Competency based interview questions (motivation, self confidence, flexibility, etc) The idea behind competency interviewing is that every question targets a certain skill or ability (a competency), one that is relevant for the job you apply for (flexibility, self-confidence, communication skills, etc). Before the start of the interview, the HR managers should know why they ask each question, and what they expect to hear in a good answer (in terms of your words, and attitude).
Competency based interview questions attempt to link together three parameters – knowledge, skills, and attitude. These competency based questions will assess whether you have the right balance between great interpersonal

skills, education or experience,
and the right attitude for the
role in question.
