My Word Book Tellwell Talent

‘ A biography as sensuously satisfying as a fine French meal. Colette surely would have approved it as much for its aesthetic appeal as for its rare insight and scholarship. ’ Robyn Davidson
Colette ’ s France is the remarkable life story of an extraordinary woman, who was known simply as ‘ Colette ’ . This lavishly illustrated biography of the French writer, who was as famous for her novels as for her often controversial life, follows her journey through the landscapes of France

where she lived and loved – from a childhood in Burgundy and coming of age in the Belle Époque Paris, to Provence and St Tropez. Jane Gilmour recounts the varied lives of a sensual, artistic, rebellious woman who lived life on her own terms, from prodigious writer and journalist, risqué performer, lover and seducer, businesswoman, baroness, mother, and finally, grand old lady of letters. Dr Jane Gilmour is an Australian with a personal passion and extensive knowledge of Colette and her life. Jane lived in France for many years where she studied the writer at the Sorbonne and completed her thesis on the writer there. Jane has continued her passion for her subject frequently returning to France to write this book and to visit the regions where Colette lived, loved and worked.

From fatal heatwaves and cruel droughts to devastating floods and fast-depleting water tables, climate change is the greatest disruptor of our time ? and it can no longer be ignored. For most of us the odds seem overwhelming and solutions seem out of reach. Yet, in this forcefully argued book, climate change practitioner, teacher and investor Mridula Ramesh emphasizes that while the situation is grim, it is not without hope. Drawing on her extensive practical and investing experience, she explores myriad facets of this raging issue: why women are peculiarly affected by a warming climate; how climate change poses a security threat to the Indian state; why just focussing on green sources of power is an incomplete solution for India; how managing waste can create hundreds of thousands of urban jobs and how households can cope in a `Day Zero? water situation. In doing so, she shows how climate warriors, from the cotton fields of Punjab and thriving eco

start-ups in Bengaluru, to a forest guardian in Assam and the johads of Rajasthan, have employed ingenuity and initiative to adapt to the changing conditions ? and sometimes reverse their shattering effects. Timely, urgent and thought-provoking, this book is an urgent call to action ? and an essential manifesto for every Indian citizen to follow.

Here you will find a rather bold collection of short poems that Brandy Toomer has composed primarily about some of her most personal life situations. Focusing on the year of 2017 and being primarily inspired to write after the deadly Las Vegas music festival shooting, this book focuses on Beauty, Evil and Life. For an author that gets to travel across the country with her husband and little Chihuahua on a constant basis, she sees plenty on all of those subjects. Expect to see some humor, mixed in with the trials, which is very evident in the day to day which everyone can probably relate to in one way or another. On the other end, some may not agree with a line or two, as that is what makes us all who we are. We do have free will and you will find Mrs. Toomer has displayed this in her writing. The moral of the story is: while there is beauty, and life does flourish, there will somehow always end up being Evil Between.

This is the first book of its kind to consider at length Coleridge's relationship to his near contemporary, Friedrich Schiller. Contrary to received opinion, the author shows that Schiller's notion of 'aesthetic education' was indeed valuable to Coleridge at an early stage in his career and that it helped to shape much of his work - from his theory of imagination and his notion of the clerisy to his views on women and his account of historical change. Combining close readings with historical research, this book challenges readers to rethink the radical potential of idealist aesthetics.
