The service concept development phase should start from a thorough description of customer requirements and how NSD can meet those requirements to the customer's satisfaction (John and Story, 1998). It is generally a strategic issue, as the insurance company aims to come up with a concept for a new service which will fill market gaps.

Concept-Development 33-1 Practice Page

On the previous page we considered only the weight vector W for a block on a friction-free incline. Here we also consider the normal force n . 1. With no friction, only two forces act: W and n . We put the tail of n at the block's center to coincide with the tail of W —so we can better find the resultant via the parallelogram rule. 2.

Concept-Development 9-1 Practice Page

Concept-Development 9-2 Practice Page. 50 N During each bounce, some of the ball's mechanical energy is transformed into heat (and even sound), so the PE decreases with each bounce. 6 100 N ... 33. The energy an
