ESSENTIAL PSYCHIATRY FOR THE AESTHETIC PRACTITIONER
Aesthetic practice requires an understanding of human psychology, yet professionals across cosmetic medicine and related fields receive no formal training in identifying and managing psychological conditions. *Essential Psychiatry for the Aesthetic Practitioner* provides concise yet comprehensive guidance on approaching patient assessment, identifying common psychiatric diseases, and managing challenging situations in cosmetic practice. This much-needed guide brings together contributions by dermatologists, plastic surgeons, psychiatrists, psychologists, and other experts to help practitioners understand the role of psychology in cosmetic practice and improve interpersonal relations with their patients. Assuming no previous background knowledge in psychiatry, the text provides cosmetic practitioners of all training and experience levels with clear guidance, real-world advice, and effective psychological tools to assist their practice. Through common clinical scenarios, readers learn to determine if a patient is a good candidate for a cosmetic procedure, enhance the patient experience, deal with difficult personalities in the cosmetic clinic, recognize obsessive compulsive and body dysmorphic disorders, and more. Describes how to use psychologically informed approaches and treatments for aesthetic patients Features easy-to-use psychological tools such as motivational interviewing, progressive muscle relaxation, guided imagery, and acceptance and commitment therapy Includes extensive references and practical tips for understanding the psychological implications of cosmetic treatments Covers cosmetic consultations for female, male, and transgender patients Discusses the history and psychology of beauty as well as the role of cosmetics and cosmeceuticals Emphasizes the importance of screening for common psychological comorbidities Addresses the impact of social media on self-image and its role in a growing crisis in beauty and appearance Highlights the need to develop new guidelines to treat rapidly evolving patient populations Explores how gender fluidity and variations in ethnicity are changing the approaches to aesthetic patients *Essential Psychiatry for the Aesthetic Practitioner* is required reading for dermatologists, plastic surgeons, cosmetic doctors, dentists, nurses, and physician assistants and all other professionals working in aesthetic medicine.

The Living Church

Written by leading social psychologists with expertise in leadership, health and emergency behaviour - who have also played an important role in advising governments on COVID-19 - this book provides a broad but integrated analysis of the psychology of COVID-19 It explores the response to COVID-19 through the lens of social identity theory, drawing from insights provided by four decades of research. Starting from the premise that an effective response to the pandemic depends upon people coming together and supporting each other as members of a common community, the book helps us to understand emerging processes related to social (dis)connectedness, collective behaviour and the societal effects of COVID-19. In this it shows how psychological theory can help us better understand, and respond to, the events shaping the world in 2020. Considering key topics such as: Leadership Communication Risk perception Social isolation Mental health Inequality Misinformation Prejudice and racism Behaviour change Social Disorder This book offers the foundation on which future analysis, intervention and policy can be built. We are proud to support the research into Covid-19. We are delighted that on publication the finalised eBook will be free. For those who prefer print, it will be possible to purchase a paperback version. All Royalties from this book will be donated to the Save the Children charity.
