Corporate Restructuring is a practical approach to rescuing troubled companies and driving underperforming companies to top performance. It combines proven restructuring strategies with rigorous theoretical analysis. This book explains how to set and achieve asset, staffing, sales and profit goals. Topics include diagnostic tools to identify the root cause of problems, the human dynamics that cause a company to thrive or wither, customer service and relationship marketing, customer intelligence systems, new product development, process mapping, continuous process improvement and re-engineering as well as integrating IT into corporate strategy. It is also discussed how to find the resources needed to keep a company alive during restructuring and how to use bankruptcy offensively and defensively. Corporate Restructuring emphasizes execution. All the restructuring theories in the world weigh less than a simple plan, well executed.

Here within the pages of this book, you will discover an assortment of poems on a variety of themes that we can all

relate to. Haikus, rhymes and free verse that affect us all at some point in our busy lives: some humorous, some romantic, some heart-touching, some dark, some festive and even some on animal and plant themes, questioning us on our responsibilities on the welfare of our planet and the cosmos. You may look upon these as a mixed packet of sweets. So, please sit back, relax and delve at your pleasure inside, until you find a delicious sugary one that you relish and taste! The author presents to the reader, a fine selection of fifty-five poems brought together, for the first time finally in print, to reminisce upon his fifty-fifth year of life, accompanied by his very own paintings, illustrations, sketches and photos too.

I am an Engineer Manager with more than 15 years' experience in the Automotive and Aerospace industries. Worked and lived in multiple countries. I also possess several management degrees that allow me to be a better leader, better professional, and person. My passion is to lead multicultural teams to achieve success. I can tell you there is usually a better, smarter way to do things, to be assertive and go beyond your expectations if you believe in yourself, trust your instincts, let go of the fear of failure, be open to learning new things, and don't let others push you back. I will share the knowledge and tools I used by working in several countries and corporations as an engineer and manager. I intend to be as forthcoming as possible, crude, to say things as they really are and how they worked for me. I gathered valuable information from my experience and from research to lay it here down for you in a simple, down to earth manner. You will be able to apply it starting day one. I worked with all kinds of people in different positions in a company, from the shop floor to CEOs/Company owners, with different cultures, from different countries and different generations. I failed as much as I succeeded. I made mistakes, made breakthroughs, embraced both, and learned with both. I am here to help you. My goal is to empower you to have a new perspective, become smarter, see the signs in front of you, and grab the opportunities. I had some help during my work life, and now that I am in my 40s, I decided it is time to share my knowledge with others. Continuing to evolve in my career, always learning and open to new

experiences and challenges. Workplaces are complex and in movement, not static places where one rule applies to all. Come and learn how to navigate through rough water to get to your desired goal.
