A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbin, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O’ Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France’s prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Preparing Students for College and Careers addresses
measurement and research issues related to college and career
readiness. Educational reform efforts across the United States
have increasingly taken aim at measuring and improving
postsecondary readiness. These initiatives include developing new
content standards, redesigning assessments and performance
levels, legislating new developmental education policy for
colleges and universities, and highlighting gaps between
graduates’ skills and employers’ needs. In this comprehensive
book, scholarship from leading experts on each of these topics is
collected for assessment professionals and for education
researchers interested in this new area of focus. Cross-disciplinary
chapters cover the current state of research, best practices, leading
interventions, and a variety of measurement concepts, including
construct definitions, assessments, performance levels, score
interpretations, and test uses.
