that lacks luster, a dismal life brought on by the swipe of a pen. Dan R. Fowler's first Romance novel spins a tale of a hopeless dreamer imprisoned under the umbrellas of Alabama Rip Van Goofy Springer Science & Business Media

An infant left in the trash to die. A teenage mother who never knew she was pregnant . . . Before That Morning, these were the words most often used to describe straight-A student and star soccer player Devon Davenport: responsible, hardworking, mature. But all that changes when the police find Devon home sick from school as they investigate the case of an abandoned baby. Soon the connection is made?Devon has just given birth; the baby in the trash is hers. After That Morning, there's only one way to define Devon: attempted murderer. And yet gifted author Amy Efaw does the impossible? she turns Devon into an empathetic character, a girl who was in such deep denial that she refused to believe she was pregnant. Through airtight writing and fast-paced, gripping storytelling, Ms. Efaw takes the reader on Devon's unforgettable journey toward clarity, acceptance, and redemption.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been commonly referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful

examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

This book shows how phenomenology of the social sciences differs from positivistic approaches, and presents Schutz's theory of relevances--a key feature of his own phenomenology of the social world. It begins with Schutz's appraisal of how Husserl influenced him, and continues with exchanges between Schutz and Eric Voegelin, Felix Kaufmann, Aron Gurwitsch, and Talcott Parsons. This book presents, for the first time, Schutz's incisive criticisms of T.S. Eliot's theory of culture.

The Complete Tracker is a concise, thorough guide to the tracks, signs, and habits of North America's most popular species of wildlife. Readers learn the secrets of a master tracker, assembling a clear picture from tracks, scat, and other signs. Was it a dog or a wolf? Fox or coyote? Did it pass by yesterday or an hour ago? The Complete Tracker also teaches how to get close to animals - everything from bobcats to beavers, marmots to moose - by knowing the details of their habits and a master-tracker's tips on avoiding detection. Over 150 line drawings show tracks of 60 different species of wildlife under a great variety of terrain conditions. Also includes maps, charts, and diagrams.

The Essence of Buddhism Campbell Books

This is the first book of its kind to consider at length Coleridge's relationship to his near contemporary, Friedrich Schiller. Contrary to received opinion, the author shows that Schiller's notion of 'aesthetic education' was indeed valuable to Coleridge at an early stage in his career and that it helped to shape much of his work - from his theory of imagination and his notion of the clerisy to his views on women and his account of historical change.

Combining close readings with historical research, this book challenges readers to rethink the radical potential of idealist aesthetics.
